## **YULIANA BEATRICE**

---

Die hundert besten gedichte der deutschen sprache (Lyrik) Verlag Freies Geistesleben  
 Vom Klang der Sprache und den Farben der Poesie Christa Ludwig wandert in ihren spielerisch leicht erzählten Texten durch das Reich der Worte. Sprache ist ihr Lebenselixier. Sie sammelt Lieblingswörter, wirft Fragen auf wie »War das Wort zuerst Gesang?« und »Ist der Mensch zum Sehen geboren - oder eher zum Hören, weil man Sprache hören muss?« Sie erzählt, wie Gedichte Alltagsprobleme lösen können, und findet die Poesie im Alltag und den Alltag in der Poesie. In diesen kurzen, eingängigen

Betrachtungen erschließt Christa Ludwig erstaunliche Phänomene der Sprache, die das Leben oft in einem ungewohnten Licht erscheinen lassen. Mit ihren Anregungen können wir auch in unserem Alltag einen überraschend neuen Blick auf die Dinge gewinnen.

KG  
 Why would a Latin Qur'an be addressed to readers who knew no Latin? What happens when translators work on paper rather than parchment? Why would a Jewish rabbi translate a bible for Christians? How can a theorist successfully criticize a version of Aristotle without knowing any Greek? Why were children used to bring down an Amerindian civilization? Why does the statue of Columbus in Barcelona point straight to Israel? Why should a Nicaraguan poet cite a French poem in order to explain a volcano in Nicaragua? This book does more than answer such questions. It uses them to discuss some of the most fundamental and complex issues in contemporary Translation Studies and Cultural Studies. Identifying cultural intermediaries as members of medieval frontier society, it traces the stages by

which that society has assisted in the creation of Hispanic cultures. Individual case studies go from the twelfth-century Christian, Islamic and Jewish exchanges right through to the not unrelated complexity of today's translation schools in Spain, mining a history rich in anecdote and paradox. Further aspects trace key concepts such as disputation, the medieval hierarchy of languages, the nationalist mistrust of intermediaries, the effects of decolonization on development ideology, and the difficulties of training students for globalizing markets.

#### **Die Lyrischen Meisterstücke Von F. Von Schiller**

This book breaks new ground in considering the nature and function of anthologies of poetry and short stories in twentieth-century Portugal. It tackles the main theoretical issues, identifies a significant body of critical writing on the relationship between anthologies, literary

history and the canon, and proposes an approach that might be designated Descriptive Anthology Studies. The author aims to achieve a full understanding of the role of anthologies in the literary polysystem. Moreover, this study considers anthologies published in Portugal in the early years of the twentieth-century, the influential figures who made them, the works they selected, and who read them. It also focuses on the principal publishing houses of the 1940s and 50s, and how their literary directors shaped public taste and promoted intercultural transfer. The author reveals tensions between conservative, nostalgic anthologies that promote an idyllic vision of rural Portugal, and collections of poems that question and challenge the status quo, whether in respect of the colonial wars or repressed female sexuality. The last part of the book explores anthology production in the period following the Revolution of 1974, observing the co-

existence of traditional anthologising activity with new trends and innovations, and noting the role of women, both as anthologists and anthology items.
