 The Merchant of Venice Ratna Sagar P Limited  
 American Education Ravinder Singh and sons

The Merchant of Venice of the Ratna Sagar Shakespeare Series is enriched with text based on the A W Verity edition, line-by-line translation of text into modern English, plenty of short notes that explain and interpret the text, summary of each scene, as well as useful commentary on the life and times of Shakespeare, Elizabethan theatre, literary sources, characters, figures of speech, and artwork that brings to life significant episodes in the story. This enriched edition of The Merchant of Venice has exhaustive annotations and notes. Set in Venice and Belmont, the play deals with the themes of friendship, mercy, trust, money, and prejudice. It depicts many aspects of the society of the times - social classes and

segregation, and trading and commerce. The play opens with Antonio, the merchant of Venice, troubled about his ships at sea. As Bassanio enters the scene, the audience gets a clear picture of the affection that Antonio holds for him. Bassanio pours out his heart to Antonio about his desire to marry the beautiful and rich heiress Portia in Belmont. It is revealed that Bassanio is an extravagant youth, who has spent most of his inheritance, and wishes to marry Portia partly out of love, and partly to repair his fortunes. It is usual for Bassanio to ask Antonio for financial aid, and he does so now again. But Antonio's 'fortunes are at sea', and he asks Bassanio to take credit in his name from whoever is willing to lend

in Venice. This leads Antonio to enter into a hazardous bond with the hard-hearted Jew Shylock. In Belmont, Portia is overwhelmed by a constant line of suitors, who come to undertake her late father's challenge and win her hand - they are required to choose from three caskets of gold, silver, and lead the one containing Portia's portrait. As every suitor fails due to his vanity or overconfidence, Bassanio arrives much to Portia's delight, for she has favoured him since the time of his first visit to Belmont. As Bassanio successfully passes the test of the caskets, his friend Gratiano expresses his desire to marry Nerissa, Portia's gentlewoman. As both couples rejoice in the union, news arrives from Venice that Antonio has failed to repay the debt in time, and is in danger of losing a pound of flesh, the penalty in his contract with Shylock. Bassanio immediately leaves for Venice with Gratiano, and so does Portia with Nerissa, but without anyone's knowledge. At the crucial trial of Antonio, Portia and Nerissa arrive at the court disguised as a young lawyer and a clerk. As Shylock remains stubborn on claiming his bond, Portia cleverly turns the tables on him, which not only saves Antonio's life but also compels Shylock to forfeit his loan and bequeath his property to his daughter and son-in-law. All characters return to Belmont, where Portia informs Antonio that his ships have been salvaged and have come to harbour. Like a typical Shakespearean comedy, the play ends on the happy note of all's well that ends well. The play has rich characterization. Portia is memorable as a gutsy heroine who resolves the conflict in the play. She stresses mercy as a divine quality as against the call for revenge by Shylock. Shylock, on the other hand, though portrayed as the antagonist of the play, is representative of those who are victims of the evils of prejudice and betrayal. Being a Jew, he is spited by Antonio and the others, which fuels his craving for revenge. Both characters have some of the most memorable speeches in the play that establish the common humanity of all races and cultures.

The New Cambridge Shakespeare appeals to students worldwide for its up-to-date scholarship and emphasis on performance. The series features line-by-line commentaries and textual notes on the plays and poems. Introductions are regularly refreshed with accounts of new critical, stage and screen interpretations. This second edition of *The Merchant of Venice* retains the text and Introduction prepared by M. M. Mahood and features a new introductory section by Charles Edelman. Where Mahood focuses in her Introduction on the expectations of the play's first audience and on our modern experience of seeing and hearing the drama performed, Edelman explores the play's sexual politics. He also foregrounds recent scholarship on the position of Jews in Shakespeare's time and surveys the international scope and diversity of theatrical interpretations of the text in the 1980s and 1990s. He pays particular attention to the ways in which directors and actors tackle the troubling figure of Shylock.

**The Merchant of Venice** Allied Publishers

The Ephemeral Civilization is an astonishing intellectual feat in which Graeme Snooks develops an original and ground-breaking analysis of changing sociopolitical forms over the past 3,000 years. Snooks challenges the prevailing theories of social evolutionism with an

innovative approach which also looks ahead to the twenty-first century. The Ephemeral Civilization builds on the model of dynamic strategy outlined in the author's highly acclaimed companion volume, *The Dynamic Society*. The Ephemeral Society is divided into three parts - theory, history and future.

Merchant of Venice Oswaal Books and Learning Private Limited

In thinking about Justice, we ignore Love to our peril. Loving Justice, Living Shakespeare asks why love is considered a 'soft' subject, fit for the arts and religion perhaps, but unfit for boardrooms, parliamentary and congressional debates, law schools and courtrooms, all of whom are engaged in the 'serious' discourse of justice, including questions of distribution, questions of contract, and questions of retribution. Love is separate, out of order in the decidedly rational public sphere of justice. But for all of this separation of love and justice, it turns out that in the biblical tradition, no such distinction is even imaginable. The biblical law is summed up as loving the neighbour—this is further elaborated as loving the stranger, loving the widow, the orphan, and the poor—those who lack a protecting community. Analysis of these foundational 'love commands' shows that in them, love means care, that is, apprehending and responding to the needs of others. This is both love and justice. Prevailing political concepts of justice are incomplete for they are premised on a belief in scarcity: limited supply (of goods, opportunities, even forgiveness) suggests they must be meted out in fair measure. To the contrary, with love, the good sought is not in scarce supply. Its distribution is not a problem for the more of it you give, the more it is replenished. So with love, the emphasis is not on how to apportion fairly—how much love do I give each of my children!—but how to understand and respond to need. This understanding of justice as including mutual care has a rich history in religious thought as constituting social glue. The revival of the Bible during the Reformation and the ubiquitous allusions to neighbor love in the Book of Common Prayer made it ever-present in Renaissance discourse, and Shakespeare brought this ethos to audiences in many of his plays. Part of the reason Shakespeare endures is that this ethic resonates for audiences today: we abhor the evil of Iago, the greed of Macbeth, the narcissism of Lear, and to even begin to understand how the sacrifices of Romeo and Juliet could heal ancient social conflict, we must assent to the power of love to create justice.
