 A page-turning novel that is also an exploration of the great philosophical concepts of Western thought, Jostein Gaarder's *Sophie's World* has fired the imagination of readers all over the world, with more than twenty million copies in print. One day fourteen-year-old Sophie Amundsen comes home from school to find in her

mailbox two notes, with one question on each: "Who are you?" and "Where does the world come from?" From that irresistible beginning, Sophie becomes obsessed with questions that take her far beyond what she knows of her Norwegian village. Through those letters, she enrolls in a kind of correspondence course, covering Socrates to Sartre, with a mysterious philosopher, while

receiving letters addressed to another girl. Who is Hilde? And why does her mail keep turning up? To unravel this riddle, Sophie must use the philosophy she is learning—but the truth turns out to be far more complicated than she could have imagined.

 Farrar, Straus and Giroux
 In this riveting and suspenseful New York Times best-selling book, Adam Hochschild

brings WWI to life as never before... World War I was supposed to be the “war to end all wars.” Over four long years, nations around the globe were sucked into the tempest, and millions of men died on the battlefields. To this day, the war stands as one of history’s most senseless spasms of carnage, defying rational explanation. To End All Wars focuses on the long-ignored moral drama of the

war’s critics, alongside its generals and heroes. Many of these dissenters were thrown in jail for their opposition to the war, from a future Nobel Prize winner to an editor behind bars who distributed a clandestine newspaper on toilet paper. These critics were sometimes intimately connected to their enemy hawks: one of Britain’s most prominent women pacifist campaigners had a brother

who was commander in chief on the Western Front. Two well-known sisters split so bitterly over the war that they ended up publishing newspapers that attacked each other. Hochschild forces us to confront the big questions: Why did so many nations get so swept up in the violence? Why couldn’t cooler heads prevail? And can we ever avoid repeating history?
Sophie's World Harper Collins

A hilarious nonfiction picture book from the New York Times bestselling author and creator of *Awkward Yeti*. Oh hey, guess what? The Sun never stops working to keep things on Earth running smoothly. (That's why it's been Employee of the Month for 4.5 billion years.) So why does the Sun get to be the center of attention? Because it's our solar system's very own star! This funny and factual picture

book from *Awkward Yeti* creator Nick Seluk explains every part of the Sun's big job: keeping our solar system together, giving Earth day and night, keeping us warm, and more. In fact, the Sun does so much for us that we wouldn't be alive without it. That's kind of a big deal. Each spread features bite-sized text and comic-style art with sidebars sprinkled throughout. Anthropomorphized planets

(and Pluto) chime in with commentary as readers learn about the Sun. For instance, Mars found someone's rover. Earth wants the Sun to do more stuff for it. And Jupiter just wants the Sun's autograph. Funny, smart, and accessible, *The Sun Is Kind of a Big Deal* is a must-have! *How to Make a Pancake* Lerner Publications You may know that Booboo Stewart made a name for

Walcott records, with his distinctive linguistic blend of soaring imagery and plainly stated facts, the experience of a mid-lief period--in reality and in memory or the imagination. As Louis Simpson wrote on the publication of Walcott's *The Fortunate Traveller*, "Walcott is a spellbinder. Of how many poets can it be said that their poems are compelling--not a mere stringing

together of images and ideas but language that delights in itself, rhythms that seem spontaneous, scenes that are vividly there?...The poet who can write like this is a master." *Invisible Emmie* HarperCollins This stunning set, complete with five editions of *Twilight, New Moon, Eclipse, Breaking Dawn, and The Short Second Life of Bree Tanner: An Eclipse Novella*, makes the perfect gift for

Should she stay mortal and strengthen

her connection to the werewolves, or leave it all behind to become a vampire? When you loved the one who was killing you, it left you no options. How could you run, how could you fight, when doing so would hurt that beloved one? If your life was all you had to give, how could you not give it? If it was someone you truly loved? To be irrevocably in love with a vampire is both fantasy

and nightmare woven into a dangerously heightened reality for Bella Swan. Pulled in one direction by her intense passion for Edward Cullen, and in another by her profound connection to werewolf Jacob Black, a tumultuous year of temptation, loss, and strife have led her to the ultimate turning point. Her imminent choice to either join the dark but seductive world of immortals or

to pursue a fully human life has become the thread from which the fates of two tribes hangs.
