Allan Girdler. This colorful reprint examines the dueling marques right up through Indian's dissolution in the 1950s.

#### *Franklin's Indians* Indian Motorcycle

A stunt man and sideshow performer made famous by the Discovery Channel, Indian Larry Desmedt is best remembered for his remarkable custom motorcycles, his wild tattoos, and his love for building and riding rolling art. This book, by those who knew him best, offers a closer look at this chopper shaman admired by so many. Full of photographs that document a uniquely colorful life, the book follows Larry from his humble beginnings to his unlikely stardom, tracing his short career as a bank robber, his time in prison, his spiral downward into heroin addiction, and his rebirth in 1994 as the spiritual bike builder revered by so many—and, running through it all, the love of hot rods and motorcycles that finally brought him happiness. Why was he nicknamed Indian Larry? Because early in his career, he ceaselessly rode his Indian Motorcycles through the street of New York City.

What began as a motorized bicycle dreamed up between a young machinist named George Hedstrom and a champion cyclist named George Hendee, became one of the most popular motorcycles in the world: the Indian. Out of production for half a century, Indian retains the loyalty and admiration of motorcycle riders and enthusiasts everywhere. This book recounts the marque's story from its earliest single-cylinder "motocycles" of 1901 through the bitter day in 1953 when the company shuttered Wigwam, its Springfield, Massachusetts, plant—with a nod to the trademark disputes that continue to this day. Text by noted Indian historian Jerry Hatfield, and more than 125 specially commissioned photographs and 25 black and white historical pictures, capture the seductive power and grace of the great models—the Scout, Chief, and Four, —and recreate the thrill the Indian generates to this day.

The building of a vintage Indian Chief motorcycle is more than the restoration of a bike—it's the resurrection of a dream. Rebuilding the Indian chronicles one man's journey through the fearful expanse of midlife in a quest for peace, parts, and a happy second fatherhood. Fred Haelele was a writer who couldn't get his book published, an arborist whose precarious livelihood might just kill him, and an expectant father for the first time in over twenty years. He was in a rut, until he purchased a box of parts not so euphemistically referred to as a "basket case" and tackled the restoration of an Indian Chief motorcycle. With limited mechanical skills, one foot in the money pit, and a colorful cast of local experts, Haelele takes us down the rocky road of restoration to the headlong, heart-thrilling rush of open highway on his gleaming midnight-blue Millennium Flyer.

#### The Motorcycle Illustrated Motorbooks

In *The Harley-Davidson and Indian Wars*, author Allan Girdler takes you on a colorful tour of the men

and machines that competed to dominate the American motorcycle industry. This book chronicles the legendary machines such as the Knucklehead and the Four, as well as motorcycles like the Hummer and the Model CZ whose times came and went or, perhaps, never came at all. The racing history is also told with a flourish, from the days of total-loss oiling, wooden race tracks, and high mortality rates to the cataclysmic times of Class C racing, when roaring V-twin -powered beasts were manhandled on dirt tracks, asphalt, and through the nastiest terrain the country has to offer. *The Harley-Davidson and Indian Wars* tells the story of these two makers, from the days when Harley-Davidsons were built in the Davidson family's back yard to the tragic demise of the Indian Motorcycle company.

Una motocicleta es un vehículo de dos o tres ruedas con manillar y asiento estilo silla de montar. El Daimler Reitwagen de 1885 fabricado por Gottlieb Daimler y Wilhelm Maybach en Alemania, fue la primera motocicleta de combustión interna alimentada con gasolina. Por otro lado, Ogden Bolton Jr., de Canton Ohio, presentó una solicitud de patente para una "bicicleta eléctrica" el 19 de septiembre de 1895. Y el 8 de noviembre del mismo año, Hosea W. Libbey, de Ohio, también presentó otra solicitud de patente para una "bicicleta eléctrica" en Bostón. Hay muchas variantes de motocicletas para diferentes aplicaciones y grupos de usuarios. En este libro, celebramos esta invención y esperamos que disfruten de nuestra selección de fotografías.

"The Indian Scout and Chief are two of the best known and best loved of all classic American motorcycles. The man who designed them, Charles Franklin, was responsible for many advanced design concepts including remarkable improvements in side-valve combustion chamber design that pre-dated the work of Ricardo. He championed an holistic approach to design that popularised new features such as the semi unit-construction 'powerplant', helical-gear primary drive, double-loop full-cradle frames and a host of other improvements to the early motorcycles. This book not only chronicles his life but also sheds much new light on the often turbulent history of the Indian Motorcycle Company itself. Franklin was born and raised in Ireland where he quickly became involved in motorcycle racing during the pioneer years. He rapidly established himself as Ireland's first big star of racing and was the first to represent Ireland in international motorcycle competition. In the Isle of Man TT he consistently finished in the top eight, and in 1911 claimed second place, a remarkable achievement in itself. But it was when he moved to Indian in the USA, where he became the Chief Design Engineer, that his genius really flowed. His designs catapulted Indian back into the forefront of motorcycle design in the 1920s and '30s and his racing engines and motorcycles won much glory for Indian against stiff opposition. The Indian has been the iconic image for American big V-Twins down the years, due in no small measure to the motorcycles designed by Charles B Franklin. This is a much needed book for all Indian fans and all who love the history of the classic American V-Twins. An enthusiast's dream of a book!"--Publisher description.

*Indian Motorcycle* Amberley Publishing Limited

This officially licensed 120th anniversary edition of Indian Motorcycle tells the complete story of Indian Motorcycle, America's first mass-produced motorcycle maker, from its start as a bicycle manufacturer to the purchase of the brand by Polaris Industries in 2011 and the subsequent new Indian motorcycles—updated to include new photography, the story of the latest models, including the FTR1200, Chieftain, Challenger, and Roadmaster, and Indian Motorcycle's return to racing. In the early years of the 20th century, Indian Motorcycle dominated the world's racetracks and showrooms, earning the brand a worldwide reputation for quality, performance, reliability, and technical innovation with such classic machines as the Chief, Scout and Four. But the once-mighty company fell on hard times and in 1953 was forced to file bankruptcy. The Indian Motorcycle brand never quite died, however, thanks in large part to fanatically devoted enthusiasts, who tried to resurrect it for over half a century. Finally, Polaris, maker of the highly regarded Victory brand of motorcycles, purchased the brand and released the Chief and Scout, models that once again restored Indian Motorcycle to its rightful place in the motorcycle pantheon. Indian Motorcycle is the most complete and up-to-date history of this classic American motorcycle.
