Dear Parents, The Hebrew alphabet known variously by scholars as the Ktav Ashuri, Jewish script, square script and block script, is an abjad script used in the writing of the Hebrew language and other Jewish languages, most notably Yiddish, Judeo-Spanish, Judeo-Arabic, and Judeo-Persian. The Hebrew alphabet has 22 letters. It does not have case. Five letters have different forms when used at the end of a word. Hebrew is written from right to left. Originally, the alphabet was an abjad consisting only of consonants, but is now considered an "impure abjad". The Arabic and Hebrew alphabets have similarities because they are both derived from the Aramaic alphabet. The language is a basic characteristic which constitutes one's own representation of who you are. Children and Parents

may feel that using English as a common language, it won't matter whether they learn Hebrew or not. It happens that your child might just stop speaking Hebrew, leading to identity change. Since a child's Hebrew language skills are lacking, they will not be able to interact well in Hebrew as they do in English. How can parents support their child's learning process? Here the solution is! This book enables your kids to practice and learn letters, words in an interesting way. Content of the book: For each alphabet letter there will be a page. 1st page has an outline of a letter with the image that starting with that letter, name in Hebrew, English with the phonics of Hebrew name and image. The children can color the letter and images that are allocated for each letter. 2nd page is for next alphabet. This book has similar setup for all the alphabets till page number 24. Pages 25-30 contains all alphabets in single pages with space for practice. 31-50 is having box spaces to practice Hebrew alphabet further. That looks like a great start right!!! Hope your kids will learn something useful in the

meantime. Let us gift meaningful book as a gift to our kids. △ If you loved ♥ the book, we request you to take a moment to review it (★★★★★). It helps in further progression for our future works. Thanks for your support Team SECOND TEACHER(TM)

The Alphabet That Changed the World

Rabbinic tradition asserts that every letter of every word of the Torah is a word in itself. Author Stan Tenen demonstrates that each letter is also a hand gesture, and it is at this level that Hebrew forms a natural universal language. All people, including children before they speak and people without sight, make natural use of these gestures. In The Alphabet That Changed the World,

Tenen examines the Hebrew text of Genesis and its relationship to the alphabet. He shows how each letter is both concept and gesture, with the form of the gesture matching the function of the concept. There is thus an implicit relationship between the physical world of function and the conscious world of concept. Using over 200 color illustrations, Tenen demonstrates geometric metaphor as the best framework for understanding the deepest meaning of the text. Such geometry models embryonic growth and self-organization and the core of many healing and meditative practices. Many subjects in contemporary science were derived from the methods and means available to the ancients; The Alphabet That Changed the World makes this authoritative recovery of the "science of consciousness" in Genesis accessible for the first time to the contemporary reading public.

The Wonderful Hebrew Alphabet 1 workbook covered letters Aleph thru Zayin. The Wonderful Hebrew Alphabet 2 workbook, covers letters CHET to FINAL NUN, which is past the halfway mark of the MEM, the central letter. Get answers to questions such as 'Why did God write the 10 commandments on two tablets instead of a list on just one tablet?' Why number 8 is one of the

most misunderstood of all the numbers. How there is a counterfeit use of the number eight by Satan. See how any number times nine always equals nine. How the YOD which is the smallest letter of the Hebrew Alphabet is part of every letter in the Hebrew Alphabet. The YOD represents 'hand' and has a numerical value of 10 but hidden in the 10 of YOD is 20 because we have two hands for which to serve God, is it for 'good' or for 'bad'? Good and Bad are compared in the Bible over 32 times. This book is packed with wisdom from 'ON HIGH' and a book that every serious student of the Bible should read and understand. It is past time
