A compassionate, shame-free guide for your darkest days "A one-of-a-kind book . . . to read for yourself or give to a struggling friend or loved one without the fear that depression and suicidal thoughts will be minimized, medicalized or over-spiritualized."—Kay Warren, cofounder of Saddleback Church What happens when loving Jesus doesn't cure you of depression, anxiety, or suicidal thoughts? You might be crushed by shame over your mental illness, only to be told by well-meaning Christians to "choose joy" and "pray more." So you beg God to take away the pain, but nothing eases the ache inside. As darkness lingers and color drains from your world, you're left wondering if God has abandoned you. You just want a way out. But there's hope. In *I Love Jesus, But I Want to Die*, Sarah J. Robinson offers a healthy, practical, and shame-free guide for Christians struggling with mental illness. With unflinching honesty, Sarah shares her story of battling depression and fighting to stay alive despite toxic theology that made her afraid to seek help outside the church. Pairing her own story with scriptural insights, mental health research, and simple practices, Sarah helps you reconnect with the God who is present in our deepest anguish and discover that you are worth everything it takes to get better. Beautifully written and full of hard-won wisdom, *I Love Jesus, But I Want to Die* offers a path toward a rich, hope-filled life in Christ, even when healing doesn't look like what you expect.

For courses in medical dosage calculation in departments of nursing, pharmacy, pre-med, pre-dental, and other health disciplines; and for courses covering dosage calculation in other programs, such as pharmacology, pediatrics and critical care. The complete and user-friendly guide to safe drug dosage calculation Fully revised for current practices and medication, *Medical Dosage Calculations* remains the field's most complete, user-friendly and accessible drug calculation text and workbook. Using the dimensional analysis format it pioneered, students begin with simple arithmetic, progressing to the most complex drug calculations. As they develop mathematical skills for accurate dosage calculations, they also gain a thorough professional understanding of safe drug administration. Compared with competitors, our text contains deeper, more realistic problems, incorporating actual dosages and requiring real critical thinking.

Completing this invaluable record, the correspondence between Matisse and Father Marie-Alain Couturier, the Dominican priest at the forefront of the post-World War II movement to commission

works of religious art from leading modern painters and sculptors, details the creation of the Chapel's most remarkable feature - Matisse's bold stained-glass windows. The numerous letters he and the artist exchanged are in themselves a fascinating exchange on the art and the significance of modern stained glass.

"Thank You, Me" is an illustrated children's picture book about expressing gratitude for our bodies. Have you ever thanked your body for everything that it allows you to do? Follow along as "Thank you, Me" expresses thanks to our bodies, and say "thank you" to your eyes, nose, mouth, ears, hands, and feet. Say thanks to your brain and your lungs. And last but not least, say thanks to your heart--because that is the place where the best "thank you's" start. Go beyond the book and start your own gratitude journal! What are you thankful for, and why?

Solve the riddles to find the runaway gingerbread men in this funny and magical cookie hunt!

Marshall knows one thing for sure, despite what all the stories say: Gingerbread men cannot run.

Cookies are for eating, and he can't wait to eat his after spending all morning baking them with his class. But when it's time to take the gingerbread men out of the oven . . . they're gone! Now, to find those rogue cookies, Marshall and his class have to solve a series of rhyming clues. And Marshall just might have to rethink his stance on magic. *Catch That Cookie!* is an imaginative mystery, deliciously illustrated by Caldecott Medal winner David Small. It's sure to inspire a new classroom tradition . . . and maybe even a few new believers!

#1 New York Times Bestseller "Funny and smart as hell" (Bill Gates), Allie Brosh's *Hyperbole and a Half* showcases her unique voice, leaping wit, and her ability to capture complex emotions with deceptively simple illustrations. FROM THE PUBLISHER: Every time Allie Brosh posts something new on her hugely popular blog *Hyperbole and a Half* the internet rejoices. This full-color, beautifully illustrated edition features more than fifty percent new content, with ten never-before-seen essays and one wholly revised and expanded piece as well as classics from the website like, "The God of Cake," "Dogs Don't Understand Basic Concepts Like Moving," and her astonishing, "Adventures in Depression," and "Depression Part Two," which have been hailed as some of the most insightful meditations on the disease ever written. Brosh's debut marks the launch of a major new American humorist who will surely make even the biggest scrooge or snob laugh. We dare you not to. FROM THE AUTHOR: This is a book I wrote. Because I wrote it, I had to figure out what to put on the back cover to explain what it is. I tried to write a long, third-person summary that would imply how great the book is and also sound vaguely authoritative—like maybe someone who isn't me wrote it—but I soon discovered that I'm not sneaky enough to pull it off convincingly. So I decided to just make a list of things that are in the book: Pictures Words Stories about things that happened to me Stories about things that happened to other people because of me Eight billion dollars\* Stories about dogs The secret to eternal happiness\* \*These are lies. Perhaps I have underestimated my sneakiness!

Have you ever felt obligated to make up a physical ailment (like your leg falling off) when calling in for a mental health day? Do you sometimes entertain the idea that there are moon people who use a lunar raygun to disrupt society when the moon is full? If so, you will be able to relate to the comic strips in this book. This book is a collection of comic strips drawn by Carl Elbing who has worked as an RN since 1992.

From the Founder of Ciderpress Lane and Author of Dinner Changes Everything, Kelly Welk puts her experience of bringing her dreams to life into a guided journal to help you do the same. Your biggest dream is inside you right now. It is hidden within the what if ideas, late night conversations, and simple chats over coffee. It is patiently waiting for your heart to speak loud enough for you to hear it. But sometimes the noise of life drowns out our heart and our ideas are pushed to the side before they ever get our attention. So how do you hear what your heart is saying? How do you create space to find your dream? How do you allow it to become something bigger? It starts right here, so simple and quiet that you would never call it the beginning of a dream. It starts now, right where you are most comfortable. It starts today, in the middle of your everyday life. It's time to find your dream. It's time to create space to hear your heart. It's time to see your everyday life from a new perspective. Join the dream catcher community

The Spirit of Nursing is filled with stories from more than 40 authors who have been inspired by their choice of career. Collectively, they boast 1,091 years of practice, diverse certifications, and numerous degrees. Some have just begun their practice and others have worked as nurses for half a century or more. Read how we have earned the true credentials needed to provide care for strangers, family members, and each other. Learn how we have earned the academic and honorary titles required to lead each other in our profession. The stories we have collected here cover the moment each contributor knew he or she was to become a nurse, what was learned (and what was not) in nursing school, and unforgettable patients and colleagues. But this book is about more than the sum of all of the parts that make up our nursing trajectories. It is about the process of becoming and being a nursing colleague. Filled with professionals who have earned their distinction as leaders in practice and healers in their communities, it is rumination on what it means to care. It is also a thank you to a line of work that has given us so much.

### The Journal of Continuing Education in Nursing Learning Matters

This is a book for cinephiles, pure and simple. Author and filmmaker, Jim Piper, shares his vast knowledge of film and analyzes the most striking components of the best movies ever made. From

directing to cinematography, from editing and music to symbolism and plot development, The Film Appreciation Book covers hundreds of the greatest works in cinema, combining history, technical knowledge, and the art of enjoyment to explain why some movies have become the most treasured and entertaining works ever available to the public, and why these movies continue to amaze viewers after decades of notoriety. Read about such classic cinematic masterpieces as Citizen Kane, Gandhi, Midnight Cowboy, Easy Rider, True Grit, Gone With the Wind, and The Wizard of Oz, as well as more recent accomplishments in feature films, such as Requiem for a Dream, Munich, The King's Speech, and The Hurt Locker. Piper breaks down his analysis for you and points out aspects of production that movie-lovers (even the devoted ones) would never recognize on their own. This book will endlessly fascinate, and by the time you get to the last chapter, you're ready to start all over again. In-depth analysis and thoughtful and wide-ranging film choices from every period of cinema history will ensure that you never tire of this reading companion to film. Allworth Press, an imprint of Skyhorse Publishing, publishes a broad range of books on the visual and performing arts, with emphasis on the business of art. Our titles cover subjects such as graphic design, theater, branding, fine art, photography, interior design, writing, acting, film, how to start careers, business and legal forms, business practices, and more. We often publish in areas overlooked by other publishers and welcome the author whose expertise can help our audience of readers.

### Thanks for the Feedback, I Think Vista Publishing (NJ)

Children are already learning at birth, and they develop and learn at a rapid pace in their early years. This provides a critical foundation for lifelong progress, and the adults who provide for the care and the education of young children bear a great responsibility for their health, development, and learning. Despite the fact that they share the same objective - to nurture young children and secure their future success - the various practitioners who contribute to the care and the education of children from birth through age 8 are not acknowledged as a workforce unified by the common knowledge and competencies needed to do their jobs well. Transforming the Workforce for Children Birth Through Age 8 explores the science of child development, particularly looking at implications for the professionals who work with children. This report examines the current capacities and practices of the workforce, the settings in which they work, the policies and infrastructure that set qualifications and provide professional learning, and the government agencies and other funders who support and oversee these systems. This book then makes recommendations to improve the quality of professional practice and the practice environment for care and education professionals. These detailed recommendations create a blueprint for action that builds on a unifying foundation of child development and early learning, shared knowledge and competencies for care and education professionals, and principles for effective professional learning. Young children thrive and learn best when they have secure, positive relationships with adults who are knowledgeable about how to support their development and learning and are responsive to their individual progress.

Transforming the Workforce for Children Birth Through Age 8 offers guidance on system changes to improve the quality of professional practice, specific actions to improve professional learning systems and workforce development, and research to continue to build the knowledge base in ways that will directly advance and inform future actions. The recommendations of this book provide an opportunity to improve the quality of the care and the education that children receive, and ultimately improve outcomes for children.
