A landmark publication offering a definitive overview of one of the most influential transatlantic magazines produced in the 1980s and 1990s Launched by NME editor and Smash Hits creator Nick Logan in 1980, The Face became an icon of "style culture," the benchmark for the latest trends in art, design,

fashion, photography, film, and music being defined by a thriving youth culture. *The Story of The Face* tracks the exciting highs and calamitous lows of the life of the magazine in two parts. Part one focuses on the rise of the magazine in the 1980s, highlighting its striking visual identity—embodied by Neville Brody’s era-defining graphic designs, Nick Knight’s dramatic fashion photography, and the “Buffalo” styling of Ray Petr— and its unflinching approach to journalism. Contributors included a host of writers who subsequently made their impact in the wider world, from Julie Burchill, Robert Elms, Tony Parsons, and James Truman to Jon Savage, Richard Benson, and Sheryl Garratt. Part two shows how in the 1990s, after surviving a disastrous Jason Donovan libel suit, the magazine heralded the post-acid house era of Britpop and Brit Art. However, after the magazine had become the engine of the booming British magazine industry, the end of this decade also saw the eventual demise of *The Face*. Including an introduction by Dylan Jones, *The Story of The Face* is an engaging behind-the-scenes look at the rise and fall of one of the 80s and 90s’ most influential music and style publications.

Music therapy is recognised as being applicable to a wide range of healthcare and social contexts. Since the first edition of *Music Therapy: An art beyond words*, it has extended into areas of general medicine, mainstream education and community practice. This new edition revises the historical and theoretical perspectives and recognises the growing evidence and research base in contemporary music therapy. Leslie Bunt and Brynjulf Stige document the historical evolution of music therapy and place the practice within seven current perspectives: medical, behavioural, psychoanalytical, humanistic, transpersonal, culture-centred and music-centred. No single perspective, individual or group approach is privileged, although the focus on the use of sounds and music within therapeutic relationships remains central. Four chapters relate to areas of contemporary practice across different stages of the lifespan: child health, adolescent health, adult health and older adult health. All include case narratives and detailed examples underpinned by selected theoretical and research perspectives. The final two chapters of the book reflect on the evolution of the profession as a community resource and the emergence of music therapy as an academic discipline in its own right. A concise introduction to the current practice of music therapy around the world, *Music Therapy: An art beyond words* is an invaluable resource for professionals in music therapy and music education, those working in the psychological therapies, social work and other caring professions, and students at all levels.

A collection of interviews now available from New Directions for the first time *The words of a genius: Borges at Eighty* transcends our expectations of ordinary conversation. In these interviews with Barnstone, Dick Cavett, and Alastair Reid, Borges touches on favorite writers (Whitman, Poe, Emerson) and familiar themes — labyrinths, mystic experiences, and death — and always with great, throw-away humor. For example, discussing nightmares, he concludes, “When I wake up, I wake to something worse. It’s the astonishment of being myself.”

"*Cosima*" tells the story of an aspiring writer growing up in Nuoro, Sardinia during the last decades of the nineteenth century when formal education for women was rare and literary careers unheard-of. Based on Deledda's own life, the work describes a young woman's struggle against the dismay and disapproval of her family and friends at her creative ambitions. Yet it also reads like a charming fable with details of family life, rural traditions and wild bandits, and it is as much a novel of memory as of character or action. Deledda's characters are poor country folk driven by some predetermined force. Their loves are tragic, their lives as hard and as rigidly controlled as nature itself in the hills of Sardinia. Deledda creates memorable figures who play out their lives against this backdrop of mountains and bare plains, sheepfolds and vineyards. Shimmering in the distance is the sea and escape - for a few - to the Continent or America. In 1926 Grazia Deledda became the second woman and the second Italian to receive the Nobel Prize for Literature. She wrote thirty-three novels, including "Reeds in the Wind," and many books of short stories, almost all set on Sardinia. Her work has become well known to English-speaking readers through Martha King's translations for Italica Press.

"[A] superb study of Russian cultural memory makes all too clear, ghosts of the unburied dead affect literature, art, public life and mental health too." —*The Economist* After Stalin's death in 1953, the Soviet Union dismantled the enormous system of terror and torture that he had created. But there has never been any Russian ban on former party functionaries, nor any external authority to dispense justice. Memorials to the Soviet victims are inadequate, and their families have received no significant compensation. This book's premise is that late Soviet and post-Soviet culture, haunted by its past, has produced a unique set of memorial practices. More than twenty years after the collapse of the Soviet Union, Russia remains "the land of the unburied": the events of the mid-twentieth century are still very much alive, and still contentious. Alexander Etkind shows how post-Soviet Russia has turned the painful process of mastering the past into an important part of its political present. "Every page contains fresh, striking insights, not only in the intrinsic value of art itself, but more significantly in the process of mourning. . . . This brilliant book will be indispensable for scholars of mourning theories." —*Choice* "There is undoubtedly much that is new and exciting in this study of the impact of state violence on the form and content of art and scholarship in post-Stalin Russia." —*Russian Review* "A fascinating and haunting study of how successive Kremlin leaders and the intelligentsia have explained the Gulag and Stalin's crimes" —*Strategic Europe*

**Corporate Governance Strengthening Latin American Corporate Governance The Role of Institutional Investors**

Thomas Nelson

Primo Levi, author of *Survival in Auschwitz* and *The Periodic Table*, wrote books that have been called the essential works of humankind. Yet he lived an unremarkable existence, remaining until his death in the house in which he'd been born; managing a paint and varnish factory for thirty years; and tending his invalid mother to the last. Now, in a matchless account, Ian Thomson unravels the strands of a life as improbable as it was influential, the story of the most modest of men who became a universal touchstone of conscience and humanism. Drawing on exclusive access to family members and previously unseen correspondence, Thomson reconstructs the world of Levi's youth--the rhythms of Jewish life in Turin during the Mussolini years--as well as his experience in Auschwitz and difficult reintegration into postwar Italy. Thomson presents Levi in all his facets: his fondness for Louis Armstrong and fast cars, his insomnia and many near-catastrophic work accidents. Finally, he explores the controversy and isolation of Levi's later years, along with the increasing tensions in his life--between his private anguish and gift for friendship; his severe bouts of depression and passion for life and ideas; his pervasive dread and reasoned, pragmatic ethic. Praised in Britain as "the best sort of history" and "a model of its kind," *Primo Levi: A Life* is certain to take its place as the standard biography and a necessary companion to the works themselves.

*Celestial Bodies* is the International Booker-winning and internationally bestselling novel from Jokha Alharthi. Set in the village of al-Awafi in Oman, we encounter three sisters: Mayya, who marries Abdallah after a heartbreak; Asma, who marries from a sense of duty; and Khawla who rejects all offers while waiting for her beloved, who has emigrated to Canada. These three women and their families witness Oman evolve from a traditional, slave-owning society slowly redefining itself after the colonial era, to the crossroads of its complex present. Elegantly structured and taut, *Celestial Bodies* is a coiled spring of a novel, telling of Oman's coming-of-age through the prism of one family's losses and loves. PRAISE FOR CELESTIAL BODIES "An innovative reimagining of the family saga . . . *Celestial Bodies* is itself a treasure house: an intricately calibrated chaos of familial orbits and conjunctions, of the gravitational pull of secrets" NEW YORK TIMES BOOK REVIEW "The great pleasure of reading *Celestial Bodies* is witnessing a novel argue, through the achieved perfection of its form, for a kind of inquiry that only the novel can really conduct. The ability to move freely through time, the privileged access to the wounded privacies of many characters, the striking diversity of human beings across a relatively narrow canvas, the shock waves as one generation heaves, like tectonic plates, against another, the secrets and lapses and repressions, at once intimate and historical, the power, indeed, of an investigation that is always political and always intimate—here is the novel being supremely itself, proving itself up to the job by

changing not its terms of employment but the shape of the task." THE NEW YORKER "Breathtaking. The tale is replete with history, poetry, and philosophy, but also slavery, broken marriages, passion, and not-so-secret lovers." THE ATLAN

Is science beautiful? Yes, argues acclaimed philosopher and historian of science Robert P. Crease in this engaging exploration of history's most beautiful experiments. The result is an engrossing journey through nearly 2,500 years of scientific innovation. Along the way, we encounter glimpses into the personalities and creative thinking of some of the field's most interesting figures. We see the first measurement of the earth's circumference, accomplished in the third century B.C. by Eratosthenes using sticks, shadows, and simple geometry. We visit Foucault's mesmerizing pendulum, a cannonball suspended from the dome of the Panthéon in Paris that allows us to see the rotation of the earth on its axis. We meet Galileo—the only scientist with two experiments in the top ten—brilliantly drawing on his musical training to measure the speed of falling bodies. And we travel to the quantum world, in the most beautiful experiment of all. We also learn why these ten experiments exert such a powerful hold on our imaginations. From the ancient world to cutting-edge physics, these ten exhilarating moments reveal something fundamental about the world, pulling us out of confusion and revealing nature's elegance. *The Prism and the Pendulum* brings us face-to-face with the wonder of science.

#### Obsolete Objects in the Literary Imagination Wildstorm

Translated here into English for the first time is a monumental work of literary history and criticism comparable in scope and achievement to Eric Auerbach's *Mimesis*. Italian critic Francesco Orlando explores Western literature's obsession with outmoded and nonfunctional objects (ruins, obsolete machinery, broken things, trash, etc.). Combining the insights of psychoanalysis and literary-political history, Orlando traces this obsession to a turning point in history, at the end of eighteenth-century industrialization, when the functional becomes the dominant value of Western culture. Roaming through every genre and much of the history of Western literature, the author identifies distinct categories into which obsolete images can be classified and provides myriad examples. The function of literature, he concludes, is to remind us of what we have lost and what we are losing as we rush toward the future.
