Snapsy the Alligator (Did Not Ask to Be in This Book) Stories in a New Skin

Is there anything more splendid than a baby's skin? For families of all stripes comes a sweet celebration of what makes us unique—and what holds us together. Look at you! You look so cute in your brand-new birthday suit. Just savor these bouquets of babies—cocoa-brown, cinnamon, peaches and cream.

As they grow, their clever skin does too, enjoying hugs and tickles, protecting them inside and out, and making them one of a kind. Fran Manushkin's rollicking text and Lauren Tobia's delicious illustrations paint a breezy and irresistible picture of the human family—and how wonderful it is to be just who you are.

[Tiny Love Stories](#) Harper Collins

On bookshelves around the world, surrounded by ordinary books bound in paper and leather, rest other volumes of a distinctly strange and grisly sort: those bound in human skin. Would you know

one if you held it in your hand? In *Dark Archives*, Megan Rosenbloom seeks out the historic and scientific truths behind anthropodermic bibliopegy—the practice of binding books in this most intimate covering. Dozens of such books live on in the world’s most famous libraries and museums. *Dark Archives* exhumes their origins and brings to life the doctors, murderers, and indigents whose lives are sewn together in this disquieting collection. Along the way, Rosenbloom tells the story of how her team of scientists, curators, and librarians test rumored anthropodermic books, untangling the myths around their creation and reckoning with the ethics of their custodianship. A librarian and journalist, Rosenbloom is a member of The Order of the Good Death and a

cofounder of their Death Salon, a community that encourages conversations, scholarship, and art about mortality and mourning. In *Dark Archives*—captivating and macabre in all the right ways—she has crafted a narrative that is equal parts detective work, academic intrigue, history, and medical curiosity: a book as rare and thrilling as its subject.

The Skin We're In Penguin

An book for children about the evolution of skin colour.

The Secret Gratitude Book Church Publishing, Inc.

NATIONAL BESTSELLER WINNER OF THE 2020 TORONTO BOOK AWARD A bracing, provocative, and perspective-shifting book from one of Canada's most celebrated and uncompromising writers,

Desmond Cole. *The Skin We're In* will spark a national conversation, influence policy, and inspire activists. In his 2015 cover story for *Toronto Life* magazine, Desmond Cole exposed the racist actions of the Toronto police force, detailing the dozens of times he had been stopped and interrogated under the controversial practice of carding. The story quickly came to national prominence, shaking the country to its core and catapulting its author into the public sphere. Cole used his newfound profile to draw insistent, unyielding attention to the injustices faced by Black Canadians on a daily basis. Both Cole's activism and journalism find vibrant expression in his first book, *The Skin We're In*. Puncturing the bubble of Canadian smugness and naive

assumptions of a post-racial nation, Cole chronicles just one year—2017—in the struggle against racism in this country. It was a year that saw calls for tighter borders when Black refugees braved frigid temperatures to cross into Manitoba from the States, Indigenous land and water protectors resisting the celebration of Canada's 150th birthday, police across the country rallying around an officer accused of murder, and more. The year also witnessed the profound personal and professional ramifications of Desmond Cole's unwavering determination to combat injustice. In April, Cole disrupted a Toronto police board meeting by calling for the destruction of all data collected through carding. Following the protest, Cole, a columnist with the *Toronto Star*, was

summoned to a meeting with the paper's opinions editor and informed that his activism violated company policy. Rather than limit his efforts defending Black lives, Cole chose to sever his relationship with the publication. Then in July, at another police board meeting, Cole challenged the board to respond to accusations of a police cover-up in the brutal beating of Dafonte Miller by an off-duty police officer and his brother. When Cole refused to leave the meeting until the question was publicly addressed, he was arrested. The image of Cole walking out of the meeting, handcuffed and flanked by officers, fortified the distrust between the city's Black community and its police force. Month-by-month, Cole creates a comprehensive picture of entrenched,

systemic inequality. Urgent, controversial, and unsparingly honest, *The Skin We're In* is destined to become a vital text for anti-racist and social justice movements in Canada, as well as a potent antidote to the all-too-present complacency of many white Canadians.

Seeing My Skin Little, Brown Books for Young Readers

Thirteen tales are unspun from the deeply familiar, and woven anew into a collection of fairy tales that wind back through time. Acclaimed Irish author Emma Donoghue reveals heroines young and old in unexpected alliances--sometimes treacherous, sometimes erotic, but always courageous. Told with luminous voices that shimmer with sensuality and truth, these age-old characters shed their antiquated cloaks

to travel a seductive new landscape, radiantly transformed. Cinderella forsakes the handsome prince and runs off with the fairy godmother; Beauty discovers the Beast behind the mask is not so very different from the face she sees in the mirror; Snow White is awakened from slumber by the bittersweet fruit of an unnamed desire. Acclaimed writer Emma Donoghue spins new tales out of old in a magical web of thirteen interconnected stories about power and transformation and choosing one's own path in the world. In these fairy tales, women young and old tell their own stories of love and hate, honor and revenge, passion and deception. Using the intricate patterns and oral rhythms of traditional fairy tales, Emma Donoghue wraps age-old characters in a

dazzling new skin. 2000 List of Popular Paperbacks for YA

Imagination Like Mine Simon and Schuster

This “seriously entertaining book” explores the skin in its multifaceted physical, psychological, and social aspects (Times, UK). Providing a cover for our delicate bodies, the skin is our largest and fastest-growing organ. We see it, touch it, and live in it every day. It is a habitat for a mesmerizingly complex world of micro-organisms and physical functions that are vital to our health and survival. One of the first things people see about us, skin is also crucial to our sense of identity. And yet much about it is largely unknown to us. With rigorous research and lucid prose, Monty Lyman explores our outer surface through the

lenses of science, sociology, and history. He covers topics as diverse as the mechanics and magic of touch (how much goes on in the simple act of taking keys out of a pocket and unlocking a door is astounding), the close connection between the skin and the gut, what happens instantly when one gets a paper cut, and how a midnight snack can lead to sunburn. *The Remarkable Life of the Skin* takes readers on a journey across our most underrated and unexplored organ. It reveals how our skin is far stranger, more wondrous, and more complex than we have ever imagined.

Skin We are in Candlewick

A personal journey of a priest's understanding of his Whiteness widens into an invitation to wrestle with larger cultural issues of race and belonging. With humor, and a sharp, easily-readable style, Peter Jarrett-Schell delves deeply into how Whiteness has shaped his life. By telling his story, he challenges readers to personally consider the role of race in their own lives. In recent years, white institutions, congregations, and individuals have all begun to wrestle with their racial legacy. But these reflections often get lost abstracting ideas of "white privilege," "white fragility," "structural racism," and the like, until they become nothing more

than jargon. This book challenges its readers to look closely at how these concepts show up in their everyday lives. By examining how Whiteness has distorted his own perceptions, relationships, and sense of self, Jarrett-Schell argues for the personal stakes that white people have in dismantling racism, and offers the creative possibilities that emerge when we begin to do the work.

In Our Skin Titan Books

It is the ultimate quest for the ultimate treasure. Chasing a map tattooed on human skin. Across an omniverse of intersecting realities. To unravel the future of the future. Kit Livingstone's great-grandfather appears to him in a deserted alley during a tumultuous storm. He reveals an unbelievable story:

that the ley lines throughout Britain are not merely the stuff of legend or the weekend hobby of deluded cranks, but pathways to other worlds. To those who know how to use them, they grant the ability to travel the multi-layered universe of which we ordinarily inhabit only a tiny part. One explorer knew more than most. Braving every danger, he toured both time and space on voyages of heroic discovery. Ever on his guard and fearful of becoming lost in the cosmos, he developed an intricate code—a roadmap of symbols—that he tattooed onto his own body. This Skin Map has since been lost in time. Now the race is on to recover all the pieces and discover its secrets. But the Skin Map itself is not the ultimate goal. It is merely the beginning of a vast and marvelous

quest for a prize beyond imagining. The Bright Empires series—from acclaimed author Stephen R. Lawhead—is a unique blend of epic treasure hunt, ancient history, alternate realities, cutting-edge physics, philosophy, and mystery. The result is a page-turning, adventure like no other. “Anything but ordinary . . .

Dynamic settings are mixed with unpredictable adventures [and] parallel worlds.” —BookPage

Based on the research that race, gender, consent, and body positivity should be discussed with toddlers on up, this read-aloud board book series offers adults the opportunity to begin important conversations with young children in an informed, safe, and supported way. Developed by experts in the fields of early childhood and activism against injustice, this topic-driven board book offers clear, concrete language and beautiful imagery that young children can grasp and adults can leverage for

further discussion. While young children are avid observers and questioners of their world, adults often shut down or postpone conversations on complicated topics because it's hard to know where to begin. Research shows that talking about issues like race and gender from the age of two not only helps children understand what they see, but also increases self-awareness, self-esteem, and allows them to recognize and confront things that are unfair, like discrimination and prejudice. This first book in the series begins the conversation on race, with a supportive approach that considers both the child and the adult. Stunning art accompanies the simple and interactive text, and the backmatter offers additional resources and ideas for extending this discussion.
