Popular American essayist, novelist, and journalist CHARLES DUDLEY WARNER (1829-1900) was renowned for the warmth and intimacy of his writing, which encompassed travelogue, biography and autobiography, fiction, and more, and influenced entire generations of his fellow writers. Here, the prolific writer turned editor for his final grand work, a splendid survey of global literature, classic and modern,

and it's not too much to suggest that if his friend and colleague Mark Twain-who stole Warner's quip about how "everybody complains about the weather, but nobody does anything about it"-had assembled this set, it would still be hailed today as one of the great achievements of the book world. Highlights from Volume 38 include: . the poetry of Paul Verlaine . the verse of Francois Villon . the philosophy of Voltaire . the arts criticism of Richard Wagner . the science writings of Alfred Russel Wallace . the letters of Horace Walpole . the speeches of George Washington . the writings of Daniel Webster . and much, much more.

*The Academy and Literature* Cosimo, Inc. *What Are We Doing Here?* CreateSpace New essays on theological, political, and contemporary themes, by the Pulitzer Prize winner Marilynne Robinson has plumbed the human spirit in her renowned novels, including *Lila*, winner of the National Book Critics Circle Award, and *Gilead*, winner of the Pulitzer Prize and the National Book Critics Circle Award. In this new essay collection she trains her incisive mind on our modern political climate and the mysteries of faith. Whether she is investigating how the work of great thinkers about America like Emerson and Tocqueville inform our political consciousness or discussing the way that beauty informs and disciplines daily life, Robinson's peerless prose and

boundless humanity are on full display. *What Are We Doing Here?* is a call for Americans to continue the tradition of those great thinkers and to remake American political and cultural life as “deeply impressed by obligation [and as] a great theater of heroic generosity, which, despite all, is sometimes palpable still.”

This book is an in-depth examination of the much needed process of "self" study known as self observation. We live in an age where the "attention function" in the brain has been badly damaged by TV and computers-up to 90 percent of the public under age 35 suffers from attention-deficit disorder! This book offers the most direct, non-pharmaceutical means of healing attention dysfunction. The methods presented here are capable of restoring attention to a fully functional and powerful tool for success in life and relationships. This is also an age when humanity has lost its connection with conscience. When humanity has poisoned the Earth's atmosphere, water, air and soil, when cancer is in epidemic proportions and is mainly an environmental illness, the author asks: What is the root cause? And he boldly answers: Failure to develop conscience! Selfobservation, he asserts, is the most ancient, scientific, and proven means to develop this crucial inner guide to awakening and a moral life. This book is for the lay-reader, both the beginner and the advanced student of self observation. No other book on the market examines this practice in such detail. There are hundreds of books on self-help and meditation, but almost none on self-study via self-observation, and none with the depth of analysis, wealth of explication, and richness of experience which this book offers. Red Hawk, author of 5 collections of poetry, was the Hodder Fellow at Princeton University (1992-93) and is currently a full professor at the University of Arkansas, Monticello. He has practiced

self-observation for over 30 years, under the guidance of the Gurdjieff Society of Arkansas, meditation master Osho Rajneesh, and spiritual teacher, Lee Lozowick.

Tennessee Williams and Europe: Intercultural Encounters, Transatlantic Exchanges documents the bi-directional exchange of ideas and images between Williams and post-war Europe that have altered the artistic landscapes of both continents. Fifteen Williams scholars from around the world examine this artistic symbiosis and explore avenues of research mostly uncharted in Williams scholarship to date, including our understanding of the early Williams and the uses he made of various European sources in his theatre; the late Williams and the promise European theatre afforded him with his experimental plays; and the posthumous Williams and his influence on late twentieth- and early twenty-first-century European theatre and cinema. To some extent both a product of and a muse for Europe over the last half century, Williams is well positioned to become America's most famous playwright on the international stage. This book hopes to mark the beginnings of Williams' rich critical tradition within that global context.

Timespace undermines the old certainties of time and space by arguing that these dimensions do not exist singly, but only as a hybrid process term. The issue of space has perhaps been over-emphasised and it is essential that processes of everyday existence, such as globalisation and environmental issues and also notions such as gender, race and ethnicity, are looked at with a balanced time-space analysis. The social and cultural consequences of this move are traced through a series of studies which deploy different perspectives - structural, phenomenological and even Buddhist - in order to make things meet up. The contributors provide an overview of the history of time and introduce the concepts of time and space together, across a range of disciplines. The themes discussed are of importance for cultural geography, sociology, anthropology, cultural and media studies, and psychology.

In late 19th-century New Orleans, social constraints are strict, especially for a married woman. Edna Pontellier leads a secure life with her husband and two children, but her restlessness grows within the confined societal norms, and the expectations placed upon her - from her husband and the world around her - create increasing pressure. During a trip to Grand Isle, an island off the coast of Louisiana, her life is turned upside down by an intense love affair, and passion forces her to question the foundations of her - and every woman's - existence. Kate Chopin's novel *The Awakening* caused a scandal with its outspokenness when it was published in 1899. The novel's openly sexual themes and disregard for marital and societal

conventions led to it not being reprinted for fifty years. It wasn't until the 1950s that Chopin's work was rediscovered, and *The Awakening* received significant acclaim. Today, it is not only seen as an early feminist milestone but also as a classic. KATE CHOPIN [1851-1904] was born in St Louis. She had six children during her marriage, and it wasn't until after her husband's death in 1882 that she emerged as a writer. She published short stories in magazines such as *Vogue* and *The Atlantic*, gaining appreciation and recognition for her depictions of the American South. However, she was also criticized for her disregard for social traditions and racial barriers.

From the Ice Age to the Cold War and beyond, from Reykjavik to Riga, from Archimedes to Einstein, Alexander to Yeltsin, here between the covers of a single volume Norman Davies tells the story of Europe, East and West, from prehistory to the present day. The book's absorbing narrative lays down the chronological and geographical grid on which the dramas of European history have been played out. It zooms in from the distant focus of Chapter One, which explores the first five million years of the continent's evolution, to the close focus of the last two chapters, which cover the twentieth century at roughly one page per year. In between, Norman Davies presents a huge and sweeping canvas packed with fascinating detail, analysis, and anecdote. Alongside Europe's better-known stories - human, national, and continental - he brings into focus areas often ignored or misunderstood, remembering the stateless nation as well as the nation-state. Minority communities, from heretics and lepers to

Jews, Romanies, and Muslims have not been forgotten. This masterly history reveals not only the rich variety of Europe's past but also the many and rewarding prisms through which it can be viewed. Each chapter contains a selection of telephoto 'capsules', illustrating narrower themes and topics that cut across the chronological flow. Davies then concludes with a wide-angle 'snapshot' of the whole continent as seen from one particular vantage point. The overall effect is stunning: a kind of historical picture album, with panoramic tableaux interspersed by detailed insets and close-ups. Never before has such an ambitious history of Europe been attempted. In range and ambition, the originality of its structure and glittering style, Norman Davies's Europe represents one of the most important and illuminating history books to be published by Oxford. Time Capsules 201 fascinating articles interspersed throughout the narrative focus on incidents or topics as various as The Iceman of the Alps, Erotic Graffiti at Pompeii, Stradivarius, and Psychoanalysing Hitler. Each capsule can be tasted as a separate self-contained morsel; or can be read in conjunction with the narrative into which it is inserted. Snapshots 12 panoramic overviews across the changing map of Europe freeze the frames of the chronological narrative at moments of symbolic importance, such as Knossos 1628 BC, Constantinople AD 330, and Nuremberg 1945. A fully illustrated history incorporates over 100 superbly detailed maps and diagrams, and 32 pages of black and white plates.

In this #1 international bestseller, a young woman leaves everything behind to work as a librarian in a remote French village, where she finds her outlook on life and love challenged in every way. Prudencia Prim is a young woman of intelligence and achievement, with a

deep knowledge of literature and several letters after her name. But when she accepts the post of private librarian in the village of San Ireneo de Arnois, she is unprepared for what she encounters there. Her employer, a book-loving intellectual, is dashing yet contrarian, always ready with a critique of her cherished Jane Austen and Louisa May Alcott. The neighbors, too, are capable of charm and eccentricity in equal measure, determined as they are to preserve their singular little community from the modern world outside. Prudencia hoped for friendship in San Ireneo but she didn't suspect that she might find love—nor that the course of her new life would run quite so rocky or would offer challenge and heartache as well as joy, discovery, and fireside debate. Set against a backdrop of steaming cups of tea, freshly baked cakes, and lovely company, *The Awakening of Miss Prim* is a distinctive and delightfully entertaining tale of literature, philosophy, and the search for happiness.
