LEBLANC CASSIDY

The Future of the

Postal Sector in a
Digital World CQ Press
For eight days in March
1970, over 200,000
postal workers staged
an illegal "wildcat"

strike--the largest in United States history--for better wages and working conditions. Picket lines started in New York and spread across the country like wildfire. Strikers defied court injunctions, threats of termination, and their own union leaders. In the negotiated aftermath, the U.S. Post Office became the U.S. Postal Service, and postal workers received full collective bargaining rights and wage increases, all the while continuing to fight for greater democracy within their unions. Using archives, periodicals, and oral histories, Philip Rubio shows how this strike, born of frustration and rising expectations and emerging as part of a larger 1960s-1970s global rank-and-file

labor upsurge, transformed the post office and postal unions. It also led to fifty years of clashes between postal unions and management over wages, speedup, privatization, automation, and service. Rubio revives the 1970 strike story and connects it to today's postal financial crisis that threatens the future of a vital 245-year-old public communications institution and its labor unions.

One of The Atlantic's Great American Novels of the Past 100 Years
"The comedy crackles, the puns pop, the satire explodes."—The New York Times
"The work of a virtuoso with prose . . . His intricate

symbolic order [is] akin to that of Joyce's *Ulysses*."—Chicago Tribune "A puzzle, an intrigue, a literary and historical tour de force."—San Francisco Examiner The highly original satire about Oedipa Maas, a woman who finds herself enmeshed in a worldwide conspiracy. When her ex-lover, wealthy real-estate tycoon Pierce Inverarity, dies and designates her the coexecutor of his estate, California housewife Oedipa Maas is thrust into a paranoid mystery of metaphors, symbols, and the United States Postal Service. Traveling across Southern California, she meets some extremely interesting characters, and attains a not inconsiderable

amount of self-knowledge.

The Postal

Accountability and

Enhancement Act of

2006 required an

evaluation of strategies

and options for reforms

of the U.S. Postal

Service (USPS). USPS's

business model is to

fulfill its mission

through self-

supporting,

businesslike

operations; however,

USPS has experienced

increasing difficulties.

Due to volume

declines, losses, a cash

shortage, and rising

debt, the USPS was

added to a high-risk list

in July 2009. The

objectives of this

report were to assess:

(1) the viability of

USPS's business

model; (2) strategies

and options to address

challenges to its business model; and (3) actions Congress and USPS need to take to facilitate progress toward financial viability. Includes recommendations. Charts and tables.

United States Congressional Serial Set, Serial No. 14877, Senate Reports Nos. 302-342 UNC Press Books

Charles Bukowski's classic roman à clef, *Post Office*, captures the despair, drudgery, and happy dissolution of his alter ego, Henry Chinaski, as he enters middle age. *Post Office* is an account of Bukowski alter-ego Henry Chinaski. It covers the period of Chinaski's life from the mid-1950s to his resignation from the United States Postal Service in 1969,

interrupted only by a brief hiatus during which he supported himself by gambling at horse races. "The Walt Whitman of Los Angeles."—Joyce Carol Oates "He brought everybody down to earth, even the angels."—Leonard Cohen, songwriter

The United States Postal Service DIANE Publishing

Chronicling the polarized partisan environment during the President Barack Obama's second term, *Congress and the Nation 2013-2016, Vol. XIV* is the most authoritative reference on congressional lawmaking and trends during the 113th and 114th Congresses. The newest edition in this award-winning series documents the most fiercely debated issues

during this period, including: The unprecedented federal government shutdown, The strike down of the Defense of Marriage Act as unconstitutional, End of the filibuster for most executive and judicial branch nominees, Changes to the Dodd-Frank Act, Israeli Prime Minister Netanyahu and Pope Francis address joint sessions, Sexual Assault Survivors' Rights Act passed, overhauling rape kit processing and establishment of victim bill of rights, SPACE Act passed, allowing commercial exploration of space. No other source guides readers seamlessly through the policy output of the national legislature with the breadth, depth, and authority of Congress and the

Nation. This is a landmark series is a must-have reference for all academic libraries and meets the needs of the full spectrum of users, from lower-level undergraduates through researchers and faculty.

AuthorHouse

This introduction to the history of work in America illuminates the many important roles that men and women of all backgrounds have played in the formation of the United States. *A Day in the Life of an American Worker: 200 Trades and Professions through History* allows readers to imagine the daily lives of ordinary workers, from the

beginnings of colonial America to the present. It presents the stories of millions of Americans—from the enslaved field hands in antebellum America to the astronauts of the modern "space age"—as they contributed to the formation of the modern and culturally diverse United States. Readers will learn about individual occupations and discover the untold histories of those women and men who too often have remained anonymous to historians but whose stories are just as important as those of leaders whose lives we study in our classrooms. This book provides specific details to enable comprehensive understanding of the

benefits and downsides of each trade and profession discussed. Selected accompanying documents further bring history to life by offering vivid testimonies from people who actually worked in these occupations or interacted with those in that field.

The National Rural Letter Carrier Springer
Everything Is Chess is an amusing collection of essays on current events and world history as seen through the eyes of an avid chess player with a sense of humor. It is mostly nonfiction and explores a wide variety of diverse subjects.

talks with Mondrian, whom he knows only as Mister Orange, when he delivers oranges each week.

Congress and the Nation 2013-2016, Volume XIV

Bloomsbury Publishing USA

Worldwide, postal operators have been slow to address the threats from and opportunities created by electronic competition. The European Commission and member states are wrestling with these issues, while at the same time continuing to deal with the interrelated issues of implementing entry into postal markets and maintaining the universal service obligation. The Postal Accountability and Enhancement Act of 2006 in the U.S.

exacerbated financial and managerial problems faced by USPS that result in part from electronic substitution for letter delivery. A major aim of this book is to examine policies to address postal operations in a digital world and ways in which postal operators might reinvent themselves to respond to threats and exploit opportunities. Potential opportunities examined include parcels, e-commerce, digital delivery, regulatory innovations and pricing. This book will be of interest to postal operators, regulatory commissions, consulting firms, competitors and customers, experts in the postal economics, law, and business, and

those charged with the responsibility for designing and implementing postal sector policies. Researchers in regulatory economics, transportation technology and industrial organization will also find considerable food for thought in this volume. Commerce Business Daily Government Printing Office Contains analyses that are designed to highlight specified subject areas or provide other significant presentations of budget data that place the budget in perspective. This volume includes economic and accounting analyses; information on Federal receipts and collections; analyses of

Federal spending; detailed information on Federal borrowing and debt; baseline or current services estimates; and other technical presentations.
