Black Greek 101
analyzes the customs,
culture, and challenges
facing historically Black
fraternal organizations.
The text provides a
history of Black Greek

organizations beyond
the nine major
organizations,
examining the pledging
practice, the growth of
fraternalism outside of
the mainstream
organizations, the vivid
culture and practices of
the groups, and
challenges for the
future.
Wrongs of Passage
Macmillan
New diversity style
guide helps journalists

write with authority and accuracy about a complex, multicultural world. A companion to the online resource of the same name, *The Diversity Style Guide* raises the consciousness of journalists who strive to be accurate. Based on studies, news reports and style guides, as well as interviews with more than 50 journalists and experts, it offers the best, most up-to-date advice on writing about underrepresented and often misrepresented groups. Addressing such thorny questions as whether the words *Black* and *White* should be capitalized when referring to race and which pronouns to use for people who don't identify as male or female, the book helps readers navigate the

minefield of names, terms, labels and colloquialisms that come with living in a diverse society. *The Diversity Style Guide* comes in two parts. Part One offers enlightening chapters on *Why is Diversity So Important*; *Implicit Bias*; *Black Americans*; *Native People*; *Hispanics and Latinos*; *Asian Americans and Pacific Islanders*; *Arab Americans and Muslim Americans*; *Immigrants and Immigration*; *Gender Identity and Sexual Orientation*; *People with Disabilities*; *Gender Equality in the News Media*; *Mental Illness, Substance Abuse and Suicide*; and *Diversity and Inclusion in a Changing Industry*. Part Two includes *Diversity and Inclusion Activities* and an *A-Z Guide* with

more than 500 terms. This guide: Helps journalists, journalism students, and other media writers better understand the context behind hot-button words so they can report with confidence and sensitivity. Explores the subtle and not-so-subtle ways that certain words can alienate a source or infuriate a reader. Provides writers with an understanding that diversity in journalism is about accuracy and truth, not "political correctness." Brings together guidance from more than 20 organizations and style guides into a single handy reference book. The Diversity Style Guide is first and foremost a guide for journalists, but it is also an important resource for journalism

and writing instructors, as well as other media professionals. In addition, it will appeal to those in other fields looking to make informed choices in their word usage and their personal interactions.

American Nerd
Rowman & Littlefield
"The American Fraternity is a photobook that provides an intimate and provocative look at Greek culture on college campuses by combining contemporary photographs with scanned pages from a wax-stained 60 year old ritual manual. This book will shed new light on the peculiarities of the fraternal orders which count seventy-five percent of modern U.S. presidents, senators,

justices, and executives among their members. These mysterious campus organizations are filled with arcane oaths and ceremonies and this book attempts to capture within its pages some of this dark power"--
 Publisher's website, January 23, 2019.

The Shield Yale University Press
 The Book of Lies was written by English occultist and teacher Aleister Crowley under the pen name of Frater Perdurabo. As Crowley describes it: "This book deals with many matters on all planes of the very highest importance. It is an official publication for Babes of the Abyss, but is recommended even to beginners as highly suggestive." The book consists of 91

chapters, each of which consists of one page of text. The chapters include a question mark, poems, rituals, instructions, and obscure allusions and cryptograms. The subject of each chapter is generally determined by its number and its corresponding Qabalistic meaning.

The Sigma Chi Quarterly Simon and Schuster

Put simply, it's time for a national update on college fraternities. Greek life today makes Animal House look like a Pixar movie. The amount of alcohol that is being consumed, promiscuous sex that is being enjoyed, and intense drug-induced raging that is taking place on campuses across the country has quietly reached

ridiculous new heights. Written with the goal of being the most fun you've ever had reading a book, Total Frat Move pulls back the curtain on this world of hard-partying American decadence. The stories are unabashed. They are hilarious. And they are going to blow you away. You're welcome, world.

Emblems of Mortality Hal Leonard Corporation

The only current authorized edition of the classic work on parliamentary procedure--now in a new updated edition Robert's Rules of Order is the recognized guide to smooth, orderly, and fairly conducted meetings. This 12th edition is the only current manual to have been maintained and

updated since 1876 under the continuing program established by General Henry M. Robert himself. As indispensable now as the original edition was more than a century ago, Robert's Rules of Order Newly Revised is the acknowledged "gold standard" for meeting rules. New and enhanced features of this edition include: Section-based paragraph numbering to facilitate cross-references and e-book compatibility Expanded appendix of charts, tables, and lists Helpful summary explanations about postponing a motion, reconsidering a vote, making and enforcing points of order and appeals, and newly expanded procedures for filling blanks New provisions regarding debate on

nominations, reopening nominations, and completing an election after its scheduled time Dozens more clarifications, additions, and refinements to improve the presentation of existing rules, incorporate new interpretations, and address common inquiries Coinciding with publication of the 12th edition, the authors of this manual have once again published an updated (3rd) edition of Robert's Rules of Order Newly Revised In Brief, a simple and concise introductory guide cross-referenced to it.

In the Company of Educated Women

PublicAffairs
Examination of the ritual of hazing practiced by college students, high school

clubs, and adult organizations and societies.

The Delta Sig Indiana University Press

The New York Times bestseller by the acclaimed, bestselling author of Start With Why and Together is Better. Now with an expanded chapter and appendix on leading millennials, based on Simon Sinek's viral video "Millenials in the workplace" (150+ million views). Imagine a world where almost everyone wakes up inspired to go to work, feels trusted and valued during the day, then returns home feeling fulfilled. This is not a crazy, idealized notion. Today, in many successful organizations, great leaders create environments in which people naturally work

together to do remarkable things. In his work with organizations around the world, Simon Sinek noticed that some teams trust each other so deeply that they would literally put their lives on the line for each other. Other teams, no matter what incentives are offered, are doomed to infighting, fragmentation and failure. Why? The answer became clear during a conversation with a Marine Corps general. "Officers eat last," he said. Sinek watched as the most junior Marines ate first while the most senior Marines took their place at the back of the line. What's symbolic in the chow hall is deadly serious on the battlefield: Great leaders sacrifice

their own comfort-- even their own survival--for the good of those in their care. Too many workplaces are driven by cynicism, paranoia, and self-interest. But the best ones foster trust and cooperation because their leaders build what Sinek calls a "Circle of Safety" that separates the security inside the team from the challenges outside. Sinek illustrates his ideas with fascinating true stories that range from the military to big business, from government to investment banking. Alpha Xi Delta John Wiley & Sons The rich history and social significance of the "Divine Nine" African American Greek-letter organizations is explored in this

comprehensive anthology. In the long tradition of African American benevolent and secret societies, intercollegiate African American fraternities and sororities have strong traditions of fostering brotherhood and sisterhood among their members, exerting considerable influence in the African American community and being in the forefront of civic action, community service, and philanthropy. Dr. Martin Luther King, Jr., Toni Morrison, Arthur Ashe, and Sarah Vaughn are just a few of the trailblazing members of these organizations. *African American Fraternities and Sororities* places the history of these organizations in context, linking them

to other movements and organizations that predated them and tying their history to the Civil Rights movement. It explores various cultural aspects of the organizations, such as auxiliary groups, branding, calls, and stepping, and highlights the unique role of African American sororities. *Black Greek 101* Indiana University Press
Traces the history of the struggle of women to achieve equality in American colleges from Colonial times to the present
Total Frat Move Good Press
An account of a Dartmouth student's experiences pledging Sigma Alpha Epsilon and how his promising college life soon

became a dangerous cycle of binge drinking and public humiliation. Delta Chi Quarterly Back Bay Books National Book Award Finalist: “This man’s ideas may be the most influential, not to say controversial, of the second half of the twentieth century.”—Columbus Dispatch At the heart of this classic, seminal book is Julian Jaynes's still-controversial thesis that human consciousness did not begin far back in animal evolution but instead is a learned process that came about only three thousand years ago and is still developing. The implications of this revolutionary scientific paradigm extend into virtually every aspect of our psychology, our history and culture, our

religion—and indeed our future. “Don’t be put off by the academic title of Julian Jaynes’s *The Origin of Consciousness in the Breakdown of the Bicameral Mind*. Its prose is always lucid and often lyrical...he unfolds his case with the utmost intellectual rigor.”—The New York Times “When Julian Jaynes . . . speculates that until late in the twentieth millennium BC men had no consciousness but were automatically obeying the voices of the gods, we are astounded but compelled to follow this remarkable thesis.”—John Updike, *The New Yorker* “He is as startling as Freud was in *The Interpretation of Dreams*, and Jaynes is equally as adept at

forcing a new view of known human behavior.”—American Journal of Psychiatry
Hazing Penguin
 The creator of Animal House at last tells the real story of the fraternity that inspired the iconic film -- a story far more outrageous and funny than any movie could ever capture.

Alpha Kappa Psi Diary
 BRILL

Most people know a nerd when they see one but can't define just what a nerd is. American Nerd: The Story of My People gives us the history of the concept of nerdiness and of the subcultures we consider nerdy. What makes Dr. Frankenstein the archetypal nerd? Where did the modern jock come from? When

and how did being a self-described nerd become trendy? As the nerd emerged, vaguely formed, in the nineteenth century, and popped up again and again in college humor journals and sketch comedy, our culture obsessed over the designation. Mixing research and reportage with autobiography, critically acclaimed writer Benjamin Nugent embarks on a fact-finding mission of the most entertaining variety. He seeks the best definition of nerd and illuminates the common ground between nerd subcultures that might seem unrelated: high-school debate team kids and ham radio enthusiasts, medieval reenactors and pro-circuit Halo players. Why do the same

people who like to work with computers also enjoy playing Dungeons & Dragons? How are those activities similar? This clever, enlightening book will appeal to the nerd (and antinerd) that lives inside all of us.

Baird's Manual of American College Fraternities Houghton Mifflin Harcourt
 Alexandra Robbins wanted to find out if the stereotypes about sorority girls were actually true, so she spent a year with a group of girls in a typical sorority. The sordid behavior of sorority girls exceeded her worst expectations -- drugs, psychological abuse, extreme promiscuity, racism, violence, and rampant eating disorders are just a few of the

problems. But even more surprising was the fact that these abuses were inflicted and endured by intelligent, successful, and attractive women. Why is the desire to belong to a sorority so powerful that women are willing to engage in this type of behavior -- especially when the women involved are supposed to be considered 'sisters'? What definition of sisterhood do many women embrace? Pledged combines a sharp-eyed narrative with extensive reporting and the fly-on-the-wall voyeurism of reality shows to provide the answer. The Shield Hachette Books
 Explores the problems of hazing and binge drinking at fraternities and sororities on

American college campuses, telling the stories of some of the young people who have been seriously injured or died as a result of such behaviors; and offers a list of recommendations for reform.

The Eleusis of Chi

Omega Hachette UK

When does becoming part of the team go too far? For decades, young men and women endured degrading and dangerous rituals in order to join sororities and fraternities while college administrators blindly accepted their consequences. In recent years, these practices have spilled over into the mainstream, polluting military organizations, sports teams, and even secondary schools. In *Destroying Young*

Lives: Hazing in Schools and the Military, Hank Nuwer assembles an extraordinary cast of analysts to catalog the evolution of this dangerous practice, from the first hazing death at Cornell University in 1863 to present day tragedies. This hard-hitting compilation addresses the numerous, significant, and often overlooked impacts of hazing, including including sexual exploitation, mental distress, depression, and even suicide. *Destroying Young Lives* is a compelling look at how universities, the military, and other social groups can learn from past mistakes and protect their members going forward.

Medi-Cal

In *Wishful Thinking*,

Frederick Buechner puts the language of God, the Universe and the human spirit under his wry linguistic microscope. In his open ironic reflections on such terms as envy, love and sin, he invites us to look at these words in new and enlightening ways. *Konx Om Pax* The Fantasticks tells an age-old tale. Its

ingredients are simple: a boy, a girl, two fathers, and a wall. Its scenery, a tattered cardboard moon, hovers over an empty wooden platform. With these bare essentials, Jones and Schmidt launched a theatrical phenomenon unmatched the world over. *The American Fraternity*
