Liberation Movement, from the creators and curators of the massively popular Instagram account LGBT History. “If you think the fight for justice and equality only began in the streets outside Stonewall, with brave patrons of a bar fighting back, you need to read We Are Everywhere right now.”—Anders on Cooper Through the lenses of protest, power, and

pride, We Are Everywhere is an essential and empowering introduction to the history of the fight for queer liberation. Combining exhaustively researched narrative with meticulously curated photographs, the book traces queer activism from its roots in late-nineteenth-century Europe—long before the pivotal Stonewall Riots of 1969—to the gender warriors

leading the charge today. Featuring more than 300 images from more than seventy photographers and twenty archives, this inclusive and intersectional book enables us to truly see queer history unlike anything before, with glimpses of activism in the decades preceding and following Stonewall, family life, marches, protests, celebrations, mourning, and Pride. By challenging many of the

assumptions that dominate mainstream LGBTQ+ history, *We Are Everywhere* shows readers how they can—and must—honor the queer past in order to shape our liberated future.

Just Above My Head Random House Trade Paperbacks “With *A Visitation of Spirits*, Randall Kenan continues James Baldwin’s legendary tradition of ‘telling it on the mountain.’” —

San Francisco Chronicle When *A Visitation of Spirits* was published, Randall Kenan (1963-2020) was instantly recognized as a writer of significance, and one who brought into literary fiction the southern Black, gay experience, one of the first such writers to achieve mainstream success. His groundbreaking first novel, *A Visitation of Spirits*, is the powerful story of Horace Cross, a popular and high-achieving

sixteen-year-old boy, who wrestles with the guilt of discovering who he is, a young man attracted to other men and yearning to escape the narrow confines of the small town of Tims Creek, North Carolina, where he grew up. Raised on stories of prophets, revelations, and dreams, his internal struggles take shape in his mind as demons and angels battling for his soul,

culminating in one night of horrible and tragic transformation . A Visitation of Spirits established Randall Kenan as a literary master, and his influence continues to be felt. Now in Grove paperback and with an introduction by Tarell Alvin McCraney, Oscar-winning writer of Moonlight, A Visitation of Spirits is a classic novel of growing up from a literary giant. Conversations with Audre Lorde Beacon

Press
Audre Lorde (1934-1992), the author of eleven books of poetry, described herself as a "Black feminist lesbian poet warrior mother," but she added that this phrase was inadequate in capturing her full identity. The interviews in this collection portray the many additional sides of the Harlem-born author and activist. She was also a rebellious child of

Caribbean parents, a mastectomy patient, a blue-collar worker, a college professor, a student of African mythology, an experimental autobiographer in her book titled Zami, a critic of imperialism, and a charismatic orator. Despite her intense engagement with the major social movements of her time, Lorde told interviewers that she was always an outsider, a

position of weakness and of strength. Most of her schoolmates were white. She married a white legal-aid attorney, and after their divorce she was the partner of a white psychologist for many years. These intimate alliances with whites caused some African Americans of both genders to question the depth of her solidarity. Lorde expressed distrust of some white feminists and charged that

they lacked real understanding of African American struggles. Writing proved to be her powerful weapon against injustice. Painfully aware that differences could provoke prejudice and violence, she promoted the bridging of barriers. These interviews reveal the sense of displacement that made Lorde a champion of the outcast and the forgotten--

whether in New York, Mississippi, Berlin, or Soweto. **Full Dissidence** Ten Speed Press

This book "collects interview and conversations which contribute substantially

to an understanding and clarification of James Baldwin's personality and perspective, his interests and achievements. The collection also represents a kind of companion piece to the earlier dialogues, *A Rap on Race* with Margaret Mead and *A Dialogue with Nikki Giovanni*-- Introduction. [James Baldwin: The Last Interview](#) Springer A breakout

media and political analyst delivers a sweeping snapshot of American Democracy and the role that African Americans have played in its shaping while offering concrete information to help harness the electoral power of the country's rising majority and exposing political forces aligned to subvert and suppress Black voters. Black voters were critical to the Democrats' 2018 blue

wave. In fact, 90 percent of Black voters supported Democratic House candidates, compared to just 53 percent of all voters. Despite media narratives, this was not a fluke. Throughout U.S. history, Black people have played a crucial role in the shaping of the American experiment. Yet still, this powerful voting bloc is often dismissed as some "amorphous" deviation, argues Tiffany

Cross. Say It Louder! is her explosive examination of how America's composition was designed to exclude Black voters, but paradoxically would likely cease to exist without them. With multiple tentacles stretching into the cable news echo chamber, campaign leadership, and Black voter data, Cross creates a wrinkle in time with a reflective look at the timeless efforts

endlessly attempting to deny people of color the right to vote—a basic tenet of American democracy. And yet as the demographics of the country are changing, so too is the electoral power construct—by evolution and by force, Cross declares. Grounded in the most-up-to-date research, Say It Louder! is a vital tool for a wide swath of constituencies .

One of James Baldwin's two plays produced on Broadway, The Amen Corner pulses with the music and energy of America's black church and bristles with the pain and anger of racial injustice. *Conversations with James Baldwin* Simon and Schuster Winner, 2020 Body and Embodiment Best Publication Award, given by the American Sociological Association Honorable Mention, 2020

Sociology of Sex and Gender Distinguished Book Award, given by the American Sociological Association How the female body has been racialized for over two hundred years There is an obesity epidemic in this country and poor black women are particularly stigmatized as “diseased” and a burden on the public health care system. This is only the most recent incarnation of the fear of fat black women, which Sabrina Strings shows took root more than two hundred years ago. Strings weaves together an eye-opening historical narrative ranging from the Renaissance to the current moment, analyzing important works of art, newspaper and magazine articles, and scientific literature and medical journals—where fat bodies were once praised—showing that fat phobia, as it relates to black women, did not originate with medical findings, but with the Enlightenment era belief that fatness was evidence of “savagery” and racial inferiority. The author argues that the contemporary ideal of slenderness is, at its very core, racialized and racist. Indeed, it was not until the early twentieth century, when racialized attitudes against fatness were already

entrenched in the culture, that the medical establishment began its crusade against obesity. An important and original work, *Fearing the Black Body* argues convincingly that fat phobia isn't about health at all, but rather a means of using the body to validate race, class, and gender prejudice.

The fifteen essays, written by such eminent scholars as Derrida, Heidegger, Deleuze, Klossowski, and Blanchot, focus on the Nietzschean concepts of the Will to Power, the Overman, and the Eternal Return, discuss Nietzsche's style, and deal with the religious implications of his ideas. Taken together they provide an indispensable foil to the interpretations available in

most current American writing. **The Amen Corner** Little, Brown Books for Young Readers In the mid-1960s, African American artists and intellectuals formed the Black Arts movement in tandem with the Black Power movement, with creative luminaries like Amiri Baraka, Gwendolyn Brooks, Toni Cade Bambara, and Gil Scott-Heron among their number. In this follow-

up to his award-winning history of the movement nationally, James Smethurst investigates the origins, development, maturation, and decline of the vital but under-studied Black Arts movement in the South from the 1960s until the early 1980s. Traveling across the South, he chronicles the movement's radical roots, its ties to interracial civil rights organizations on the Gulf

Coast, and how it thrived on college campuses and in southern cities. He traces the movement's growing political power as well as its disruptive use of literature and performance to advance Black civil rights. Though recognition of its influence has waned, the Black Arts movement's legacy in the South endures through many of its initiatives and constituencies. Ultimately, Smethurst argues that

the movement's southern strain was perhaps the most consequential, successfully reaching the grassroots and leaving a tangible, local legacy unmatched anywhere else in the United States. *James Baldwin* Melville House "This fine collection of essays represents an important contribution to the rediscovery of Baldwin's stature as essayist, novelist, black prophetic

political voice, and witness to the Civil Rights era. The title provides an excellent thematic focus. He understood both the necessity, and the impossibility, of being a black 'American' writer. He took these issues 'Beyond'--- Paris, Istanbul, various parts of Africa---but this formative experience only returned him to the unresolved dilemmas. He was a fine novelist and a major

prophetic political voice. He produced some of the most important essays of the twentieth century and addressed in depth the complexities of the black political movement. His relative invisibility almost lost us one of the most significant voices of his generation. This welcome 'revival' retrieves it. Close call." --- Stuart Hall, Professor Emeritus, Open University This

interdisciplinary collection by leading writers in their fields brings together a discussion of the many facets of James Baldwin, both as a writer and as the prophetic conscience of a nation. The core of the volume addresses the shifting, complex relations between Baldwin as an American—"as American as any Texas GI" as he once wryly put it—and his life as an itinerant cosmopolitan.

His ambivalent imaginings of America were always mediated by his conception of a world “beyond” America: a world he knew both from his travels and from his voracious reading. He was a man whose instincts were, at every turn, nurtured by America; but who at the same time developed a ferocious critique of American exceptionalism. In seeking to understand how, as an

American, he could learn to live with difference—breaking the power of fundamentalisms of all stripes—he opened an urgent, timely debate that is still ours. His America was an idea fired by desire and grief in equal measure. As the authors assembled here argue, to read him now allows us to imagine new possibilities for the future. Artists and Writers, was “unmistakably the work of a master” (The New York Times Book Review). Like Forty-One False Starts, Nobody’s Looking at You brings together previously uncompiled pieces, mainly from The New Yorker and The New York Review of Books. The title piece of this wonderfully eclectic collection is a profile of the fashion designer Eileen Fisher, whose mother

often said to her, “Nobody’s looking at you.” But in every piece in this volume, Malcolm looks closely and with impunity at a broad range of subjects, from Donald Trump’s TV nemesis Rachel Maddow, to the stiletto-heel-wearing pianist Yuju Wang, to “the big-league game” of Supreme Court confirmation hearings. In an essay called “Socks,” the Pevears are

seen as the “sort of asteroid [that] has hit the safe world of Russian Literature in English translation,” and in “Dreams and Anna Karenina,” the focus is Tolstoy, “one of literature’s greatest masters of manipulative techniques.” Nobody’s Looking at You concludes with “Pandora’s Click,” a brief, cautionary piece about e-mail etiquette that was written in the early two

 “A powerful study of how to bear witness in a moment when America is being called to

do the same.”—Time
 James Baldwin grew disillusioned by the failure of the civil rights movement to force America to confront its lies about race. What can we learn from his struggle in our own moment? Named one of the best books of the year by Time, The Washington Post, and the Chicago Tribune • Winner of the Stowe Prize • Shortlisted for the Goddard Riverside Stephan Russo Book

Prize for Social Justice “Not everything is lost. Responsibility cannot be lost, it can only be abdicated. If one refuses abdication, one begins again.”—James Baldwin
Begin Again is one of the great books on James Baldwin and a powerful reckoning with America’s ongoing failure to confront the lies it tells itself about race. Just as in Baldwin’s “after times,” argues Eddie S. Glaude Jr., when white

Americans met the civil rights movement's call for truth and justice with blind rage and the murders of movement leaders, so in our moment were the Obama presidency and the birth of Black Lives Matter answered with the ascendance of Trump and the violent resurgence of white nationalism. In these brilliant and stirring pages, Glaude finds hope and guidance in Baldwin as he

mixes biography—drawn partially from newly uncovered Baldwin interviews—with history, memoir, and poignant analysis of our current moment to reveal the painful cycle of Black resistance and white retrenchment. As Glaude bears witness to the difficult truth of racism's continued grip on the national soul, *Begin Again* is a searing exploration of the tangled web of race,

trauma, and memory, and a powerful interrogation of what we must ask of ourselves in order to call forth a new America.

The Cross of Redemption

One World Nature is out of balance in the human kingdom. The sun hasn't shone in years, and crops are failing. Worse yet, strange and hostile creatures have begun to appear. And the people's survival hangs in the balance. To solve the crisis, the

oracle stones are cast, and Kaede and Taisin, two seventeen-year-old girls, are picked to go on a dangerous and unheard-of journey to Tanlili, the city of the Fairy Queen. Taisin is a sage, thrumming with magic, and Kaede is of the earth, without a speck of the otherworldly. And yet the two girls' destinies are drawn together during the mission. As members of their party succumb to

unearthly attacks and fairy tricks, the two come to rely on each other and even begin to fall in love. But the Kingdom needs only one huntress to save it, and what it takes could tear Kaede and Taisin apart forever. The exciting adventure prequel to Malinda Lo's highly acclaimed novel *Ash* is overflowing with lush Chinese influences and details inspired by the I Ching,

and is filled with action and romance. We Are Everywhere W. W. Norton & Company A bold and impassioned meditation on injustice in our country that punctures the illusion of a postracial America and reveals it as a place where authoritarianism looms large. Whether the issues are protest, labor, patriotism, or class division, it is clear that professional sports are no longer simply fun and games.

Rather, the industry is a hotbed of fractures and inequities that reflect and even drive some of the most divisive issues in our country. The nine provocative and deeply personal essays in *Full Dissidence* confront the dangerous narratives that are shaping the current dialogue in sports and mainstream culture. The book is a reflection on a culture where African Americans continue to

navigate the sharp edges of whiteness—as citizens who are always at risk of being told, often directly from the White House, to go back to where they came from. The topics Howard Bryant takes on include the player-owner relationship, the militarization of sports, the myth of integration, the erasure of black identity as a condition of success, and the kleptocracy that has forced America to

ask itself if its beliefs of freedom and democracy are more than just words. In a time when authoritarianism is creeping into our lives and is being embraced in our politics, *Full Dissidence* will make us question the strength of the bonds we think we have with our fellow citizens, and it shows us why we must break from the malignant behaviors that have become normalized in everyday life. *Responsibility for Justice*

Delta Queerness in Play examines the many ways queerness of all kinds—from queer as ‘LGBT’ to other, less well-covered aspects of the queer spectrum—intersects with games and the social contexts of play. The current unprecedented visibility of queer creators and content comes at a high tide of resistance to the inclusion of those outside a long-imagined

cisgender, heterosexual, white male norm. By critically engaging the ways games—as a culture, an industry, and a medium—help reproduce limiting binary formations of gender and sexuality, *Queerness in Play* contributes to the growing body of scholarship promoting more inclusive understandings of identity, sexuality, and games. *Begin Again* Univ. Press of Mississippi

A major collection of short stories by one of America’s most important writers—informed by the knowledge the wounds racism leaves in both its victims and its perpetrators.

- “If Van Gogh was our 19th-century artist-saint, James Baldwin is our 20th-century one.”

—Michael Ondaatje, Booker Prize-winner of *The English Patient* In this modern classic, “there’s no way not to

suffer. But you try all kinds of ways to keep from drowning in it." The men and women in these eight short fictions grasp this truth on an elemental level, and their stories detail the ingenious and often desperate ways in which they try to keep their head above water. It may be the heroin that a down-and-out jazz pianist uses to face the terror of pouring his life into an inanimate instrument. It may be the brittle piety of a father who can never forgive his son for his illegitimacy. Or it may be the screen of bigotry that a redneck deputy has raised to blunt the awful childhood memory of the day his parents took him to watch a black man being murdered by a gleeful mob. By turns haunting, heartbreaking, and horrifying, *Going to Meet the Man* is a major work by one of our most important writers.
