From award-winning actress and political activist America Ferrera comes a vibrant and varied collection of first-person accounts from prominent figures about the experience of growing up between cultures. America Ferrera has always felt wholly American, and yet, her identity is inextricably linked to her parents' homeland and Honduran culture. Speaking Spanish at home, having Saturday-morning-salsa-dance-parties in the kitchen, and eating tamales alongside apple pie at Christmas never seemed at odds with her American identity. Still, she

yearned to see that identity reflected in the larger American narrative. Now, in *American Like Me*, America invites thirty-one of her friends, peers, and heroes to share their stories about life between cultures. We know them as actors, comedians, athletes, politicians, artists, and writers. However, they are also immigrants, children or grandchildren of immigrants, indigenous people, or people who otherwise grew up with deep and personal connections to more than one culture. Each of them struggled to establish a sense of self, find belonging, and feel seen. And they call themselves American enthusiastically, reluctantly, or not at all. Ranging from the heartfelt to the hilarious, their stories shine a light on a quintessentially American experience and will appeal to anyone with a complicated relationship to family, culture,

and growing up.

Summary of Dear America - [Review Keypoints and Take-aways]

HarperCollins

This provocative, "critically important" memoir of working-class boyhood in rural Indiana offers a searing cultural analysis of toxic masculinity in American culture (NPR). As progressivism changes American society, and globalism shifts labor away from traditional manufacturing, the roles that have been prescribed to men since the Industrial Revolution have been rendered obsolete. Donald Trump's campaign successfully leveraged male resentment and entitlement, and now, with Trump as president and the rise of the #MeToo movement, it's clear that our current definitions of masculinity are outdated and even dangerous. Deeply personal and thoroughly researched, the

author of *The People Are Going to Rise Like the Waters Upon Your Shore* has turned his keen eye to our current crisis of masculinity using his upbringing in rural Indiana to examine the personal and societal dangers of the patriarchy. *The Man They Wanted Me to Be* examines how we teach boys what's expected of men in America, and the long-term effects of that socialization—which include depression, shorter lives, misogyny, and suicide. Sexton turns his keen eye to the establishment of the racist patriarchal structure which has favored white men, and investigates the personal and societal dangers of such outdated definitions of manhood. “. . . exposes the true cost of toxic masculinity . . . and takes aim at the patriarchal structures in American society that continue to uphold an outdated ideal of manhood.” —Book Riot

A U.S. Army veteran and rising star in the conservative movement makes the case that the United States should look to the country as it was on September 12th, 2001 for lessons about our future. On the day after the World Trade Center was attacked, Americans came together

regardless of race, religion, or sexual orientation. We were united. On that day, nearly every store in the country sold out of American flags. After the events of the last eighteen months, from the Covid-19 pandemic to the constant attempts to divide us by race, Graham Allen believes that we should all look back on the events of 9/12 and remember what unites us. He believes that we do not all have to be the same, that it's okay not to agree on everything, but that we share a common history and a set of values. Just as the year 1776 serves as a reminder of our beginning, 9/12 will serve as a reminder of our present and future.

"Incredible and searing." --Nic Stone, #1 New York Times bestselling author of *Dear Martin* *The Hate U Give* meets *Just Mercy* in this unflinching yet uplifting first novel that explores the racist injustices in the American justice system. Every week, seventeen-year-old Tracy Beaumont writes letters to Innocence X, asking the organization to help her father, an innocent Black man on death row. After seven years, Tracy is running out of time--her dad has only 267 days left. Then the unthinkable happens. The police arrive in the night, and Tracy's older brother, Jamal, goes from being a bright, promising track star to a "thug" on the run, accused of killing a white girl. Determined to save her brother, Tracy investigates what really happened between Jamal and Angela down at the Pike. But will Tracy and her family survive the uncovering of the skeletons of their Texas town's racist history that still haunt the present? Fans of Nic Stone, Tiffany D. Jackson, and Jason Reynolds won't want to miss this provocative and gripping debut.

"This is not the republic of my imagination," Charles Dickens noted ruefully of his 1842 visit to the United States. His *American Notes* forms a stinging reproof of the country's embrace of slavery, its corrupt press and woeful sanitary conditions, and its citizens' offensive manners. Written with the author's customary observational powers and incisive wit, this volume offers a fascinating glimpse of 19th-century

America. Dickens was not entirely hostile toward his hosts, and as a dedicated social reformer he took particular interest in whether American democracy constituted an advance over the class divisions of Victorian England. The author toured jails, hospitals, and courts of law, which he praised heartily. Traveling by steamship, coach, and rail, he visited New York, Philadelphia, Boston, and Washington, D. C., among other cities, and his utter astonishment at the natural grandeur of Niagara Falls marks a highlight of his travelogue. This trenchant satire of America and Americans is certain to delight both Dickens enthusiasts and history buffs.

W. E. B. Du Bois was a public intellectual, sociologist, and activist on behalf of the African American community. He profoundly shaped black political culture in the United States through his founding role in the NAACP, as well as internationally through the Pan-African movement. Du Bois's sociological and historical research on African-American communities and culture broke ground in many areas, including the history of the post-Civil War Reconstruction period. Du Bois was also a prolific author of novels, autobiographical accounts, innumerable editorials and journalistic pieces, and several works of history. *Black Reconstruction in America* tells and interprets the story of the twenty years of Reconstruction from the point of view of newly liberated African Americans. Though lambasted by critics at the time of its publication in 1935, *Black Reconstruction* has only grown in historical and literary importance. In the 1960s it joined the canon of the most influential revisionist historical works. Its greatest achievement is weaving a credible, lyrical historical narrative of the hostile and politically fraught years of 1860-1880 with a powerful critical analysis of the harmful effects of democracy, including Jim Crow laws and other injustices. With a series introduction by editor Henry Louis Gates, Jr., and an introduction by David Levering Lewis, this edition is essential for anyone interested in African American history.

Ilhan Omar's career is a collection of historic firsts: she is the first refugee, the first Somali-American and one of the first two Muslim women to serve in the United States Congress. Against a xenophobic and divisive administration, she has risen to global fame as a powerful voice in the Democratic Party's new progressive chorus of congresswomen of colour. 'This Is What America Looks Like' is a tale of the aspirations, disappointments, successes and surprises in the life of an immigrant and Muslim in the US today. This is Omar's story told on her own terms: from a childhood in Mogadishu and four long years at a Kenyan refugee camp, to her arrival in America--penniless and speaking only Somali--and her triumphant election to the US House of Representatives. In the face of merciless slander and constant attacks from opponents in both parties, Omar continues to speak up for her beliefs. Courageous, hopeful and defiant, her memoir is marked by her irrepressible spirit, even in the darkest of times.

From National Book Award-winning author Judy Blundell, a thrilling account of the San Francisco Earthquake of 1906. When Minnie Bonner's father disappears after losing the Bonners' Philadelphia tavern, the wealthy gentleman Edward Sump, led by his avaricious wife, offers Minnie a chance to work as a lady's maid to support her family. But when a powerful earthquake strikes, Minnie finds herself the sole survivor among them. After the dust settles, Minnie discovers a bag belonging to the Sumps filled with cash and papers that could drastically change her fortune. Dear America Farrar, Straus and Giroux America is at a crossroads. Conflicting political and social perspectives reflect a need to collectively define our moral imperatives, clarify cultural values, and inspire meaningful change. In that patriotic spirit, hundreds of writers, artists, scientists, and political and community leaders have come together since the 2016 presidential election to offer their impassioned letters to America, in a project envisioned by the online journal Terrain.org and collected in *Dear America: Letters of Hope, Habitat, Defiance, and Democracy*. In the inaugural piece in Terrain.org's Letters to America series, Alison Hawthorne Deming writes, "Think of the great spirit of inventiveness the Earth calls forth after each major disturbance it suffers. Be artful, inventive, and just, my

friends, but do not be silent." Joining Deming are renowned artists and thinkers including Seth Abramson, Jericho Brown, Francisco Cantú, Katrina Goldsaito, Kimiko Hahn, Jane Hirshfield, Pam Houston, Christopher Merrill, Kathryn Miles, Kathleen Dean Moore, Aimee Nezhukumatathil, Naomi Shihab Nye, Elena Passarello, Dean Rader, Gary Soto, Pete Souza, Scott Warren, Debbie Weingarten, Scott Russell Sanders, Camille T. Dungy, Ellen Bass, Victoria Chang, Tarfia Faizullah, Blas Falconer, David Gessner, Brenda Hillman, Linda Hogan, Robin Wall Kimmerer, Karen An-hwei Lee, Lauret Savoy, Sandra Steingraber, Kim Stafford, Arthur Sze, Christian Wiman, Robert Wrigley, Attorney General Bob Ferguson, Kurt Caswell and others. *Dear America* reflects the evolution of a moral panic that has emerged in the nation. More importantly, it is a timely congress of the personal and the political, a clarion call to find common ground and conflict resolution, all with a particular focus on the environment, social justice, and climate change. The diverse collection features personal essays, narrative journalism, poetry, and visual art from more than 130 contributors--many pieces never before published--all literary reactions to the times we live in, with a focus on civic action and social change as we approach future elections. As Scott Minar writes, we must remain steadfast and look to the future: "Despair can bring us very low, or it can make us smarter and stronger than we have ever been before."
