 Discover classic and contemporary Scandinavian style with specially commissioned photography of homes in Denmark, Norway, Sweden, and Finland. Discover classic and contemporary Scandinavian style with specially commissioned photography of homes in Denmark, Norway, Sweden, and Finland. Scandinavia is famous for its distinctive style: homes are pared-back and simple, and form and function are combined to

create aesthetically pleasing and practical interiors. Scandinavians are inspired by light, having an abundance of it in summer but so little of it in winter, and house designs tend to maximize the amount of natural light that enters the home, and allow the inhabitants to make the most of outdoor life during the summer. Similarly, nature and the weather are major influences: homes are made warm and cozy for the freezing winter months—not just literally with log burners, but also through incorporating wood and natural materials. Here Niki Brantmark, owner of the interior design blog My Scandinavian Home, presents a wide-ranging collection of these beautiful homes and explores how the Scandinavian lifestyle is reflected in them all. The first chapter, Urban Living, features styles ranging from minimalist to bohemian, and pale palettes to dramatic

dark colors. By contrast, the Country Homes tend to have a softer, calmer feel, through color and textiles, in line with a slower pace of life. Finally, the spectacular Rural Retreats include a mountain cabin, beach house, and rustic summer cottage, and demonstrate how having somewhere to escape to is so important to many Scandinavians. This collection of stunning interiors will put Scandi style within every reader's reach.

Chris Madden comes the first book on her design philosophy, and how to achieve her comfortable, chic style. Design expert Chris Madden has spent years chronicling other people's beautiful rooms. Now, for the first time, she presents her own design sensibility as illustrated by examples such as her elegant one hundred-year-old carriage house in upstate New York and a mid-century modern family getaway in the mountains of Vermont. Organized by type of room, each house is explored—from entryways to bedrooms, kitchens, living rooms, mudrooms, greenhouses, and terraces, as well as specialty rooms like yoga studios and a man's study—through rich photography and dozens of practical styling tips. Readers learn how to layer fabrics and colors for seasonal decorating; how to repurpose materials; and how to recognize a room's quality of light. Also featured are sidebars on caring for guests, collecting, and living in an old house versus a modern house. An avid gardener, Madden explores the way outdoor space frames and supports a house. This lush and elegant volume is an eminently practical resource of ideas for creating rooms in which to celebrate family, entertain friends, and provide personal sanctuary.

Antoinette Martin believed herself to be a healthy and sturdy woman—that is, until she received a Stage 1 breast cancer diagnosis. Cancer is scary enough for the brave, but for a wimp like Martin, it was downright terrifying. Martin had to swallow waves of nausea at the thought of her body being poisoned, and frequently fainted during blood draws and infusions. To add to her terror, cancer suddenly seemed to be all around her. In the months following her diagnosis, a colleague succumbed to cancer, and five of her friends were also diagnosed. Though tempted, Martin knew she could not hide in bed for ten months. She had a devoted husband, daughters, and a tribe of friends and relations. Along with work

responsibilities, there were graduations, anniversaries, and roller derby bouts to attend, not to mention a house to sell and a summer of beach-bumming to enjoy. In order to harness support without scaring herself or anyone else, she journaled her experiences and began to e-mail the people who loved her—the people she called My Everyone. She kept them informed and reminded all to 'hug everyone you know' at every opportunity. Reading the responses became her calming strategy. Ultimately, with the help of her community, Martin found the courage within herself to face cancer with perseverance and humor.

In a day when the fourth leading cause of death in America is due to adverse effects of properly prescribed drugs (Journal of American Medical Association - July 2000), many are asking, "Are there not safer alternatives?" Yes there are!! Allow me to introduce to you one extraordinary yet simple natural remedy - Activated medicinal charcoal. Charcoal, What is it? We drink water filtered by it; breath are scrubbed with it; eat food purified through it; wear clothes made with it; preserve things in it; go to war with it; enjoy hundreds of dishes cooked by it; we move mountains with it; we make the night sky sparkle with it; grow our food and flowers in it; we take it with us to the bottom of the deepest oceans and out into space; swim in water washed with it; draw our inspirations with it; record man's history dipped in it: and then we call upon it to clean up many of our environmental mistakes. Not least and not last, medicinal charcoal plays an increasingly significant role in maintaining, restoring and enhancing man's level of health. No wonder we naturally warm up to it." I heartily recommend
