Will Friedwald's illuminating, opinionated essays—provocative, funny, and personal—on the lives and careers of more than three hundred singers anatomize the work of the most important jazz and popular performers of the twentieth century. From giants like Ella Fitzgerald, Louis Armstrong, Frank Sinatra, and Judy Garland to lesser-known artists like Jeri Southern and Joe Mooney, they have created a body of work that continues to please and inspire. Here is the most extensive biographical and critical survey of these singers ever written, as well as an essential guide to the Great American Songbook and those who shaped the way it has been sung. The music crosses from jazz to pop and back again, from the songs of Irving Berlin and W. C. Handy through Stephen Sondheim and beyond, bringing together straightforward jazz and pop singers (Billie Holiday, Perry Como); hybrid artists who moved among genres and combined them (Peggy Lee, Mel

Tormé); the leading men and women of Broadway and Hollywood (Ethel Merman, Al Jolson); yesterday's vaudeville and radio stars (Sophie Tucker, Eddie Cantor); and today's cabaret artists and hit-makers (Diana Krall, Michael Bublé). Friedwald has also written extended pieces on the most representative artists of five significant genres that lie outside the songbook: Bessie Smith (blues), Mahalia Jackson (gospel), Hank Williams (country and western), Elvis Presley (rock 'n' roll), and Bob Dylan (folk-rock). Friedwald reconsiders the personal stories and professional successes and failures of all these artists, their songs, and their performances, appraising both the singers and their music by balancing his opinions with those of fellow musicians, listeners, and critics. This magisterial reference book—ten years in the making—will delight and inform anyone with a passion for the iconic music of America, which continues to resonate throughout our popular culture.

Biography of singer Nat King Cole.

Jazz on My Mind G K Hall & Company

One of the most popular and memorable American musicians of the 20th century, Nat King Cole (1919-65) is remembered today as both a pianist and a singer, a feat rarely accomplished in the world of popular music. Now, in this complete life and times biography, author Will Friedwald offers a new take on this fascinating musician, framing him first as a bandleader and then as a star. In Cole's early phase, Friedwald explains, his primary

task of keeping his trio going was just as much of a focus for him as his own playing and singing, always a collective or group performance. In the second act, Cole's collaborators were more likely to be arranger-conductors like Nelson Riddle and Gordon Jenkins, rather than his sidemen on bass and guitar. In the first act, his sidemen were equals, in the second phase, his collaborators were tasked exclusively with putting the focus on him, making him sound good, while being largely invisible themselves. Friedwald brings his full musical knowledge to bear in putting the man in the work, demonstrating how this duality appears over and over again in Cole's life and career: jazz vs. pop, solo vs. trio, piano vs. voice, wife number one (Nadine) vs. wife number two (Maria), the good songs vs. the less-than-good songs, the rhythm numbers vs. the ballads, the funny songs and novelties vs. the "serious" songs of love and loss, Cole as an advocate for the Great American Songbook vs. Cole the intrepid explorer of other options: world music, rhythm & blues, country & western. Cole was different from his contemporaries in other ways; for roughly ten years after the war, the majority of hitmakers on the pop charts were veterans of the big band experience, from Sinatra on down.

The Cybersecurity Body of Knowledge explains the content, purpose, and use of eight knowledge areas that define the boundaries of the discipline of cybersecurity. The discussion focuses on, and is driven by, the essential concepts of each knowledge area that collectively capture the cybersecurity body of knowledge to provide a complete picture of the field. This book is based on a brand-new and up to this point unique, global initiative, known as CSEC2017, which was created and endorsed by ACM, IEEE-CS, AIS SIGSEC, and IFIP WG 11.8. This has practical relevance to every educator in the discipline of cybersecurity. Because the specifics of this body of knowledge cannot be imparted in a single text, the authors provide the necessary comprehensive overview. In essence, this is the entry-level survey of the comprehensive field of cybersecurity. It will serve as the roadmap for individuals to later drill down into a specific area of interest. This presentation is also explicitly designed to aid faculty members, administrators, CISOs, policy makers, and stakeholders involved with cybersecurity workforce development initiatives. The book is oriented toward practical application of a computing-based foundation, crosscutting concepts, and essential knowledge and skills of the cybersecurity discipline to meet workforce demands. Is America still what it once was? As recently as fifty years ago, America was a bold, spirited nation. The world regarded America

as a bastion of freedom, democracy, wealth, and strength. Her God-fearing citizens were envied because of their remarkably high standard of living. The nation invited immigration and was always ready to help the downtrodden. One could come to America and become all that one wanted to be. The U.S. was admired as one of the wonders of the world due largely to the Constitution, with its dedication to fundamental rights of the individual and its belief in God. The diverse group of fifty-six signers of the Declaration had set the stage for a noble experiment, the likes of which the world had never seen. Today, the face of America is drastically different, with those who would decry her exceptionalism. In this politically charged book, Warren Jorgenson explores the fundamental differences between conservatives and liberals, whom he labels daisies and dandelions, respectively, and the current state of the U.S. He makes the case that it all boils down to quality of parenting and the first five years of a person's life. Good parenting produces daisies while poor parenting results in dandelions. *Daisies and Dandelions* is sure to incite heated discussions on both sides, but they're discussions worth having for the sake of America. Warren 'Jorgy' Jorgenson is a graduate of Drake University and an ex-marine and veteran of World War II when he was a prisoner of war of the Japanese. After the war, he spent more than thirty years in the phonograph record industry. He and his beloved Ruth are at home in California.

Great Piano Solos: The Black Book Wise Publications Sport and Entrepreneurship combines perspectives derived from business history and sports history, focusing on the important but relatively unexplored relationship of entrepreneurship and sport. This important volume offers clearer definitions of both sports products and sports entrepreneurship, gives due regard to social entrepreneurs, and assesses the continuing relevance of Hardy's pioneering study from the 1980s. Hardy himself provides an introduction to the volume, and chapters by Wray Vamplew and Dilwyn Porter supply an overarching theoretical framework, offering new ways of identifying and describing sports-related entrepreneurial activity. Each chapter explores a particular case study, focusing on specific examples of entrepreneurship as it has been practised in a variety of sporting contexts from the nineteenth to the early twenty-first centuries, ranging from 19th century equestrianism, to 20th century ice hockey, and football in the 21st century and covering entrepreneurship in North America, Europe and the United Kingdom. Each, in its own way, adds depth and complexity to the discussion. Bridging the gap between sports history and business history, too often seen as separate spheres, Sport and Entrepreneurship will be of great

interest to scholars of sport history, business and sport, business history, and entrepreneurship. The chapters were originally published as a special issue of The International Journal of the History of Sport.
