Today's savvy e-commerce business

owner knows how to compete. In years

past a business, shopped for the products

they wanted to resell. They then

purchased the items and stored them

while they searched for an end user or

consumer. Once the product was sold,

they shipped the item to their customer

and hopefully made a profit. This method

is costly. Besides the price of the item, the

seller pays shipping from the

manufacturer (or distributor) to his

location. He then stores the item, taking

up resources and space until he resells the

merchandise. He invests time and effort

into marketing the item and either he or

the end user pays shipping (again) to their

location. All of these steps have to be

factored into the price of the item to the

end user. The customer will decide if the

end price of the item is a bargain and is

competitive. As the shipper, if the item is

lost or damaged in shipping the expense

of filing tracking and claims falls on him as

well. Drop Shipping is a proven way of

reducing or eliminating many of these

expenses, thus making the end price lower for the consumer and more profitable for the seller. With drop shipping, a seller or retailer does not purchase the item and store it for resell, but rather sells the merchandise and ships it directly from the manufacturer to the consumer. The seller does not have to store the item or pay shipping from the manufacture to his location. He does not have to handle the item himself. This reduces chance of loss or damage and speeds up the process considerably! He needs less start-up money (storage rental can be very costly and a product on hand that moves slower than anticipated can create a cash flow problem right out of the gate) and can invest more time and money on his sales. He also does not have to reship the item and there is only one shipping expense to absorb, lowering the price of the item and making it of more value and profit for all concerned. If there is loss or damage in shipping, it falls on the manufacturer (or distributor) to provide the documents and file any claims with the shipping company involved. Okay, so all of this sounds great, right? But how do you get started? This eBook will teach you how! So, let's get

started!
