"Bob's message is a must for all parents and coaches. He challenges adults to understand their effect on youngsters, and that kids' needs have to be met first." Bob Trupin, Westport, CT This is not just another book touting improved sportsmanship and better coaching to remedy the violence in youth sports today. Just Let the Kids Play is the first book to identify the youth sports systems as the cause of the problem, and offers practical ways to rebuild them so they better serve the physical and emotional needs of children. First-round NBA draft pick, part-

time NBA scout and youth coach Bob Bigelow joins journalists Tom Moroney and Linda Hall to put youth sports under harsh review. They explain the controversial belief that elite traveling teams at young ages should be abolished and replaced with equal playing time, team parity and shortened seasons, among others. Focusing on soccer, basketball, baseball and hockey, they highlight ten programs nationwide where these principles are working, and offer ways to integrate them into existing programs without sacrificing a child's chances for success. Soccer moms and hockey dads will discover that it really is possible to sleep in on Saturdays without sacrificing their child's future!

Why write a book on coaching basketball? I was a head basketball coach for thirty-six

years, evenly divided between high school and junior college circles. I also served for ten seasons as a volunteer/assistant coach for three different coaching friends. Since retirement, I have had the desire to write a book on coaching the sport. I spent a career "Xing" and "O-ing." Toni Morrison, Nobel Prize-winning author, was quoted as, "If there is a book that you want to read, and it hasn't been written yet, then you must write it." With that quote in mind, I decided to direct my literary attention toward the beginning inexperienced, the novice, the apprentice, the rookie. I have attempted to fulfill that dream and, hopefully, to make some small contribution to a big game.

Now with a new chapter on the Wildcats'

legendary comeback in the 2014 Final Four John Calipari, one of the most successful coaches in NCAA history, presents the world of college basketball from the coach's chair, unvarnished and straight from the heart. *Players First* is Calipari's account of his first six years coaching the University of Kentucky men's team, leading it to a national championship in 2012 and the championship game in 2014, all while dealing with the realities of the "one-and-done" mentality and an NCAA that sometimes seems to put players last. Filled with revelatory stories about what it takes to succeed at the highest level of the college game, *Players First* is a candid look at the great players and rivalries that have filled Calipari's life with joy and a sense of purpose.

STUFF Good Players Should Know may very well be the best book ever written for basketball players. It is conversational and easy to understand, yet filled with subtle insights into the game of basketball. STUFF is page after page of creative concepts, common sense, and special tips that can not be found anywhere else. ? How do you guard a stronger player? ?

How do you set up a game-winning steal? ? How do you ?strip? a rebound? ? How do you score with a strong-handed dribble while going to the weak side? ? How do you practice shooting for maximum game effectiveness? ? How do you recognize defensive changes? STUFF is like having a coach right beside you, in your room, discussing the fine points of the games. How do you think in the minutes of the game? How do you react to mistakes? What is your attitude about fouls? Eating? Superstitions? Injuries? All this and more makes STUFF a book that players will find indispensable. Basketball fans will enjoy it, but players won't do

This is a collection of short but extraordinarily powerful essays as to how Coach K of Duke inspires, motivates, and teaches his basketball players about the game of life, both on and off the court.

**Players First** Independently Published  
Great basketball players like Tim Duncan and Dwyane Wade draw oohs and aahs with their spectacular moves. But before those players developed their superstar flair, they built a solid base of fundamental skills in all phases of the game. Basketball Skills & Drills provides a perfect blueprint for building the foundation that every well-rounded player needs. This special book and DVD package demonstrates each key skill: -Player positioning -Moving without the ball -Shooting -Passing, catching, and dribbling -Perimeter moves -Post moves - Defense -Rebounding The skills and 90 drills, coaching tips, and DVD reinforce the skill instruction, emphasize key points, and explain how to correct common errors. And since individual skills are effective only when used within the team concept, the book also covers key team principles for both ends of the court. Tactics for offense, including special situations such as out-of-bounds plays, will improve spacing, ball and player movement, shot selection, and scoring. Defensive tactics emphasize positioning, pressure, and various systems to apply in each area or level of the court. To be an all-star, you must be fundamentally sound. Basketball Skills & Drills is your guide to becoming a complete player--one who can change the game with great moves and smart play.

**Beyond Basketball** Next Play Hoops, LLC Journey "inside the numbers" for an exceptional set of statistical tools and rules that can help explain the winning, or losing, ways of a basketball team. Basketball on Paper doesn't diagram plays or explain how players get in shape, but instead demonstrates how to interpret player and team performance. Dean Oliver

highlights general strategies for teams when they're winning or losing and what aspects should be the focus in either situation. He describes and quantifies the jobs of team leaders and role players, then discusses the interactions between players and how to achieve the best fit. Oliver conceptualizes the meaning of teamwork and how to quantify the value of different types of players working together. He examines historically successful NBA teams and identifies what made them so successful: individual talent, a system of putting players together, or good coaching. Oliver then uses these statistical tools and case studies to evaluate the best players in history, such as Magic Johnson, Wilt Chamberlain, Bill Russell, and Charles Barkley and how they contributed to their teams' success. He does the same for some of the NBA's "oddball" players- Manute Bol, Muggsy Bogues, and Dennis Rodman and for the WNBA's top players. Basketball on Paper is unique in its incorporation of business and analytical concepts within the context of basketball to measure the value of players in a cooperative setting. Whether you're looking for strategies or new ideas to throw out while watching the ballgame at a sports bar, Dean Oliver's Basketball on Paper will give you amazing new insights into teamwork, coaching, and success.

How To Coach Girls' High School Basketball U of Nebraska Press

"If you are interested in Coaching the System, you must be either desperate or crazy!" At least that's what people told authors Gary Smith and Doug Porter when they began investigating this revolutionary style of play almost a decade ago. Ignoring the critics, they went on to coach the two highest scoring teams in men's and women's college basketball history: the University of Redlands, California (132.4 ppg), and Olivet Nazarene University in Illinois (104.1 ppg). From its origins as the Sonny Allen Numbered Fast Break, to Paul Westhead's Loyola Marymount up-tempo game, the System has been around for decades. But when Grinnell College's David Arseneault added platoon substitution patterns and hockey-style short shifts, placing a priority on creating three-point looks for his "preferred shooters," the System truly came into its own. Smith and Porter learned the Grinnell version of the System from Arseneault himself, adapting it to fit their situations coaching men's and women's programs. In the past decade their teams set 32 NCAA and NAIA records between them, including most 100-point games in a season (Redlands-23; Olivet-24). Olivet also holds national

records for defensive turnovers (36.3 per game) assists (23.8 per game), and three pointers made in a season (509, 15.6 per game). Redlands owns college basketball records (all levels) for field goal attempts (110.3 per game), and three-pointers made (23.8 per game). Now you can learn every detail of this devastating full court run-and-press attack that allows you to dictate tempo and force your opponents out of their normal game plan, capturing the imagination of your players and community, and making coaching fun again! You'll learn exactly how and why the System works, how to adapt it to fit your personnel, suggestions for conditioning players, organizing System practices, and even ways to respond to the inevitable criticisms that come with playing the game this far "outside the box." Other chapters offer complete descriptions of the Redlands Attack (Coach Smith's variation of the Grinnell offense), the LMU Attack (which Westhead popularized and used to advance to the NCAA regional finals in 1990), and the Olivet Attack (Coach Porter's hybrid version of the LMU and Dribble-Drive offenses). Finally, you'll learn System defensive principles, terminology, and how to cover every conceivable press attack and press-breaker alignment. Also included are 57 drills and over 300 diagrams to illustrate System offense and defense, providing you with a complete blueprint for "Coaching the System!"
