The Hunger of the Gods Pen and Sword
Earth's last Assault Troopers storm an alien ship the size of a planet! After escaping from the Jelk Corporation and hijacking a battlejumper, Creed thought he was free of the extraterrestrials and their war. Now the Lokhars want to hire him, offering advanced technology to clean the radioactive Earth and starships to defend the Solar System. The mission? After untold

centuries, an ancient, planet-sized vessel has gone online, opening a gateway to a collapsing universe. Anti-life aliens are coming through. Before it's too late, the assault troopers have to storm the ship and seal the portal. Creed will do anything to save the last remnants of humanity, but this will be a commando raid like no other against an enemy that shouldn't exist. Creed will need all his cunning and determination if he hopes to bring his people back alive.

A Brief History of the Normans Rebellion Publishing Ltd

"An extraordinary saga." —David Grann, New York Times bestselling author of *Killers of the Flower Moon* The mesmerizing account of a granddaughter's search for a World War II family history hidden for sixty years Growing up in Paris as the daughter of a German mother and an Irish father, Svenja O'Donnell knew little of her family's German past. All she knew was that her great-grandparents, grandmother, and mother had fled their home city of Königsberg near the end of World War II, never to return. But everything changed when O'Donnell

traveled to the city—now known as Kaliningrad, and a part of Russia—and called her grandmother, who uncharacteristically burst into tears. "I have so much to tell you," Inge said. In this transporting and illuminating book, the award-winning journalist vividly reconstructs the story of Inge's life from the rise of the Nazis through the brutal postwar years, from falling in love with a man who was sent to the Eastern Front just after she became pregnant with his child, to spearheading her family's flight as the Red Army closed in, her young daughter in tow. Ultimately, O'Donnell uncovers the act of violence that separated Inge from the man she loved; a terrible secret hidden for more than six decades. A captivating World War II saga, Inge's War is also a powerful reckoning with the meaning of German identity and inherited trauma. In retracing her grandmother's footsteps, O'Donnell not only discovers the remarkable story of a woman caught in the gears of history, but also comes face-to-face with her family's legacy of neutrality and inaction—and offers a rare glimpse into a reality too long buried by silence and shame.

But how can his handful of cruisers stop the approaching armada? If Creed hopes to save humanity, he'll need to unlock the secrets of the Forerunner artifact he brought back from hyperspace. Then, in a race against time, he'll have to risk everything on a desperate raid into the heart of the alien empire.

THE GREATEST SAGAS ARE WRITTEN IN

BLOOD. A century has passed since the gods fought and drove themselves to extinction. Now only their bones remain, promising great power to those brave enough to seek them out. As whispers of war echo across the land of Vigrid, fate follows in the footsteps of three warriors: a huntress on a dangerous quest, a noblewoman pursuing battle fame, and a thrall seeking vengeance among the mercenaries known as the Bloodsworn. All three will shape the fate of the world as it once more falls under the shadow of the gods. Set in a brand-new, Norse-inspired world, and packed with myth, magic, and vengeance, *The Shadow of the Gods* begins an epic new fantasy saga from bestselling author John Gwynne.

The Second World War might have officially ended in May 1945, but in reality it rumbled on for another ten years... The end of the Second World War in Europe is one of the twentieth century's most iconic moments. It is fondly remembered as a time when cheering crowds filled the streets, danced, drank and made love until the small hours. These images of victory

and celebration are so strong in our minds that the period of anarchy and civil war that followed has been forgotten. Across Europe, landscapes had been ravaged, entire cities razed and more than thirty million people had been killed in the war. The institutions that we now take for granted - such as the police, the media, transport, local and national government - were either entirely absent or hopelessly compromised. Crime rates were soaring, economies collapsing, and the European population was hovering on the brink of starvation. In *Savage Continent*, Keith Lowe describes a continent still racked by violence, where large sections of the population had yet to accept that the war was over. Individuals, communities and sometimes whole nations sought vengeance for the wrongs that had been done to them during the war. Germans and collaborators everywhere were rounded up, tormented and summarily executed. Concentration camps were reopened and filled with new victims who were tortured and starved. Violent anti-Semitism was reborn, sparking murders and new pogroms across Europe. Massacres were an integral part of the

chaos and in some places - particularly Greece, Yugoslavia and Poland, as well as parts of Italy and France - they led to brutal civil wars. In some of the greatest acts of ethnic cleansing the world has ever seen, tens of millions were expelled from their ancestral homelands, often with the implicit blessing of the Allied authorities. *Savage Continent* is the story of post WWII Europe, in all its ugly detail, from the end of the war right up until the establishment of an uneasy stability across Europe towards the end of the 1940s. Based principally on primary sources from a dozen countries, *Savage Continent* is a frightening and thrilling chronicle of a world gone mad, the standard history of post WWII Europe for years to come.

From the author of *Guns, Germs and Steel*, Jared Diamond's *Collapse: How Societies Choose to Fail or Survive* is a visionary study of the mysterious downfall of past civilizations. Now in a revised edition with a new afterword, Jared Diamond's *Collapse* uncovers the secret behind why some societies flourish, while others founder - and what this means for our future. What happened to the people who made the forlorn long-abandoned statues of Easter Island? What happened to the architects of the crumbling Maya pyramids? Will we go the same way, our skyscrapers one day standing derelict and overgrown like the temples at Angkor Wat? Bringing together new evidence from a startling range of sources and piecing together the myriad

influences, from climate to culture, that make societies self-destruct, Jared Diamond's Collapse also shows how - unlike our ancestors - we can benefit from
