When a young man washes up, naked, on the sands of St Piran in Cornwall, he is quickly rescued by the villagers. From the retired village doctor and the schoolteacher, to the beachcomber and the owner of the local bar, the priest's wife and the romantic novelist, they take this lost soul into their midst. But what the villagers don't know is that Joe Haak has fled the City of London fearing a worldwide collapse of civilisation, a collapse forecast by Cassie, a computer program he designed. But is the end of the world really nigh? Can Joe convince the village to seal itself off from the outside world? And what of the whale that lurks in the bay? Intimate, funny and deeply moving, *Not Forgetting the Whale* is the story of a man on a journey to find a place he can call home.

We can all take steps to reduce our carbon footprint and be more self-sufficient. For some, that might mean upping sticks and living off the land. For the rest of us, the reality might involve smaller, but no less important, lifestyle changes: cutting back on plastic or food waste, growing vegetables, preserving meat and fish, preparing jams and chutneys, baking sourdough bread, making your own plant-based milks, or keeping a chicken or two. Dick and James Strawbridge know what it's like to make these changes. Between them, they've lived on a smallholding, in a terraced house, and even a chateau. In this updated edition of *Practical Self-sufficiency* they share everything they've learned,

Prepared to live at your prime? Integrative neurologist Dr. Kulreet Chaudhary discovered a beautiful side effect to the eating and lifestyle tools she gave her brain patients—spontaneously shedding excess pounds. In this, her first book, she shows us how to sharpen the brain, and smarten and heal the gut. Weight gain is not about the food, but about the body's environment. Excess weight is a result of the body being in a toxic, inflammatory state. If your body is not prepared or 'primed' for weight loss, you will fight an uphill biochemical battle. Her program is not about what you can't have or do, it's about adding simple teas and herbs, and succeeding without giving up any foods you love. With *The Prime*, Dr. Chaudhary has reverse engineered our way of eating, so we can stop dieting backward and start losing weight instead. You'll learn: --The importance of neuroadaptation, food addiction, and the brain (or, why your brain and gut have made it so hard to lose weight in the past!) --Why it's not about what you eat, but what you digest --How to determine if you have a Leaky Brain—and what *The Prime* can do about it (hint: everything) --How to easily crush cravings (no willpower required), ignite energy and fat, and biohack your lifestyle habits. Lastly, you'll learn how to live fully Primed, the secrets of the Super-Primed, and when you're ready to explore new foods, how to eat according to your unique constitution.
