Drug overdose, driven largely by overdose related to the use of opioids, is now the leading cause of unintentional injury death in the United States. The ongoing opioid crisis lies at the intersection of two public

health challenges: reducing the burden of suffering from pain and containing the rising toll of the harms that can arise from the use of opioid medications. Chronic pain and opioid use disorder both represent complex human conditions affecting millions of Americans and causing untold disability and loss of function. In the context of the growing opioid problem, the U.S. Food and Drug Administration (FDA) launched an Opioids Action Plan in early 2016. As part of this plan, the FDA asked the National Academies of Sciences, Engineering, and Medicine to convene a committee to update the state of the science on pain research, care, and education and to identify actions the FDA and others can take to respond to the opioid epidemic, with a particular focus on informing FDA's development of a formal method for incorporating individual and societal considerations into its risk-benefit framework for opioid approval and monitoring.

Dance and Gender Delmar Pub

Driven by exacting methods and hard data, this volume reveals gender dynamics within the dance world in the twenty-first century. It provides concrete evidence about how gender impacts the daily lives of dancers, choreographers, directors, educators, and students through surveys, interviews, analyses of data from institutional sources, and action research studies. Dancers, dance artists, and dance scholars from the United States, Australia, and Canada discuss equity in three areas: concert dance, the studio, and higher education. The chapters provide evidence of bias, stereotyping, and other behaviors that are often invisible to those involved, as well as to audiences. The contributors answer incisive questions about the role of gender in various aspects of the field,

including physical expression and body image, classroom experiences and pedagogy, and performance and funding opportunities. The findings reveal how inequitable practices combined with societal pressures can create environments that hinder health, happiness, and success. At the same time, they highlight the individuals working to eliminate discrimination and open up new possibilities for expression and achievement in studios, choreography, performance venues, and institutions of higher education. The dance community can strive to eliminate discrimination, but first it must understand the status quo for gender in the dance world. Wendy Oliver, professor of dance at Providence College, is coeditor of *Jazz Dance: A History of the Roots and Branches*. Doug Risner, professor of dance at Wayne State University, is coeditor of *Hybrid Lives of Teaching Artists in Dance and Theatre Arts: A Critical Reader*. Jason Royals wouldn't miss church for love or money. Now love and money? That was a different story. He downplayed the "love" part when he asked his mother's permission to meet a friend with the inside track on a summer job. But it was a budding romance that put pep in his step on his way to Wellstein's Pharmacy one bright spring morning. Young, smart and ambitious, Jason had every advantage in life but one. It was that one that made all the difference. Sprinting to beat a traffic light, he caught the attention of a police officer en route to a nearby murder scene. Running while Black and wearing tan pants, Jason fit the description. Told, in part, from the perspective of veteran homicide detective John Marshall, *Seen* is the story of two men struggling to define their lives in a world all too eager to write their roles.

A compassionate, shame-free guide for your darkest days "A one-of-a-kind book . . . to read for yourself or give to a struggling friend or loved one without the fear that depression and suicidal thoughts will be

minimized, medicalized or over-spiritualized.”—Kay Warren, cofounder of Saddleback Church What happens when loving Jesus doesn’t cure you of depression, anxiety, or suicidal thoughts? You might be crushed by shame over your mental illness, only to be told by well-meaning Christians to “choose joy” and “pray more.” So you beg God to take away the pain, but nothing eases the ache inside. As darkness lingers and color drains from your world, you’re left wondering if God has abandoned you. You just want a way out. But there’s hope. In *I Love Jesus, But I Want to Die*, Sarah J. Robinson offers a healthy, practical, and shame-free guide for Christians struggling with mental illness. With unflinching honesty, Sarah shares her story of battling depression and fighting to stay alive despite toxic theology that made her afraid to seek help outside the church. Pairing her own story with scriptural insights, mental health research, and simple practices, Sarah helps you reconnect with the God who is present in our deepest anguish and discover that you are worth everything it takes to get better. Beautifully written and full of hard-won

wisdom, *I Love Jesus, But I Want to Die* offers a path toward a rich, hope-filled life in Christ, even when healing doesn’t look like what you expect.
