The social history of Japan between the First and Second World Wars is a neglected area of study. The contributors to this volume consider factors such as nationalism, class, gender and race. They also explore the ideas and activities of a number of new social and political groups, such as the urban white collar class (including middle class working women), socialists, industrial workers and emigrants. The book questions the myth of Japanese homogeneity, and gives an emphasis to the diversity, cross-currents and socio-political tensions that characterised the 1920s and 1930s.

Note about this ebook: This ebook exploits many advanced capabilities with images, hypertext, and interactivity and is optimized for EPUB3-compliant book readers, especially Apple's iBooks and browser plugins. These features may not work on all ebook readers. We organize things. We organize information, information about things, and information about information. Organizing is a fundamental issue in many professional fields, but these fields have only limited agreement in how they approach problems of organizing and in what they seek as their solutions. The Discipline of Organizing synthesizes insights from library science, information science, computer science, cognitive science, systems analysis, business, and other disciplines to create an Organizing System for understanding organizing. This framework is robust and forward-looking, enabling effective sharing of insights and design patterns between disciplines that weren't possible before. The Professional Edition includes new and revised content about the active resources of the "Internet of Things," and how the field of Information Architecture can be viewed as a subset of the discipline of organizing. You'll find: 600 tagged endnotes that connect to one or more of the contributing disciplines Nearly 60 new pictures and illustrations Links to cross-references and external citations Interactive study guides to test on key points The Professional Edition is ideal for practitioners and

as a primary or supplemental text for graduate courses on information organization, content and knowledge management, and digital collections. FOR INSTRUCTORS: Supplemental materials (lecture notes, assignments, exams, etc.) are available at <http://disciplineoforganizing.org>. FOR STUDENTS: Make sure this is the edition you want to buy. There's a newer one and maybe your instructor has adopted that one instead.

Get in the holiday spirit with an all-new Splat the Cat story from New York Times bestselling author Rob Scotton! It's the night before Christmas, and Splat wonders if he's been a good enough cat this year to deserve a really big present. Just to make sure, he offers some last-minute help to his mom and, in typical Splat fashion, he messes it up completely! That night Splat stays awake hoping to see Santa Claus. But when Splat misses him, he's sure his Christmas is ruined--along with his hopes for a really big present... Everyone's favorite furry cat is back in a Christmas story perfect for any child anxiously awaiting Santa's arrival, in this low-priced, holiday paperback--complete with a full page of festive Splat stickers!

An old man walks along deserted railway tracks, long since unused and overgrown; beside him a young, feral boy helps him along. It has been 60 years since the great Red Death wiped out mankind, and the handful of survivors from all walks of life have established their own civilization and their own hierarchy in a savage world. Art, science, and all learning has been lost, and the young descendants of the healthy know nothing of the world that was—nothing but myths and make-believe. The old man is the only one who can convey the wonders of that bygone age, and the horrors of the plague that brought about its end. What future lies in store for the remnants of mankind can only be surmised—their ignorance, barbarity, and ruthlessness the only hopes they have. This cataclysmic tale remains a terrifying prophecy of the perils of globalization, which are all too pertinent today.

The Longman Keys to Language Teaching series is intended especially for ordinary teachers. The books in the "Keys" series offer realistic, practical, down-to-earth advice on useful techniques and approaches in the modern ELT classroom. Most of the activities suggested in these books can be adapted and used for almost any class, by any teacher. One of the subjects of most concern to all teachers is classroom testing. For what reasons should we do it? How should we do it? How often should we do it? How should we organise it? Can it be harmful? What is the relationship between teaching and testing? These are just some of the questions that Brian Heaton addresses in this book. With a minimum of jargon, a number of fundamental concepts are treated in an accessible manner. As well as a discussion of these important issues, the author includes a great many examples of tests that teachers can adapt and use in their own classrooms. In addition, he gives advice on the role of continuous assessment, in which there has been an increasing amount of interest in recent

years. The book also contains some suggestions on oral testing - including how to cope with this in large classes.

Like other religions, Witchcraft has its deities, priests, holidays, rituals, and rules. Yet, Wiccan beliefs and practices are often unknown or misunderstood by non-Pagans and the uninitiated. Approaching the Craft from the Gardnerian perspective, Migene González-Wippler offers a friendly, straightforward introduction to the Old Religion and sheds light on what it truly means to be a Witch. What goes on at coven meetings? How do Witches perform magic? Why does magic work? From initiation rites to invoking elementals, González-Wippler explains both practical and spiritual aspects of Wiccan traditions. Book of Shadows also teaches the significance of Moon phases, herbs, colors,

crystals, common magical tools, and other implements when performing sacred ceremonies

In 2004, late in her legendary career, Ágota Kristóf wrote this slim dagger of a memoir about being a refugee after fleeing Hungary in 1956 Narrated in a series of stark, brief vignettes, *The Illiterate* is Ágota Kristóf's memoir of her childhood, her escape from Hungary in 1956 with her husband and small child, her early years working in factories in Switzerland, and the writing of her first novel, *The Notebook*. Few writers can convey so much in so little space. Fierce yet almost pointedly flat and documentarian in tone, Kristóf portrays with a disturbing level of detail and directness an implacable message of loss: first, she is forced to learn Russian as a child (with the Soviet takeover of Hungary, Russian became obligatory at school); next, at age twenty-one, she finds herself required to learn French to survive: I have spoken French for more than thirty years, I have written in French for twenty years, but I still don't know it. I don't speak it without mistakes, and I can only write it with the help of dictionaries, which I frequently consult. It is for this reason that I also call the French language an enemy language. There is a further reason, the most serious of all: this language is killing my mother tongue.
