The Gospel & the Zodiac B&H Publishing Group

In a series of illuminating lectures, Joseph A. Seiss presents a clear picture of astronomical occurrences and inspirations to be found in the Biblical New Testament and Gospels. A superbly insightful Bible commentary, this book contains seventeen lectures, each of which focuses upon a specific astronomical occurrence in the New Testament. Events which draw specific influence from the constellations of the stars are charted, with each star sign identified as important to separate events depicted in the scriptures of the gospels. The nativity of Jesus Christ, wherein the Star of Bethlehem appears to the three wise men, is perhaps the most obvious incident of the astronomical. However, Seiss demonstrates that the stars above are richly significant and play a role in many of the most famous tales of the Bible. For example, when Seiss recounts the story of St. Peter's fishing, he compares the sign of Pisces, which was already widely known in the Biblical era.

### Shining Like Stars OR Books

An in-depth look at the powerful story and symbolism behind God's unique design of our universe. Thousands of words have been written about the first ten words in the Bible: "In the beginning, God created the heavens and the earth," a simple and profound statement that has ignited a firestorm of debate and controversy. People often only focus on the "how" and "when" of creation, but *Story in the Stars* explores the "why." Why did God create such a vast universe? Why did He choose the sun and moon to light our paths? Why did He design images with stars in the night sky? The Bible is very clear when it states that God created, named, and positioned all of the stars of the universe in their place in a very specific way—a way that tells us the greatest story ever to be told. In Luke 21:25 Jesus says, "There will be signs in the sun, moon and stars." Signs are meant to point us towards something: Jesus. *Story in the Stars* takes an in-depth look at the Bible and all the signs God mapped out through constellations, planets, and even the way the Earth is tilted. We are uniquely designed by God, and He loves us so much that He ensured a way for all inhabitants of the earth, through all of time, to see the messages of salvation and redemption that He painted in the stars.

### Getting the Gospel Right Crossway

Could the gospel be lost in evangelical churches? In this book, J.D. Greear shows how moralism and legalism have often eclipsed the gospel, even in conservative churches. *Gospel* cuts through the superficiality of religion and reacquaints you with the revolutionary truth of God's gracious acceptance of us in Christ. The gospel is the power of God, and the only true source of joy, freedom, radical generosity, and audacious faith. The gospel produces in us what religion never could: a heart that desires God. The book's core is a "gospel prayer" by which you can saturate yourself in the gospel daily. Dwelling on the gospel will release in you new depths of passion for God and take you to new heights of obedience to Him. *Gospel* gives you an applicable, exciting vision of how God will use you to bring His healing to the world.

The Zodiac for all practical purposes is synonymous with Astrology. Astrologers and the like have for all practical purposes, hijacked the Zodiac. Zodiac was never intended to be used for casting horoscopes and foretelling significant events in a person's life. This treatise reviews the history of the Zodiac and provides an in depth examination of what each Sign of the Zodiac and Decan really portrays. This treatise will forever change your views on the Zodiac. All will realize that the Zodiac is

really, The Gospel in the Stars.

*The Gospel in the Stars* Literary Licensing, LLC

Unity in the gospel is essential to the witness of the church. Yet that unity was tested by the release of two documents, Evangelicals and Catholics Together and The Gift of Salvation, which appeared to surrender the historic doctrine of sola fide (faith alone). In response, Christian leaders released a statement called The Gospel of Jesus Christ: An Evangelical Celebration. *Getting the Gospel Right*, a companion to Sproul's popular Faith Alone, contains the complete text of that statement along with thorough, point-by-point discussion and exposition, to make a strong declaration of the abiding unity of evangelicals regarding the gospel and justification by faith alone.

### The Gospel in the Stars Scholar's Choice

Warnings are found in the Scripture: God's people must not seek guidance from the stars, nor worship them. Satan's deception has influenced multitudes to attempt to foretell their futures through the evils of astrology. As a result, God's Own people have ignored His first words about the stars, "and let them be for signs..." In His wisdom, God placed stars in the cosmos for one reason: to tell His perfect plan of redemption. In them lies the story of Jesus from His birth to the final judgment ahead. *Signs in the Heavens* shatters and exposes every lie of satanic deception about the stars. Learn about Old Testament men who caught visions of God's plan through the stars, and also named them. You'll see the story of your Lord and Savior, Jesus Christ, presented in the stars before Scripture was ever written. It's time God's people know the truth. You won't be the same after Marilyn sets startling precept upon precept to bring you the Greatest Story Ever Told. Take this heavenly journey: discover the Signs in the Heavens!

### How God Became King Theclassics.us

Thank you for choosing CrossReach Publications! Our promises: 1. Our goal is to bring you high quality Christian publications at reasonable and affordable prices. Therefore all of our works are complete and unabridged unless specifically stated otherwise, which means that unlike some other independent publications you get what you see and pay for. No unpleasant surprises. 2. We endeavour to bring you updated editions of classic works. Therefore this work is not a scan, but is a completely digitized version of the original, with working table of contents, properly formatted footnotes etc. 3. Unlike, many other independently published works, our publications are easy to read. Therefore you won't find illegible, faded, poor quality photocopies here. Neither will you find poorly done OCR versions of those faded scans either, with illegible "words" that contain all kinds of strange characters like ♦, %, &, etc. Our publications have all been looked over and corrected by the human eye. 4. We can't promise perfection, but we're sure gonna try! 5. If you read through one of our works, taking note where you find any mistakes, if you email us this information and we confirm the errors we will refund you the price of the eBook edition of the work you read. For this or maybe just to say "Hi" or "thank you" drop us an email: [contactus@crossreach.net](mailto:contactus@crossreach.net) Preface It may seem adventurous to propose to read the Gospel of Christ from what Herschel calls "those uncouth figures and outlines of men and monsters usually scribbled over celestial globes and maps." So it once would have seemed to the writer. But a just estimate of the case cannot be formed without a close survey of what these figures are, what relations they bear to each other, whence they originated, and what meaning was attached to them by the most ancient peoples from whom they have been transmitted to us. Such a survey the author of this volume has endeavored to make. From an extended induction he has also reached conclusions which lead him to think he may do good service by giving publicity to the results of his examinations. The first suspicion that the original constellations may perhaps have come from a divine or prophetic source was impressed upon the writer's mind in connection with his studies of the marvellous wisdom embodied in the Great Pyramid of Gizeh. But it came only in the shape of an inference, which needed to be tested on its own independent grounds before it could be reasonably accepted. That inference, however, was

so direct, and the subject seemed so worthy of being investigated, that a course of special study was instituted to ascertain, apart from all pyramid-theories, whether the facts and probabilities in the case would warrant a conclusion of so much moment. If any others have treated directly, or even incidentally, of what is sought to be shown in this volume, its author has not discovered their records or their names. With but little, therefore, but the star-maps and descriptions as given by astronomers, and such notices of the constellations as are to be found in the remains of antiquity and general literature, he had to make his way as best he could. With what success he has done his work, and in how far his conclusions are entitled to credit or respect, he now submits to the decision of a candid and intelligent public. Festival of the Epiphany, Philadelphia, 1882

[The Gospel According to Jesus](#) Marilyn Hickey

This book provides a striking presentation of redemption through Christ as portrayed in the constellations. A sharp contrast to the demonic corruption of horoscopes and superstition.

*The Gospel in the Stars* Westminster John Knox Press

Written by an L. A. County homicide detective and former atheist, Cold-Case Christianity examines the claims of the New Testament using the skills and strategies of a hard-to-convince criminal investigator. Christianity could be defined as a "cold case": it makes a claim about an event from the distant past for which there is little forensic evidence. In Cold-Case Christianity, J. Warner Wallace uses his nationally recognized skills as a homicide detective to look at the evidence and eyewitnesses behind Christian beliefs. Including gripping stories from his career and the visual techniques he developed in the courtroom, Wallace uses illustration to examine the powerful evidence that validates the claims of Christianity. A unique apologetic that speaks to readers' intense interest in detective stories, Cold-Case Christianity inspires readers to have confidence in Christ as it prepares them to articulate the case for Christianity.

*The Real Meaning of the Zodiac* Kregel Publications

"Darlison elucidates the zodiac's significant place in the Gospels, most specifically in the Book of Mark . . . An intriguing leap into faith" (Kirkus Reviews). For millennia the world has been driven by the differences between the great patriarchal religions. Western civilization—or Christendom, as it was once called—received its values and its confidence from a belief in God, the Father, and Jesus, his only son. But what if this conviction were founded on an error? Who is the man in the factually inconsistent Gospel stories? And who is the man who makes a brief appearance carrying a jar of water? This extraordinary study by a Unitarian minister suggests that Jesus never existed historically; he was simply a representation of an astrological theology—a representation, simply put, of the zodiac sign of Aquarius. In *The Gospel & the Zodiac*, Rev. Bill Darlison demonstrates that all the other signs are present too, in perfect zodiacal order. The Gospel story is not the product of historians or eyewitnesses, but an older, mystical text produced by an ancient, esoteric school as a guide to the Age of Pisces. Every bit as revelatory and controversial as it sounds, *The Gospel & the Zodiac* will shake up the religious status quo, and in doing so, provide both a new look at a religious icon and a deeper understanding of the faith that binds millions together. "Darlison begins by looking at different scholarly approaches to the gospels, then outlines his astrological interpretation logically and lucidly, matching the zodiacal signs to the narrative of Mark." —Fortean Times

*The Gospel in the Stars* SPCK

Some years ago it was my privilege to enjoy the acquaintance of Miss Frances Rolleston, of Keswick, and to carry on a correspondence with her with respect to her work, Mazzaroth: or, the Constellations. She was the first to create an interest in this important subject. Since then Dr. Seiss, of Philadelphia, has endeavoured to popularize her work on the other side of the Atlantic; and brief references have been made to the subject in such books as *Moses and Geology*, by Dr. Kinns, and *Primeval Man*; but it was felt, for many reasons, that it was desirable to make another effort to set forth, in a more complete form, the witness of the stars to prophetic truth, so necessary in these late days. To the late Miss Rolleston, however, belongs the honour of collecting a mass of information bearing on this subject; but, published as it was, chiefly in the form of notes, unarranged and unindexed, it was suited only for, but was most valuable to, the student. She it was who performed the drudgery of collecting the facts presented by Albumazer, the Arab astronomer to the Caliphs of Grenada, 850 a.d.; and the Tables drawn up by Ulugh Beigh, the Tartar prince and astronomer, about 1650 a.d., who gives the Arabian Astronomy as it had come down from the earliest times. Modern astronomers have preserved, and still have in common use, the ancient names of over a hundred of the principal stars which have been handed down; but now these names are used merely as a convenience, and without any reference to their significance. This work is an attempt to popularize this ancient information, and to use it in the interests of truth. For the ancient astronomical facts and the names, with their signification, I am, from the very nature of the case, indebted, of course, to all who have preserved, collected, and handed them down; but for their interpretation I am alone responsible. It is for the readers to judge how far my conclusions are borne out by the evidence; and how far the foundation of our hopes of coming glory are strengthened by the prophecies which have been written in the stars of heaven, as well as in the Scriptures of truth.

Star Wars is one of the most beloved movie series of all time, and in this book John McDowell explores the many spiritual themes that weave throughout the six films. From the Force to the dark side, the issues discussed in the films have a moral and spiritual complexity that, if paid attention to,

can help us better understand our place in the world and our relation to others and to God. George Lucas, the creator of Star Wars, did not intend for his films to be mere entertainment, McDowell argues. Rather, he hoped his films would be used as a vehicle for moral education.

*The Great Christ Comet* Hachette UK

This is a reproduction of a book published before 1923. This book may have occasional imperfections such as missing or blurred pages, poor pictures, errant marks, etc. that were either part of the original artifact, or were introduced by the scanning process. We believe this work is culturally important, and despite the imperfections, have elected to bring it back into print as part of our continuing commitment to the preservation of printed works worldwide. We appreciate your understanding of the imperfections in the preservation process, and hope you enjoy this valuable book.

**GOSPEL IN THE STARS, OR PRIMEVAL ASTRONOMY** Emmaus Road Publishing

Drawing on the biblical text and using the latest astronomical research, this book presents compelling evidence that the historic star of Bethlehem that accompanied Christ's birth was actually a great comet.

*Cold-Case Christianity* Ravenio Books

'It has been slowly dawning on me over many years that there is a fundamental problem deep at the heart of Christian faith and practice as I have known them . . . we have all forgotten what the four Gospels are about.' With that surprising assertion, Tom Wright launches this ground-breaking work in which he helps us to see the gospel story in radically a new light, and to acknowledge that, for many generations, the Church has been avoiding its full impact and holding back from proclaiming its full meaning. 'Classic Wright: clear, accessible, robust, engaging and challenging.' Paula Gooder in Third Way 'Scholarly, accessible, insightful and provocative.' Christianity 'Wright argues compellingly that the twin themes of kingdom and cross are inseparably linked. . . This is a much-needed reorientation. The book makes its case for 'rethinking' cogently and deserves widespread attention.' Theology

What's Christian about Star Trek? Nothing. That's the way most people see it and that certainly seems to be the way the franchise is intended. There's no question that the Trek universe is based on a doggedly humanistic world view and is set in a future time when religion has essentially vanished from Earth. If that's the case, how can there even be a "gospel according to Star Trek"? In *The Gospel According to Star Trek: The Original Crew*, you'll discover how the continuing voyages of Kirk and company aboard the Enterprise—from the original series to the Abramsverse—tell us more about our human quest for God than you ever imagined. You'll learn how Star Trek creator Gene Roddenberry's own spiritual quest informed the franchise, what he and the series really have to say about God and religion, and the amazing image of Christ contained in Star Trek's most popular character. You'll also see how Star Trek can help us recover a deeper, more fully human gospel that embraces our humanity instead of denigrating it and echoes the call of both Spock and Christ: "Live long and prosper!" (John 10:10).

**Mazzaroth; or, the Constellations** David C Cook

The origin and study of astronomy is as old as mankind. The names of constellations and stars and their meaning are older than mankind. God gave Adam the responsibility of naming the animals, but God named the stars and constellations and gave them each a meaning. God instructed the first humans in these meanings. These meanings have been preserved and transmitted from antiquity to the present for us to know and understand. Though much has been lost throughout time, much has been rediscovered. Discover the real meaning of the stars and constellations. Discover the past, present, and future. Discover the story of the Gospel in the stars.

*The Gospel of Self* Zondervan

This historic book may have numerous typos and missing text. Purchasers can usually download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1884 edition. Excerpt: ... SUPPLEMENT. NOTICES OF "THE GOSPEL IN THE STARS," CRITICAL CISMMS, REPLIES TO QUESTIONS AND OBJECTIONS WITH FURTHER EXPLANATIONS, ARGUMENTS, AUTHORITIES, AND A GENERAL INDEX. Notices. The author of this book has no reason to complain of a lack of notices of his work. The press in general has referred to it, and a hundred or more of such notices have come into his possession. Some of these have been very sympathetic with the theme and have much commended the argument. Thus, Stoddart's Review, among other favorable expressions, says: "He makes it apparent that the strange figures belonging to the constellations were familiar at a period that antedates by thousands of years any known religious faith which failed to recognize the existence and power of the true God. The evidence is strong which maintains that these devices had their origin in the very earliest ages of the world; and this one fact, proved as it seems to be, may be accepted as excellent testimony to their divine origin; and if that origin was divine, then it is fair to attempt, as Dr. S. does, to ascertain what was the purpose of their arrangement. If the hand of the Creator appears in these signs, confessed thro' all the centuries to be surrounded by mystery, and having a persistent existence which cannot be accounted for by the action of purely human agencies, then it is a fair inference that there is behind them some wonderful and eternal purpose which man, in a just spirit of reverence, may seek to detect." Thus, The Ycphetic Times says: "The correspondence between the starry groups and the Sacred Scriptures is traced with a vigorous pen, and invested with an absorbing interest as vivid as it is novel; and we rise from its perusal with the conviction that there can be no...
