What Is the Story of Captain Kirk? Penguin

In this indispensable guide for anyone who must communicate in speech or writing, Schwartzberg shows that most of us fail to convince because we don't have a point—a concrete contention that we can argue, defend, illustrate, and prove. He lays out, step-by-step, how to develop one. In Joel's Schwartzberg's ten-plus years as a strategic communications trainer, the biggest obstacle he's come across—one that connects directly to nervousness, stammering, rambling, and epic fail—is that most speakers and writers don't have a point. They typically have just a title, a theme, a topic, an idea, an assertion, a catchphrase, or even something much less. A point is something more. It's a contention you can propose, argue, defend, illustrate, and prove. A point offers a position of potential value. Global warming is real is not a point. Scientific evidence shows that global warming is a real, human-generated problem that will have a devastating environmental and financial impact is a point. When we have a point, our influence snaps into place. We communicate belief, conviction, and urgency. This book shows you how to identify your point, leverage it, stick to it, and sell it and how to train others to identify and successfully make their own points.

A young boy emerges from life-saving surgery with remarkable stories of his visit to heaven. *Heaven Is for Real* is the true story of the four-year old son of a small town Nebraska pastor who during emergency surgery slips from consciousness and enters heaven. He survives and begins talking about being able to look down and see the doctor operating and his dad praying in the waiting room. The family didn't know what to believe but soon the evidence was clear. Colton said he met his miscarried sister, whom no one had told him about, and his great grandfather who died 30 years before Colton was born, then shared impossible-to-know details about each. He describes the horse that only Jesus could ride, about how "reaaally big" God and his chair are, and how the Holy Spirit "shoots down power" from heaven to help us. Told by the father, but often in Colton's own words, the disarmingly simple message is heaven is a real place, Jesus really loves children, and be ready, there is a coming last battle.

Following on the heels of Lisa Cron's breakout first book, *Wired for Story*, this writing guide reveals how to use cognitive storytelling strategies to build a scene-by-scene blueprint for a riveting story. It's every novelist's greatest fear: pouring their blood, sweat, and tears into writing hundreds of pages only to realize that their story has no sense of urgency, no internal logic, and so is a page one rewrite. The prevailing wisdom in the writing community is that there are just two ways around this problem: pantsing (winging it) and plotting (focusing on the external plot). Story coach Lisa Cron has spent her career discovering why these methods don't work and coming up with a powerful alternative, based on the science behind what our brains are wired to crave in every story we read (and it's not what you think). In *Story Genius* Cron takes you, step-by-step, through the creation of a novel from the first glimmer of an idea, to a complete multilayered blueprint—including fully realized scenes—that evolves into a first draft with the authority, richness, and command of a riveting sixth or seventh draft.

The film producers of the early Dracula and Frankenstein films wasted no time creating a character who's been creeping out of his coffin and entertaining audiences since 1932. Author Sheila Keenan explains the history of the movie and its remakes, the legendary curse of King

Tut's mummy, and what lies ahead for this monstrous creature.
