Ayurveda, the ancient art of healing, has been practiced in India for more than two thousand years and survives today as a living medical tradition

whose principles are at the heart of many "alternative" therapies now used in the West. This "science of longevity" has parallels with Buddhist thought, and advocates a life of moderation through which the three humors of the body will be brought into balance. The writings selected for this volume are taken from Sanskrit medical texts written by the first Ayurvedic physicians, who lived between the fifth century b.c. and the fourteenth century a.d. Here readers will find wide-ranging and fascinating advice on the benefits of garlic therapy, prayers for protection against malevolent disease deities, surgical techniques, exercise regimens, the treatment of poisons, the interpretation of dreams, and more. For more than seventy years, Penguin has been the leading publisher of classic literature in the English-speaking world. With more than 1,700 titles, Penguin Classics represents a global bookshelf of the best works throughout history and across genres and disciplines. Readers trust the series to provide authoritative texts enhanced by introductions and notes by distinguished scholars and contemporary authors, as well as up-to-date translations by award-winning translators.

From the anthropological point of view, eating means to ingest qualities, but also defects. Digestion is a double process, encompassing both assimilation and distribution through transformation. This book is based on the contributions of specialists in various fields of activity, including anthropology, medicine, cultural studies, archaeology, theatre, linguistics, who explore how we understand the cultural heritage of food, and how this defines the stratification of society. Providing insights into the compatibility and incompatibility of physical and cultural food, this book offers a higher level of understanding of the world in which we live.

Ayurveda is the only scripture or medical system in the world that guarantees to give a patient life to man. In all other medical practices, you will be treated first, but there is nothing guaranteed. Ayurveda is an eternal and continuum scripture. It is said to have originated through Shri Brahmagi, the creator of creation. Brahmagi gave the knowledge of Ayurveda to the master Prajapati. Shri Skilled Prajapati gave this knowledge to Ashwani Kumars. Then this knowledge came to Indra, the king of the gods. Devaraj Indra gave this knowledge to the sages and munites like Dattatreya, Purvasu, etc. After that this knowledge spread to the earth. There are many great sage and physicians who spread this knowledge on earth. Who have been coming from time to time and giving this knowledge to the people. Like Charak Rishi, Sushruth, Dattatreya Rishi, Revasu Rishi, Kashyap Rishi etc. In the same series, a great sage, Wagbhata Rishi, who created a scripture to convey the knowledge of Ayurveda to the people, called "Ashtanga Hridayam".

It was the time of the Cold War. After defeating Pakistan in the second biggest armed conflict since the Second World War, Indian Prime Minister Lal Bahadur Shastri arrived in Tashkent, former USSR, to sign a peace accord. After days of extended negotiations, the peace agreement was signed between India and Pakistan in the presence of Alexei Kosygin, the USSR Premier. Hours later, at 1.32 AM, Shastri died in his dacha. Abruptly. Mysteriously. Soon after, his official Russian butler and the Indian cook attached to the Indian ambassador were arrested by the Ninth Directorate of the KGB under the suspicion of poisoning Shastri. No post-mortem was done. No confession was achieved. There was no judicial enquiry ever. It's been 50 years since his death, and we still don't know the truth. Was it really a heart attack? Was he poisoned? Did the CIA kill him? Was it the KGB? Was it a state-sponsored murder? Vivek Ranjan Agnihotri along with his motley team of inexperienced assistants turned whistle-blowers investigate the mystery behind Shastri's death and find themselves in a mirror-world where all and everybody is suspect. But they cannot remain distant, for the painful story of India touches their own lives as they discover how the country was put up for sale.
