The first volume of Viaggiatori "Curatele" series seeks to recreate some scientific dialogues, namely

meetings, exchanges and acquisition of theoretical and practical scientific knowledge, thus linking

the cultural, historical and geographical context of America, Asia, Europe and Mediterranean Sea

between the 16th and the 20th century. More specifically, the main objective is to consider the role

of travellers as passeurs, as "intermediaries" for building and allowing the circulation of knowhow

and the practical and theoretical knowledge from one continent to another.
