The War on Small Business W. W. Norton & Company  
 Surveys the life and career of the social theorist best known for the quotation, "The medium is the message," who helped shape the culture of the 1960s and predicted the future of television and the rise of the Internet.

From the author of The Agitators, the acclaimed and captivating true story of two restless society girls who left their affluent lives to "rough it" as teachers in the wilds of Colorado in 1916. In the summer of 1916, Dorothy Woodruff and Rosamond Underwood, bored by society luncheons, charity work, and the effete men who courted them, left their families in Auburn, New York, to teach school in the wilds of northwestern Colorado. They lived with a family of homesteaders in the Elkhead Mountains and rode to school on horseback, often in blinding blizzards. Their students

walked or skied, in tattered clothes and shoes tied together with string. The young cattle rancher who had lured them west, Ferry Carpenter, had promised them the adventure of a lifetime. He hadn't let on that they would be considered dazzling prospective brides for the locals. Nearly a hundred years later, Dorothy Wickenden, the granddaughter of Dorothy Woodruff, found the teachers' buoyant letters home, which captured the voices of the pioneer women, the children, and other unforgettable people the women got to know. In reconstructing their journey, Wickenden has created an exhilarating saga about two intrepid women and the "settling up" of the West.

WINNER OF THE PULITZER PRIZE FOR FICTION NEW YORK TIMES  
 TOP 10 BOOKS OF 2010 Jennifer Egan's spellbinding novel circles the lives of Bennie Salazar, an ageing former punk rocker and record executive, and Sasha, the troubled young woman he employs. We first meet Sasha in her mid-thirties, on her therapist's couch in New York City, confronting her longstanding

compulsion to steal. We meet Bennie at the melancholy nadir of his adult life - divorced, struggling to connect with his nine-year-old son, listening to a washed-up band in the basement of a suburban house. Although Bennie and Sasha never discover each other's pasts, the reader does, in intimate detail, along with the secret lives of a host of other characters whose paths intersect with theirs, over many years, in many places. With music pulsing on every page, this is a startling, exhilarating novel of self-destruction and redemption. Breathtaking work from one of our boldest writers. 'Irresistible. Fiction of the highest quality' Sunday Times 'Egan's precise, calm underwater prose is a persistent pleasure' Daily Telegraph 'Stories that defy narrative convention' Financial Times 'A must-read' Sunday Times

Set in Paris, at an international high school catering to the sons and daughters of wealthy families, *You Deserve Nothing* is a gripping story of power, idealism, and morality. William Silver is a talented and charismatic young teacher whose unconventional methods raise eyebrows among his colleagues and superiors. His students, however, are devoted to him. His teaching of Camus, Faulkner, Sartre, Keats and other kindred souls breathe life into their sense of social justice and their capacities for philosophical and ethical thought. But unbeknownst to his adoring pupils, Silver proves incapable of living up to the ideals he encourages in others. Emotionally scarred by failures in his personal life and driven to distraction by the City of Light's overpowering carnality and beauty, Silver succumbs to a temptation that will change the course of his life. His fall will render him a criminal in the eyes of some, and all too human in the eyes of others. In Maksik's stylish prose, Paris is sensual, dazzling and dangerously seductive. It serves as a fitting backdrop for a dramatic tale about the tension between desire and action, and about the complex relationship that exists between our public and private selves.

"If you've got nothing to hide," many people say, "you shouldn't worry about government surveillance." Others argue that we must sacrifice privacy for security. But as Daniel J. Solove argues in this important book, these arguments and many others are flawed. They are based on mistaken views about what it means to protect privacy and the costs and benefits of doing so. The debate between privacy and security has been framed incorrectly as a zero-sum game in which we are forced to choose between one value and the other. Why can't we have both? In this concise and accessible book, Solove exposes the fallacies of many pro-security arguments that have skewed law and policy to favor security at the expense of privacy. Protecting privacy isn't fatal to security measures; it merely involves adequate oversight and regulation. Solove traces the history of the privacy-security debate from the Revolution to the present day. He explains how the law protects privacy and examines concerns with new technologies. He then points out the failings of our current system and offers specific remedies. *Nothing to Hide* makes a powerful and compelling case for reaching a better balance between privacy and security and reveals why doing so is essential to protect our freedom and democracy"--Jacket.

The visionary behind the million-strong IF:Gathering challenges Christian women to discover what it means to do life with God rather than always striving to impress him, in this trade paperback edition of her perspective-shifting work, which now includes bonus material to enhance your book club experience, including discussion questions and easy-to-create recipes. In *Nothing to Prove* she calls us to... \* Find freedom from self-induced pressure by admitting we're not enough—but Jesus is. \* Admit our greatest needs and watch them be filled by the only One who can meet them. \* Make it our goal to know and love Jesus, then watch what He does in and through us. This book helps answer the big questions *Who am I? Why am I here? What is my purpose?* It helps us find our way to know the truth about who we truly are and what we are capable of. Donald

M. Toney came here to guide and enlighten us of all the truths that are our privilege to have. In this book he is giving us guidance of how to perfect ourselves and how to become enlightened. He shows us how to connect directly to Source, rather than being influenced mainly by the world of beliefs and programming around us. He is giving us keys to turn our flesh bodies back to Light. He is showing us how to reactivate our special innate abilities that are sleeping. We are here at the most perfect time to find our way to our real Home. He will give us the avenues to do that. Much of this has never been written before. It has always passed directly from master to one student.

In the spirit of *The Gentle Art of Swedish Death Cleaning* and *The Joy of Less*, experience the benefits of buying less and sharing more with this accessible 7-step guide to decluttering, saving money, and creating community from the creators of the Buy Nothing Project. In their island community, friends Liesl Clark and Rebecca Rockefeller discovered that the beaches of Puget Sound were spoiled by a daily influx of plastic items and trash washing on shore. From pens and toothbrushes to toys and straws, they wondered, where did it all come from? Of course, it comes from us—our homes, our backyards, our cars, and our workplaces. And so, a rallying cry against excess stuff was born. In 2013, they launched the first Facebook Buy Nothing Project group in their small town off the coast of Seattle, and they never expected it to become a viral sensation. Today there are thousands of Buy Nothing groups all over the world, boasting more than a million members, and 5,000 highly active volunteers. Inspired by the ancient practice of gift economies, where neighbors share and pool resources, *The Buy Nothing, Get Everything Plan* introduces an environmentally conscious 7-step guide that teaches us how to buy less, give more, and live generously. At once an actionable plan and a thought-provoking exploration of our addiction to stuff, this powerful program will help you declutter your home without filling landfills, shop more thoughtfully and discerningly, and let go of the need to buy new things. Filled with helpful lists and practical suggestions including 50 items you never need to buy (Ziploc bags and paper towels) and 50 things to make instead (gift cards and salad dressing), *The Buy Nothing, Get Everything Plan* encourages you to rethink why you shop and embrace a space-saving, money-saving, and earth-saving mindset of buying less and sharing more.

Wow your customers . . . with "less." Cut costs—it's a common corporate refrain. But if you constantly slash expenditures, what happens to innovation? How can you stay competitive and satisfy customers? Costovation solves the dilemma of how to spend less and innovate more. The book's revolutionary approach broadens the definition of innovation beyond products to the business model itself. With costovation, you let go of assumptions, take a fresh look at the market, and relentlessly focus on what customers really want. Consider Planet Fitness—it grew to 7.3 million members by concentrating on casual exercisers. Those folks don't care about frills. They want easy, low-cost access to good equipment. Although it's inexpensive to run, Planet Fitness ranks highest in gym satisfaction. Gourmet grocer, Picard, sells only frozen food. With less perishable inventory, they compress costs while delighting a discerning but busy clientele. Packed with examples and interactive exercises, the book explores cost innovation strategies that work for big and small companies alike. From open innovation and cost-sharing to simplifying products and turning waste into new offerings—readers learn how rivals are carving out niches, protecting positions, and dominating industries. Innovation and cost-cutting are not opposites. Combined, they expose untapped opportunities to outsmart and

underspend competitors.

"The Corona crisis and the Need for a Great Reset" is a guide for anyone who wants to understand how COVID-19 disrupted our social and economic systems, and what changes will be needed to create a more inclusive, resilient and sustainable world going forward. Thierry Malleret, founder of the Monthly Barometer, and Klaus Schwab, founder and executive Chairman of the World Economic Forum, explore what the root causes of these crisis were, and why they lead to a need for a Great Reset. There is a worrying, yet hopeful analysis. COVID-19 has created a great disruptive reset of our global social, economic, and political systems. But the power of human beings lies in being foresighted and having the ingenuity, at least to a certain extent, to take their destiny into their hands and to plan for a better future. This is the purpose of this book: to shake up and to show the deficiencies which were manifest in our global system, even before COVID broke out.

'One day there is life . . . and then, suddenly, it happens there is death.' So begins Paul Auster's moving and personal meditation on fatherhood. The first section, 'Portrait of an Invisible Man', reveals Auster's memories and feelings after the death of his father. In 'The Book of Memory' the perspective shifts to Auster's role as a father. The narrator, 'A', contemplates his separation from his son, his dying grandfather and the solitary nature of writing and story-telling.

After three years of living his dream as a professional baseball pitcher, Mike Robbins had an arm injury that benched him for good, and when this happened, everything changed. He had to figure out who he was without the identity of "baseball player"—a process fraught with emotional highs and lows—and he quickly realized that the self-criticism and self-doubt he was feeling are in fact epidemic in our culture. Too often we base our value on our external world—our jobs, finances, appearance, or various other factors. Even the most successful people struggle with their relationship with themselves. In *Nothing Changes Until You Do*, Mike looks at this delicate relationship and brings to light a new way to look at life, opening your eyes to your innate value. These 40 inspiring essays, which are real tales from Mike's own life and the lives of his clients, boil down some of the most important lessons Mike has learned on his own personal journey—and as he's traveled throughout the country for over a decade speaking to groups of all kinds. With themes spanning from the importance of trusting yourself to the benefits of vulnerability to the strength inherent in embracing change, this book shows you how to get out of your own way and make peace with yourself. With humor, authenticity, and ease, Mike illustrates that with a little self-compassion and a healthy dose of self-acceptance, anyone can turn away from the negatives that manifest because of a critical self-perception—things like unkindness, insecurity, addictions, sabotaged relationships, unnecessary drama, and more. Making peace with yourself is fundamental to happiness and success. So join Mike and learn to have more compassion, more acceptance, and more love for yourself—thus giving you access to more compassion, more acceptance, and more love for the people (and everything else) in your life.

"Kristi Coulter charts the raw, unvarnished, and quietly riveting terrain of new sobriety with wit and warmth. *Nothing Good Can Come from This* is a book about generative discomfort, surprising sources of beauty, and the odd, often hilarious, business of being human." —Leslie Jamison, author of *The Empathy Exams* and *The*

Recovering Kristi Coulter inspired and incensed the internet when she wrote about what happened when she stopped drinking. *Nothing Good Can Come from This* is her debut—a frank, funny, and feminist essay collection by a keen-eyed observer no longer numbed into complacency. When Kristi stopped drinking, she started noticing things. Like when you give up a debilitating habit, it leaves a space, one that can't easily be filled by mocktails or ice cream or sex or crafting. And when you cancel Rosé Season for yourself, you're left with just Summer, and that's when you notice that the women around you are tanked—that alcohol is the oil in the motors that keeps them purring when they could be making other kinds of noise. In her sharp, incisive debut essay collection, Coulter reveals a portrait of a life in transition. By turns hilarious and heartrending, *Nothing Good Can Come from This* introduces a fierce new voice to fans of Sloane Crosley, David Sedaris, and Cheryl Strayed—perfect for anyone who has ever stood in the middle of a so-called perfect life and looked for an escape hatch.

*Nothing in This Book Is True, But It's Exactly How Things Are* is an account of humankind's function within the grand celestial battle between internal and external knowledge. Author Bob Frissell gives a compelling account of our planetary ascent into higher consciousness, presenting a big-screen view of the Earth through the experience of the Ascended Masters, Thoth, Babaji, and Drunvalo Melchizedek. Pulling in all manner of conspiracy theories from the Secret Government to the Philadelphia Experiment, Frissell proposes both a core transdimensional shift based on the Mayan calendar and a personal Rapture mediated through the connected, affirmed breaths of rebirthing that his teacher Melchizedek used to travel from the other side of the universe to here—breathing your own spacecraft (merkaba) out of and around your aura in order to travel through the astral realms. The 15th anniversary edition of this cult classic is revised and expanded with new illustrations and 50 pages of important new information on the Lucifer Rebellion, the solar storm, and the final three breaths of the merkaba meditation.

Over the past seven years I've lived in more places than I can remember. I lived and worked in Shanghai, New York, Berlin, Bangkok, Munich and a few more places, not including the dozens of places I've stayed at for just a few days or weeks. While writing these lines I'm in a small town in Malaysia. I've basically lived out of a backpack for the past seven years. And the longer I'm doing this, the less stuff I need. Right now I carry less than 10 items around with me in a carry on backpack that weighs less than 10kg. I go wherever I want to go. I currently spend less than \$800 a month. Including everything. My most precious possession is a

\$300 Acer laptop. I've started a clothing company in China, for the Chinese market, which failed miserably. I've launched more than 10 websites, some of them made some money, some of them didn't. I shut down all of them. I've written seven books (this is my eighth). None of them was a bestseller. I write a blog where I published more than 500 articles so far. I've more than 100,000 monthly readers spread across multiple platforms. I'm by no means successful. Or rich. But I have more than enough, by all means. I have access to everything I need. And I can buy and afford everything I need. I'm not a minimalist. Or a digital nomad. Or an entrepreneur. Or a blogger. Or an author. I'm mostly trying to just be myself. I'm trying to be myself in a world where it gets harder and harder every single day to just be yourself. It's not always been easy. As a matter of fact it's probably been hard more often than it's been easy. But every day of struggle and doubt has been worth it. Being yourself and creating your own life instead of just living a life is always worth the struggle. This right here is my story. This is what I've learned about life, myself and the world around me. I'm everywhere and nowhere. And I own nothing and everything...

*Why I Write* Simon and Schuster

A New York Times bestseller: The "magnificent" memoir by one of the bravest and most original writers of our time—"A tour de force of literature and love" (Vogue). One of the New York Times' "50 Best Memoirs of the Past 50 Years" Jeanette Winterson's bold and revelatory novels have established her as a major figure in world literature. Her internationally best-selling debut, *Oranges Are Not the Only Fruit*, tells the story of a young girl adopted by Pentecostal parents, and has become a staple of required reading in contemporary fiction classes. *Why Be Happy When You Could Be Normal?* is a "singular and electric" memoir about a life's work to find happiness (The New York Times). It is a book full of stories: about a girl locked out of her home, sitting on the doorstep all night; about a religious zealot disguised as a mother who has two sets of false teeth and a revolver in the dresser, waiting for Armageddon; about growing up in a north England industrial town now changed beyond recognition; about the universe as a cosmic dustbin. It is the story of how a painful past, rose to haunt the author later in life, sending her on a journey into madness and out again, in search of her biological mother. It is also a book about the power of literature, showing how fiction and poetry can form a string of guiding lights, or a life raft that supports us when we are sinking. Witty, acute, fierce, and celebratory, *Why Be Happy When You Could Be Normal?* is a tough-minded story of the search for belonging—for love, identity, home, and a mother.
