Fun easy
games for
parents and

teachers to play with kids of all ages. Play is increasingly recognized by neuroscientists and educators as a vital component in brain development, academic success and learning social skills. In this inspiring and useful resource, Barbara Sher provides step-by-step directions for how to use children's natural interests at different stages of their development to help them develop

a wealth of sensory motor and social skills. All the games have also been designed to provide plenty of joyful opportunities for encouraging inclusion. Offers strategies for helping all kids, but especially those with special needs, to develop social, motor and sensory skills. Filled with simple games using common materials that can be used by teachers, parents, and caregivers

with both individual kids and groups. Provides explanations and examples of how the games can aid in a child's development. This resource offers parents and teachers a fun and easy way to include all children in activities that will engage all of their senses and promote important skills. *Alphabet, Colors, Numbers, and Shapes* Skyhorse Publishing Inc. Covering intermediate skills such as

comprehension of abstract language, social and play skills, emotional and behavioral regulation, and academic skills, this comprehensive ABA curriculum has been developed specifically for individuals on the autism spectrum with a developmental age of approximately 4-7 years. Evidence-based, the resource guides instructors step-by-step through using ABA to teach

150 intermediate skills. The program can be individualized to meet the needs and interests of the individual, and instructions are given on how to do this. Accompanying online downloadable content contains the teaching materials needed to implement the program, including over 1000 printable color picture cards and worksheets, handy printable copies of the

curriculum programs, data forms and checklists. The authors also provide guidance on creating an effective ABA teaching environment, as well as a wealth of practical teaching strategies for ensuring therapy success. This is an unparalleled resource for professionals working with children with ASDs who are looking for a robust and ready-to-implement ABA curriculum. It

will be a valuable tool for behaviour analysts, teachers, psychologists, occupational therapists, and students in these fields, as well as to parents working with professionals to implement an ABA program.
