 Does she  
 know what to

 Absolutely  
 not. Anita is  
 over her life in  
 New York: her  
 dead-end job,  
 tiny studio  
 apartment,  
 self-obsessed  
 friends, and  
 overbearing

mom. So she  
 moves west to  
 Los Angeles in  
 search of a  
 new career,  
 enlightenment  
 , and that  
 nebulous  
 target...wellne  
 ss. She  
 discovers an  
 elite workout  
 class called  
 the Goddess  
 Effect, run by

a lifestyle guru named Venus who's the very definition of #goals. One look at her Lululemon-clad acolytes sweating out their demons while dripping with confidence and Anita's all in. When one of the class regulars takes Anita under her wing, Anita's sure she's found her people. But Anita's not so smitten that she doesn't wonder about a few things: an inexplicable invitation to a

Goddess Effect retreat, a strange tradition of secret sharing, and whispers about "enhancements" that only Venus can provide. Anita is awakening to a terrifying epiphany: the Goddess Effect isn't quite what it seems, and it may turn her world--and that of everyone around her--upside down. How can schools and teachers change to keep up with the current educational landscape, a world in which

young people must learn how to ask the right questions, not merely parrot back the 'right' answers? In this urgent and insightful book, John Merrow draws on his experience as a reporter for PBS and NPR to examine this question and others, and offer possibilities and solutions for a new education system. Told through warm storytelling and compelling case studies, Merrow paints

a vibrant and inspiring picture of why and how we must transform - not reform - our schools. **The Influence of Teachers** HarperCollins If you've ever wondered what would happen if you could meet a ghost, talk to it, or even touch it, this book is for you! Paranormal investigator Chris Taylor really wants to see a ghost. So he invents a remote control that tunes them back into the

physical world. Hoping to help stranded spirits, he sells the rights to a TV network, only to see his gadget disrupt both earthly and unearthly society. The tuner's effect on humanity threatens the dimension that houses the afterlife, known as the Realm. Its Directorate sends an emissary, Callahan, to oversee a solution: Chris must persuade people to stop using his invention. The

living don't want to give up the tuners - and neither do the dead. Chris enlists help from his friends, Callahan, and a groovy Seventies ghost and begins a clumsy romance with activist Hannah Lively. But when a scientist bent on glory tweaks the tuner and opens a dangerous portal, they're forced to devise a perilous plan to stop her. What follows takes Chris on a journey he

never imagined, one that could ultimately cost him everything. The fireplace is lit, the snow is falling, and sleigh bells echo in the

distance—it's Christmas, and it's time to come home in this charming holiday novel based on Dorothy Shackleford and Blake Shelton's hit song. Thirty-five-year-old Heath Sawyer has finally made it to the big-time as a country music star. After a year full of the kind of success he could only dream of, it's December 23, and he's headlining a sold-out show at Madison Square Garden. It's

only as the lights on the stage go down and the Christmas lights outside come on that Heath realizes there's just one place he wants to be for the holidays: back home in Okmulgee, Oklahoma. But journeying anywhere on Christmas Eve is never easy, and with flight delays, inclement weather, and the unexpected company of a feisty young woman who's about to become his traveling

companion, Heath will need a Christmas miracle to make his way home in time to open presents. Filled with touching anecdotes inspired by the real holiday memories of Blake Shelton and Dorothy Shackleford, *Time for Me to Come Home* is a sweet and funny story that celebrates the spirit of Christmas and the true meaning of finding your way back home. "It's

funny how going back can get you back to where you belong. It's the difference between just a melody and my favorite Christmas song."

Fat girls shouldn't dance. Wear bright colors. Shouldn't call attention to themselves. But Skye dreams of joining the glittering

When Skye nails her audition, she's immediately swept into a whirlwind of countless

Can't resist checking your smartphone or mobile device? Sure, all this connectivity keeps you in touch with your team and the office—but at what cost? *In Sleeping with Your*

Smartphone, Harvard Business School professor Leslie Perlow reveals how you can disconnect and become more productive in the process. In fact, she shows that you can devote more time to your personal life and accomplish more at work. The good news is that this doesn't require a grand organizational makeover or buy-in from the CEO. All it takes is

collaboration between you and your team—working together and making small, doable changes. What started as an experiment with a six-person team at The Boston Consulting Group—one of the world's elite management consulting firms—triggered a global initiative that eventually spanned more than nine hundred BCG teams in thirty countries across five continents. These teams

confronted their nonstop workweeks and changed the way they worked, becoming more efficient and effective. The result? Employees were more satisfied with their work-life balance and with their work in general. And the firm was better able to recruit and retain employees. Clients also benefited—often in unexpected ways. In this engaging book, Perlow takes you inside BCG to

witness the challenges and benefits of disconnecting. She provides a step-by-step guide to introducing change on your team—by establishing a collective goal, encouraging open dialogue, ensuring leadership support—and then spreading change to the rest of your firm. If you and your colleagues are grappling with the “always on” problem, it’s time to disconnect—and start

Thankfully, Green does—and in this incredibly helpful book, she tackles the tough discussions you may need to have during your career. You’ll learn what to say when • coworkers push their work on you—then take credit for it • you accidentally trash-talk

someone in an email then hit “reply all” • you’re being micromanaged—or not being managed at all • you catch a colleague in a lie • your boss seems unhappy with your work • your cubemate’s loud speakerphone is making you homicidal • you got drunk at the holiday party Praise for Ask a Manager “A must-read for anyone who works . . . Ballantine Books X-Men meets Spy Kids in this instant New York Times bestseller! Here's the first book in a new middle-

grade fantasy/adventure series from the author of The Unwanted. Fifteen years ago, eight supernatural criminals fled Estero City to make a new life in an isolated tropical hideout. Over time, seven of them disappeared without a trace, presumed captured or killed. And now, the remaining one has died. Left behind to fend for themselves are the criminals' five

children, each with superpowers of their own: Birdie can communicate with animals. Brix has athletic abilities and can heal quickly. Tenner can swim like a fish and can see in the dark and hear from a distance. Seven's skin

camouflages to match whatever is around him. Cabot hasn't shown signs of any unusual power—yet. Then one day Birdie finds a map among her father's things that leads to a secret stash. There is also a note: Go to Estero, find your mother, and give her the map. The

five have lived their entire lives in isolation. What would it mean to follow the map to a strange world full of things they've only heard about, like cell phones, cars, and electricity? A world where, thanks to their parents, being supernatural is a crime?
