ELLE LAWRENCE

Decoding the Universe

Signal

Based on his columns in Vanity Fair that chronicled his year-and-a-half battle with esophageal cancer, Mortality is Christopher Hitchens at his most honest and reflective . Thoughtfully meditating on the harrowing effects

of illness and treatment on the body, and on the impermanence and acceptance of a life ending, Mortality is Hitchens' magnum opus, and in true Hitchens form, he has the last word.

A Train of Powder Basic Books

Hitchens brings the character of Jefferson to life as a man of his time and also as a symbolic figure beyond it. Conflicted by power,

Jefferson wrote the Declaration of Independence and acted as Minister to France yet yearned for a quieter career in the Virginia legislature. Predicting that slavery would shape the future of America's development, this professed proponent of emancipation continued to own human property. He negotiated the Louisiana Purchase with France, doubling the size

of the nation, and authorized the Lewis and Clark expedition, opening up the American frontier. The Barbary War, a lesser-known chapter of his political career, led to the building of the U.S. Navy and the fortification of America's reputation regarding national defense. In the background is the fledgling nation's struggle for independence, formed in the crucible of the eighteenth-century Enlightenment, and, in its shadow, the deformation of that struggle in the

excesses of the French Revolution. Churchill, Hitler, and "The Unnecessary War" Agate Publishing Brings together Hitchens' most incisive reflections on the 'war on terror', the war in Iraq and the state of the contemporary left. It also includes a selection of critical commentaries on his work from his former leftist comrades, a set of exchanges between Hitchens and various left-leaning interlocutors and more. *Thomas Paine's Rights of Man* Twelve

Oppenheimer takes a provocative, intimate look at the evolution of America's political soul through the lives of six political figures who abandoned the left and joined the right: Whittaker Chambers, James Burnham, Ronald Reagan, Norman Podhoretz, David Horowitz, and Christopher Hitchens. The result is an unusually intimate history of the American left, and the right's reaction. Radical Random House "All first-rate criticism first defines what we are confronting," the late,

great jazz critic Whitney Balliett once wrote. By that measure, the essays of Christopher Hitchens are in the first tier. For nearly four decades, Hitchens has been telling us, in pitch-perfect prose, what we confront when we grapple with first principles—the principles of reason and tolerance and skepticism that define and inform the foundations of our civilization—principles that, to endure, must be defended anew by every generation. "A short list of the greatest living conversationalists in

English," said *The Economist*, "would probably have to include Christopher Hitchens, Sir Patrick Leigh-Fermor, and Sir Tom Stoppard. Great brilliance, fantastic powers of recall, and quick wit are clearly valuable in sustaining conversation at these cosmic levels. Charm may be helpful, too." Hitchens—who staunchly declines all offers of knighthood—hereby invites you to take a seat at a democratic conversation, to be engaged, and to be reasoned with. His

knowledge is formidable, an encyclopedic treasure, and yet one has the feeling, reading him, of hearing a person thinking out loud, following the inexorable logic of his thought, wherever it might lead, unafraid to expose fraudulence, denounce injustice, and excoriate hypocrisy. Legions of readers, admirers and detractors alike, have learned to read Hitchens with something approaching awe at his felicity of language, the oxygen in every sentence, the

enviable wit and his readiness, even eagerness, to fight a foe or mount the ramparts. Here, he supplies fresh perceptions of such figures as varied as Charles Dickens, Karl Marx, Rebecca West, George Orwell, J.G. Ballard, and Philip Larkin are matched in brilliance by his pungent discussions and intrepid observations, gathered from a lifetime of traveling and reporting from such destinations as Iran, China, and Pakistan. Hitchens's directness,

elegance, lightly carried erudition, critical and psychological insight, humor, and sympathy-applied as they are here to a dazzling variety of subjects-all set a standard for the essayist that has rarely been matched in our time. What emerges from this indispensable volume is an intellectual self-portrait of a writer with an exemplary steadiness of purpose and a love affair with the delights and seductions of the English language, a man anchored in a profound and humane

vision of the human longing for reason and justice.

LOUD AND CLEAR Simon and Schuster

Why are Australian leaders so reluctant to acknowledge the power they have and unsure what to do with it? *Australian Leadership Paradox* claims Australians have a serious problem with leadership. It explains the cultural roots of this problem, and ways we can become more purposeful leaders. [Love, Poverty and War](#) Penguin UK

From one of the most brilliant and provocative literary figures of the past century—a collection of essays, articles, reviews, and interviews that have never before been gathered in a single volume. “An absorbing portrait of Baldwin’s time—and of him.” —New York Review of Books James Baldwin was an American literary master, renowned for his fierce engagement with issues haunting our common history. In *The Cross of Redemption* we have Baldwin discoursing on,

among other subjects, the possibility of an African-American president and what it might mean; the hypocrisy of American religious fundamentalism; the black church in America; the trials and tribulations of black nationalism; anti-Semitism; the blues and boxing; Russian literary masters; and the role of the writer in our society. Prophetic and bracing, *The Cross of Redemption* is a welcome and important addition to the works of a cosmopolitan and canonical American

writer who still has much to teach us about race, democracy, and personal and national identity. As Michael Ondaatje has remarked, “If van Gogh was our nineteenth-century artist-saint, Baldwin [was] our twentieth-century one.” *Harlot's Ghost* Verso This book uses evolutionary psychology as a lens to explain religious violence and oppression. The author, a clinical psychologist, examines religious scriptures, rituals, and canon law, highlighting

the many ways in which our evolutionary legacy has shaped the development of religion and continues to profoundly influence its expression. The book focuses on the image of God as the dominant male in Judaism, Christianity, and Islam. This traditional God concept is seen as a reflection of the “dominant ape” paradigm so evident in the hierarchical social structures of primates, with whom we have a strong genetic connection. The author

describes the main features of male-dominated primate social hierarchies—specifically, the role of the alpha male as the protector of the group; his sexual dominance and use of violence and oppression to attain food, females, and territory; in-group altruism vs. out-group hostility (us vs. them); and displays of dominance and submission to establish roles within the social hierarchy. The parallels between these features of primate society and

human religious rituals and concepts make it clear that religion, especially its oppressive and violent tendencies, is rooted in the deep evolutionary past. This incisive analysis goes a long way toward explaining the historic and ongoing violence committed in the name of religion.

[The Cross of Redemption](#)
New Paradigm Pub.

In this sweeping collection of essays, reportage and criticism, Hitchens' polemical talents at their most fearsome. "I did not,

I wish to state, become a journalist because there was no other 'profession' that would have me. I became a journalist because I did not want to rely on newspapers for information." Love, Poverty and War: Journeys and Essays showcases the Hitchens' rejection of consensus and cliché, whether he's reporting from abroad in Indonesia, Kurdistan, Iraq, North Korea, or Cuba, or when his pen is targeted mercilessly at the likes of William Clinton, Mother Theresa ("a fanatic, a

fundamentalist and a fraud"), the Dalai Lama, Noam Chomsky, Mel Gibson and Michael Bloomberg. Hitchens began the nineties as a "darling of the left" but has become more of an "unaffiliated radical" whose targets include those on the "left," who he accuses of "fudging" the issue of military intervention in the Balkans, Afghanistan and Iraq. Yet, as Hitchens shows in his reportage, cultural and literary criticism, and opinion essays from the last

decade, he has not jumped ship and joined the right but is faithful to the internationalist, contrarian and democratic ideals that have always informed his work. *The Quotable Hitchens* University of Texas Press Poor people don't drive cars. People have the right to be bigots. I'm a fixer. Team Australia. Shirtfonting. Choppergate. Stop the boats. Coal is good for humanity. No cuts to health. Sir Prince Philip. The flags. It's all the fault of the febrile media. And that whole

onion thing. In August 2013, Australia welcomed Tony Abbott as its new prime minister. This promised to be a marriage between responsible government and a nation tired of the endless drama of the Gillard-Rudd years. But then well Andrew P Street details the litany of gaffes, goofs and questionable captain's calls that characterised the subsequent reign of the Abbott government, following the trail from bold promises to questionable realities,

unlikely recoveries to inexplicable own goals, Malcolm Turnbull's assurances of support to the day he pushed the Captain off his bike once and for all. And all this comes with a colourful cast of supporting characters and dangerous loons that only a nation unfamiliar with the concept of below- the-line voting could elect. Here is a unique take on a modern politics Australian style. If Game of Thrones was a deeply irreverent book about politics, then the TV series would

probably not rate nearly as well. It would, however, look something like this. Alpha God Verso Christopher Hitchens, described in the London Observer as "one of the most prolific, as well as brilliant, journalists of our time" takes on his biggest subject yet—the increasingly dangerous role of religion in the world. In the tradition of Bertrand Russell's Why I Am Not a Christian and Sam Harris's recent bestseller, The End Of Faith, Christopher Hitchens makes the

ultimate case against religion. With a close and erudite reading of the major religious texts, he documents the ways in which religion is a man-made wish, a cause of dangerous sexual repression, and a distortion of our origins in the cosmos. With eloquent clarity, Hitchens frames the argument for a more secular life based on science and reason, in which hell is replaced by the Hubble Telescope's awesome view of the universe, and Moses and the burning bush give way

to the beauty and symmetry of the double helix.

No One Left to Lie to

University Press of Kansas Suggests that President Clinton's largest legacy may be the weakening of the presidency and of the Democratic Party.

Why Orwell Matters

Allen & Unwin

For nearly four decades, Christopher Hitchens has been telling us, in pitch-perfect prose, what we confront when we grapple with first principles--the principles of reason and tolerance and skepticism

that define and inform the foundations of our civilization--principles that, to endure, must be defended anew by every generation. Here, in Arguably, he invites readers to take a seat at a democratic conversation, to be engaged, and to be reasoned with. Astute, vivid, and uninhibited, Hitchens sets a standard for the essayist that has rarely been matched in our time. What emerges in this indispensable volume is an intellectual self-portrait of a writer with an exemplary

steadiness of purpose and a love affair with the delights and seductions of the English language, a man anchored in a profound and humane vision of the human longing for reason and justice.

The Australian Leadership Paradox Harvard University Press
Were World Wars I and II inevitable? Were they necessary wars? Or were they products of calamitous failures of judgment? In this monumental and provocative history, Patrick Buchanan makes the case that, if not for the blunders of British statesmen- Winston Churchill first among them-the horrors of two

world wars and the Holocaust might have been avoided and the British Empire might never have collapsed into ruins. Half a century of murderous oppression of scores of millions under the iron boot of Communist tyranny might never have happened, and Europe's central role in world affairs might have been sustained for many generations. Among the British and Churchillian errors were: •
The secret decision of a tiny cabal in the inner Cabinet in 1906 to take

Britain straight to war against Germany, should she invade France • The vengeful Treaty of Versailles that mutilated Germany, leaving her bitter, betrayed, and receptive to the appeal of Adolf Hitler • Britain's capitulation, at Churchill's urging, to American pressure to sever the Anglo-Japanese alliance, insulting and isolating Japan, pushing her onto the path of militarism and conquest • The greatest mistake in British history: the unsolicited war guarantee to Poland of

March 1939, ensuring the Second World War Certain to create controversy and spirited argument, Churchill, Hitler, and "the Unnecessary War" is a grand and bold insight into the historic failures of judgment that ended centuries of European rule and guaranteed a future no one who lived in that vanished world could ever have envisioned. *God Is Not Great* Signal "Her commentary on the origins, allure, and challenges of each home reads like liner notes to a favorite album . . . she is

in a class all her own." —Flower In this story-filled monograph, Bunny Williams presents new work through 15 houses she has decorated and loved. She tells the tale of each "affair," tracing the style of the spaces, what drew her to the projects, and her approach to decor that evolves with the lives of her clients. She offers personal secrets for choosing classics—and for decorating with flexible pieces that can play more than one role in a design scheme. Along the way, she offers many

amazingly chic, but always comfortable, residences whose interiors she has designed during the latest phase of her astounding career. As Bunny tells it, “The best pieces have the best stories,” and in this book, she shows readers a fresh collection of projects that demonstrate just that. “A must-have addition to any interior design enthusiast’s library.”
—The Glam Pad
Mortality Da Capo Press
A New York Times bestseller, this riveting account of the Nuremberg

trials by a legendary journalist is simply “astonishing” (Francine Prose). Sent to cover the war crimes trials at Nuremberg for the New Yorker, Rebecca West brought along her inimitable skills for understanding a place and its people. In these accomplished articles, West captures the world that sprung up to process the Nazi leaders; from the city’s war-torn structures to the courtroom security measures, no detail is left out. West’s unparalleled grasp on human

motivations and character offers particular insight into the judges, prosecutors, and of course the defendants themselves. This remarkable narrative captures the social and political ramifications of a world recovering from the divisions of war. As engaging as it is informative, this collection represents West’s finest hour as a reporter. [The Trial of Henry Kissinger](#) Vintage
Get inside the head of one of the most influential musicians of our time with

this collection of her most inspiring and revealing quotes. The quotations in this book have been carefully curated from Taylor Swift's numerous public statements—interviews, op-eds, social media posts, and more. It's a comprehensive picture of her meteoric rise to the top, her ever-savvy business sense, and her increasingly forthright perspective on the music world and beyond. Swift's catchy, chart-topping songs have propelled her to become one of the

bestselling musicians of all time. But in the more than fifteen years she's been making music, she has also amassed enough power to buck the norms of an industry notorious for controlling the images of its often very young female artists. She's stood up for herself and for other artists, championing their rights to fair royalties, and inspired tens of thousands of fans to register to vote. Swift's achievements have earned her spots on both Forbes's Most Powerful Women and Time's 100

Most Influential People lists. Now, for the first time, you can find her most inspirational, thought-provoking quotes in one place.

Arguably Open Road Media

Over the course of his 60 years, Christopher Hitchens has been a citizen of both the United States and the United Kingdom. He has been both a socialist opposed to the war in Vietnam and a supporter of the U.S. war against Islamic extremism in Iraq. He has been both a foreign

correspondent in some of the world's most dangerous places and a legendary bon vivant with an unquenchable thirst for alcohol and literature. He is a fervent atheist, raised as a Christian, by a mother whose Jewish heritage was not revealed

to him until her suicide. In other words, Christopher Hitchens contains multitudes. He sees all sides of an argument. And he believes the personal is political. This is the story of his life, lived large.
