Applying a cognitive approach to reading comics in all their narrative richness and intricacy, Contemporary Comics Storytelling opens an intriguing perspective on how these works engage the legacy of postmodernism--its subversion, self-reflexivity, and moral contingency. Its three case studies trace how contemporary comics tie into deep traditions of visual and</p> | <p>verbal storytelling, how they reevaluate their own status as fiction, and how the fictional minds of their characters generate complex ethical thought experiments. At a time when the medium is taken more and more seriously as intricate and compelling literary art, this book lays the groundwork for an analysis of the ways in which comics challenge and</p> | <p>engage readers' minds. frequently told tales. Author Sandra L. Beckett examines an international selection of contemporary fiction for children, adolescents, and adults to find a wide range of narrative and interpretive perspectives in the tale and its revisions. Beckett shows how authors and illustrators from around the globe have renewed the age-old tale in a range of multilayered, sophisticated, and complex

textual and visual Red Riding Hood narratives. With a child protagonist who confronts grown-up issues of sexuality, violence, and death, the Red Riding Hood story appeals to readers of all age groups and is often presented in crossover texts that can be enjoyed by both children and adults. Beckett presents a wide selection of retellings, many of which have been never translated into English. Texts

come from a variety of countries in Europe, North America, South America, Africa, and Asia and date from the early twentieth to the twenty-first century. This wealth of stories and illustrations is organized thematically into sections that consider Little Red Riding Hood alternately as a cautionary tale, an initiation story, a story focused on the wolf, a tale inspired by the wolf within, and a

story of an unconventional girl who runs with wolves. This volume provides a global survey of Red Riding Hood's story in contemporary culture, proving that the character is omnipresent in modern literature and that the universal appeal of her story knows no age boundaries. Red Riding Hood for All Ages will be of interest to scholars of folklore, gender studies, and literature, as

well as librarians, educators, parents, and all those interested in the many interpretations of the Red Riding Hood tale. *Two Books Are Better Than One!* Apress Architecture is defined by its materials and surfaces. Not infrequently, it is their look and feel that determine whether a project succeeds or fails. For this reason, it is crucially important that planners choose the right materials

and use them correctly, a task that is especially challenging today, when they are confronted with an almost dizzying variety of design possibilities and almost unlimited industrial production techniques. In Detail: Materials for Interiors provides detailed and specific information on the use of appropriate materials in interior design. The book leads off with an

overview of the range of available products for interior design, including large-format photographs of each material and interiors that use them. This is followed by detailed discussions of relevant aspects and production methods of the individual material groups, including selected examples. The processing of the materials is illustrated by production photographs from the

construction site and numerous detail drawings. In the accompanying texts, expert planners who specialize in the various materials share their practical knowledge of how to use them. The technical articles and example projects focus on the surface of the material and how it is produced or comes to be and contain corresponding decision support for planners. Additional

technical information on the materials used and a list of manufacturer and vendor addresses round out the volume. Werkstoffe und Oberflächen prägen die Architektur. In</p> | <p>Revisioning Red Riding Hood Around the World: An Anthology of International Retellings, Sandra L. They include retellings for children, adolescents, and adults, as well as crossover works intended for an audience of all ages. outside the classroom, children of all ages spend time interacting with their peers. Through these early interactions, children make sense of the world and co-construct their childhood culture, while simultaneously engaging in interactional activities which provide the stepping stones for discursive, social and cognitive development. This collection brings together an international

team of researchers to document how children's peer talk can contribute to their socialization and demonstrates that if we are to understand how children learn in everyday interactions we must take into account peer group cultures, talk, and activities. This book will be of interest to students and researchers in the fields of language acquisition, sociolinguistics, pragmatics and discourse

analysis, and related disciplines. It examines naturally occurring talk of children aged from three to twelve years from a range of language communities, and includes ten studies documenting children's interactions and a comprehensive overview of relevant research. *A Framework for Physical Education in the Early Years* Bloomsbury Publishing USA
Drama

Lessons offers an exciting and varied range of tried and tested lessons, carefully planned and easy-to-follow, tailor-made for the busy primary teacher. Non-drama-specialists will find the book especially helpful, while specialists will welcome a lesson collection for their own or colleagues' use. For each lesson plan, essential resources and timing information are given, along with

helpful suggestions for differentiation and follow-up activities. The lessons cover most curriculum areas, including English (especially Speaking and Listening), History, Science and Numeracy. For teachers, here - for the first time - is a book which just contains lesson plans to pick up and teach. Drama Lessons will also give student teachers a flying start in their school

placements.

numerous critiques to illustrate the ways in which critical expression can be structured, providing readers with feasible and flexible tools for focused and rational analysis of electronic media product as well as enhanced understanding of the role and essential ingredients of criticism itself. These insights range from the perceptions of Plato and Aristotle to the research that motivates

twenty-first century marketing and advertising. **Red Riding Hood for All Ages** Wayne State University Press This volume explores the advantages of seeing a topic from two different but complementary perspectives. All of the papers in the volume were read at two sessions at SBL (2005 and 2006) that were co-sponsored by the Social Sciences and the Hebrew Bible Section

of SBL and the American Schools of Oriental Research. The sessions were designed to promote dialogue among scholars by juxtaposing research based in the social sciences and archaeology. Scholars contributed papers from within their own methodological and research perspective, but addressed possible interactions and overlaps that their research might

contribute to the complementary perspective. Significant intersections between the approaches emerged when patterns of social interactions accessed by social scientific methods paralleled patterns in material remains accessed by archaeological methods. The sessions and thus the book achieve coherence because all of the papers attended to aspects of the family in

ancient Israel. While the presenters selected their own topics in the subject area, several foci emerged that reflect current research interests in these fields. These foci include research on ancestors and the cult of the dead, configurations of family house structures, and family relational interactions. All of the papers make their methods and approaches visible and

delineate clearly the textual or material basis of their research, so that the dialogue among the papers is facilitated. The Trials and Tribulations of Little Red Riding Hood Wayne State University Press

The imaginative YA paranormal romance and sci-fi genre fusion debut from Adara Spence Drawing Red is now available! Summary Progress doesn't sleep and neither does a vampire! Facing homelessness, artist Lucy takes a job with global household brand Cross-Key & Co, entering a world where art meets the supernatural. One week in, her charge Oda (a naïve

tree spirit inhabiting a notebook), goes missing, along with company supplies. If not recovered she could lose her job, home, and wolfishly handsome wheelchair using flat mate. Lucy races to recover them, in a journey leading her through mirror-portals and uncovering secrets of cosmic proportions. Paranormal and intergalactic peace is on the line. Amidst

tangled relationships, chasing down an escaped vampire convict, and a web of family and inter-species politics, Lucy discovers her own her voice. But when the time comes to speak, will she be Little Red Riding Hood or the Red Queen? Drawing Red is a thrilling clash of love, loyalty, and unearthly revelations, where courage defies boundaries.
