Buku yang saat ini sedang Anda baca adalah buku yang lengkap dengan tutorial mengajar di perguruan tinggi, khususnya, mata kuliah ilmu-ilmu sosial dan keagamaan. Buku ini berisi tentang strategi/metode mengajar dosen di perguruan tinggi, khususnya di era millennial seperti sekarang ini. Sebagaimana diketahui bahwa di era millennial, kecenderungan mahasiswa sudah berubah, dan jauh berbeda dengan era sebelumnya. Generasi millennial, sarat dengan kecepatan dan kemudahan memperoleh informasi yang didukung oleh teknologi yang memudahkan mereka dalam pembelajaran. Tidak heran, jika banyak mahasiswa yang sudah lebih dulu memperoleh dan memahami suatu persoalan tertentu yang akan dibahas dalam perkuliahan, sementara dosennya masih berkuat di area pencarian buku-buku klasik yang pernah dimiliki. Akibatnya, dosen justru tertinggal jauh dari mahasiswanya. Meskipun ada juga dosen yang kreatif dan lebih canggih, akan tetapi akibat keterbatasan waktu dan tenaga untuk memperoleh itu semua, tak jarang dosen

mengalami kesulitan. Itulah sebabnya, dosen dituntut untuk banyak berinovasi dalam strategi pembelajaran. Buku ini pun ditulis dalam rangka menjawab berbagai pertanyaan dari rekan-rekan dosen tentang bagaimana sebenarnya perkuliahan yang selama ini penulis terapkan. Banyak yang merasa heran dengan tingkat pemahaman mahasiswa terhadap mata kuliah yang penulis ampu selama ini. Banyak juga yang bertanya tentang perubahan sikap mahasiswa kepada penulis, yang terlihat begitu akrab, seperti adanya ikatan batin yang luar biasa antara dosen dan mahasiswa. Ada juga yang bertanya-tanya tentang tugas yang diberikan kepada mahasiswa, sehingga mereka begitu aktif di perpustakaan, membaca buku dan berdiskusi antara sesama mahasiswa. Mereka ingin sekali merasakan bagaimana menjadi dosen yang senantiasa dicari, dihormati, disayang dan dibanggakan oleh para mahasiswa.

A Guide to Psychological Debriefing IAIN Pontianak Press

This is an open access book. The COVID-19 pandemic in the last two years has influenced how educational system works. Online learning became the primal policy taken by all institutions in the world to lower the risk of the virus spread. Despite the drawbacks of the online learning, teachers and students were accustomed with the distant learning through web meetings, Learning Management Systems (LMS) and other online learning platforms. In that time, topics under digital learning and education 5.0 were the main stakes in academic disseminations. This year some institutions start to conduct their teaching and learning process classically as before the pandemic, others are still continuing online and not few are in hybrid. This leaves a question: what learning reform should be made in post-pandemic era? This conference invites researchers, experts, teachers and students to discuss the coping solutions of the question. It is important for them to contribute to the understanding of re-imagining online education for better futures, innovative learning design, new skills for living and working in new times, global challenge of education, learning and teaching with blended learning, flipped learning, integrating life skills for students in the curriculum, developing educators for the future distance learning, humanities learning in the digital era, assessment and measurement in education, challenges and transformations in education, technology in teaching and learning, new learning and teaching models. Not limited to these, scholars may add another interesting topic related to learning reform in post-pandemic era to present.

Frequently, people suffering trauma cannot get past the experience and develop Post-Traumatic Stress Disorder (PTSD). Psychological debriefing (PD) is a process commonly used to prevent an individual from developing PTSD, allowing them to re-examine the event in a safe and controlled environment. This book offers a practical introduction to PTSD and psychological debriefing, and outlines an enhanced model of PD: 'Emotional Decompression'. Structured like a deep-sea dive, it incorporates carefully planned safety stops for discussion and explanation on the way back to the 'surface' to avoid getting 'the bends'. The book presents a range of recovery models, from the 'simple' models developed by Williams and Horowitz to the more complex 'Snakes and Ladders' model developed by the author. *A Guide to Psychological Debriefing* is a book for health practitioners, counsellors, psychologists and professionals working with clients suffering from PTSD, as well as students.
