GARNER SHAFFER

UAE, My Homeland Random House Books for Young Readers

"Simple text and photographs describe desert animal adaptations"--Provided by publisher.

First Step Nonfiction-Habitats Teaching Guide Createspace Independent Publishing Platform
"In Coral Reef Food Chains, early fluent readers explore the coral reef biome and the food chains it supports. Vibrant, full-color photos and carefully leveled text engage young readers as they explore how energy flows through plants and animals on a coral reef. A map helps readers identify major reefs in the world's oceans, and an activity offers kids an opportunity to extend discovery. Children can learn more about coral reef food chains using our safe search engine that provides relevant, age-appropriate websites. Coral Reef Food Chains also features reading tips for teachers and parents, a table of contents, a glossary, and an index. Coral Reef Food Chains is part of Jump!'s Who Eats What? series."

Biology for AP® Courses Brodart Company

Laugh and learn with fun facts about desert animals, cacti, sand dunes, and more—all told in Dr. Seuss's beloved rhyming style and starring the Cat in the Hat! "You may think that deserts are empty and bare, but you'll be surprised by the things we'll find there..." The Cat in the Hat's Learning Library series combines beloved characters, engaging rhymes, and Seussian illustrations to introduce children to non-fiction topics from the real world! Journey through the deserts of the world and learn: how plants and animals have adapted to survive the unforgiving climate why deserts don't have to be hot what causes us to see mirages and much more! Perfect for story time and for the youngest readers, *Why Oh Why Are Deserts Dry?* All About Deserts also includes an index, glossary, and suggestions for further learning. Look for more books in the Cat in the Hat's Learning Library series! *Cows Can Moo! Can You?* All About Farms Hark! A Shark! All About Sharks If I Ran the Dog Show: All About Dogs Oh Say Can You Say Di-no-saur? All About Dinosaurs On Beyond Bugs! All About Insects One Vote Two Votes I Vote You Vote There's No Place Like Space: All About Our Solar System Who Hatches the Egg? All About Eggs Wish for a Fish: All About Sea Creatures

Desert Animals ABDO

Readers will learn about the four major desert biomes, which are hot and dry, semiarid, coastal, and cold deserts. The text will focus on the climate and the very special plants and animals that are found in deserts around the world. Aligned to Common Core Standards and correlated to state standards. Abdo Kids is a division of ABDO.

Anza-Borrego Desert Region Taylor Trade Publishing

The Waseca Biomes Curriculum Guide maps out how to integrate traditional Montessori lessons and Waseca Biomes lessons and materials. The guide begins with the beginning: the birth of the Universe. It moves through cosmic education and on to the exploration of Earth in the context of our Solar System. It introduces life on our planet and the elements that support it. It highlights how

biomes serve as an engaging framework for learning about life on Earth. It outlines a detailed course of study for students to explore continents by biomes and examine the conditions of each biome and how lifeforms have adapted to them.

Taiga Lerner Digital™

FIRST STEP NONFICTION-HABITATS TEACHING GUIDE

Sticky Facts: Animals The Princeton Review

Color an Adirondack Year is a coloring book exploring the animals, wildflowers, habitats and high peaks of the Adirondack Region of Upstate New York throughout the seasons. Color 40 pages and search for 34 hidden objects.

Interactive Notebook: Life Science, Grades 5 - 8 Wilderness Press

Designed with budding readers in mind, each of these tales starring familiar nursery rhyme characters is set in three columns with color-coded type as a script for two voices to read separately and together. By the creators of *You Read to Me*,

Let's Learn about MEXICO Courier Corporation

Biology for AP® courses covers the scope and sequence requirements of a typical two-semester Advanced Placement® biology course. The text provides comprehensive coverage of foundational research and core biology concepts through an evolutionary lens. Biology for AP® Courses was designed to meet and exceed the requirements of the College Board's AP® Biology framework while allowing significant flexibility for instructors. Each section of the book includes an introduction based on the AP® curriculum and includes rich features that engage students in scientific practice and AP® test preparation; it also highlights careers and research opportunities in biological sciences.

Waseca Biomes Curriculum Workman Publishing

Black & white print. Concepts of Biology is designed for the typical introductory biology course for nonmajors, covering standard scope and sequence requirements. The text includes interesting applications and conveys the major themes of biology, with content that is meaningful and easy to understand. The book is designed to demonstrate biology concepts and to promote scientific literacy.

Sonoran Desert Wildflowers LernerClassroom

Amazing photography and tons of factual information on the animals, plants, climate and landscape come together to give a complete picture of this ecosystem in action. Subjects cover the wide diversity of living things in this habitat from the giant saguaro cactus and ocotillo to javelinas, rattlesnakes and dozens of desert birds.

Desert Night Desert Day Cavendish Square Publishing, LLC

Take a walk on the tundra. In this cold, harsh biome on the top of the world, summer is short. How do plants and animals of the tundra live? Discover how they depend on each other for survival as you travel through this fascinating land.

Desert Pogo

Provides a comparative approach to plant succession among all terrestrial biomes and disturbances,

helping to reveal generalizable patterns.

[Coral Reef Food Chains](#) LernerClassroom

Kali adventures with Jojo Giraffe in the African Savannah where they learn an important key to happiness: DON'T TAKE THINGS PERSONALLY. Part of the inspiring EQ Explorers: Little Adventures for a Big, Happy Life series.

[Drawing North American Wildlife](#) Createspace Independent Publishing Platform

Describes the earth's desert regions and the plants and animals that inhabit them.

[Desert Biome](#) Capstone

A totally new idea in sticker books, combining the joy of learning with the joy of stickers. It's an innovative, kid-friendly approach to beloved topics for ages 6 and up, featuring a cutting-edge sticker sheet design that allows for text and color images to appear underneath the sticker. Here's how it works: Read a question, then peel off the corresponding sticker to reveal the answer underneath. The fun doesn't stop there—place the sticker on the facing activity page to create a book of facts and images that can be enjoyed again and again. Once all the stickers are peeled, kids are left with a beautifully designed, information-rich book full of diagrams, facts, and personalized

pages to read again and again. In *Sticky Facts: Animals*, with its pygmy marmosets and the deadly black mamba, meerkats, orangutans, and the giant squid (with eyes as big as a soccer ball!), here are some of the most fascinating animals in the world—tundra to savanna to rain forest to the desert—along with a new world of information.

[Concepts of Biology](#) Random House Books for Young Readers

A simple look at deserts and their animals and plants.

[Why Oh Why Are Deserts Dry? All About Deserts](#) Turtleback Books

Take a walk through the desert. This hot, dry biome of the southwest is full of life. How do plants and animals of the desert live? As you wander through the desert, discover how each and every plant and animal relies on the others to live and grow.

[Color an Adirondack Year](#) Cherry Lake

An introduction to the animals of the desert and how they live, including the camel, jumping jerboa, and bearded lizard.

The Sonoran Desert Courier Corporation

Describes the desert environment and some of the various birds, mammals, amphibians, and reptiles that live there.
