one of the most

iconoclastic journalists of

the digital age, beloved

for his ambitious, off-

beyond simply chronicling

some of the modern

unbelievable, and

spectacular oddities

(though they do that, too).

Researched for months

they explore the

interconnectedness of the

globalized world, the

the power of myth, and

the ways people attempt

to find meaning. He

searches for tigers in

This book marks a powerful return to the forest, where trees have heartbeats and roots are like brains that extend underground, where the colour green calms us and the forest sharpens our senses. In *The Heartbeat of Trees*, renowned forester Peter Wohlleben draws on new scientific discoveries to show how humans are deeply connected to the natural world. In an era of cell-phone addiction, climate change and urban life, many of us fear that we've lost our connection to nature. But Wohlleben is convinced that the age-old ties linking humans to the forest remain alive and intact. Drawing on science and cutting-edge research, *The Heartbeat of Trees* reveals the profound interactions humans can have with nature, exploring the language of the forest, the consciousness of plants and the eroding boundary between flora and fauna. A perfect book to take with you into the woods, *The Heartbeat of Trees* will help you see, feel, smell, hear and even taste the forest. Peter Wohlleben, renowned for his ability to write about trees in an engaging way, reveals a wondrous cosmos where humans

are a part of nature, and where conservation and environmental activism is not just about saving trees-it's about saving ourselves, too.

They're the only company she ever wants. And when they fight, she makes sure to never take sides. She looks up to her brother, the math genius and track star. And she is head over heels for James, with his long eyelashes and hidden smiles. But then something happens that makes Ellen question the kinds of love shared between the three of them—someone at school asks if Link and James might be in love with each other. The question is simple enough—but Link refuses to discuss it. And then James refuses to stay friends with a boy so full of secrets. Ellen's parents want Link to keep his secrets to himself, but Ellen wants to know who her brother really is. Is her curiosity a kind of betrayal? And if James says he loves Ellen, isn't that just another way of saying he still loves Link? He has forged a career from diverse but interwoven vocations, finding ways to make accessible to contemporary readers the wisdom of poets and thinkers from ancient Greece, the Middle East, Asia, and North American First Nations. This collection shows the ways

in which his industry-standard textbook *The Elements of Typographic Style*, his remarkable translations of Haida oral epics, and his experimental and traditional poetry and prose form a single coherent project. *Listening for the Heartbeat of Being* brings together a range of literary scholars, poets, journalists, and publishers to comment on Bringham's far reaching body of work. The essays include a comprehensive biography of Bringham, first-hand accounts of his book design and production efforts, an analysis of his groundbreaking polyphonic performance poems, and re-considerations of the *Masterworks of the Classical Haida Mythtellers* translation trilogy. Experienced Bringham scholars join well-known writers such as Dennis Lee and Margaret Atwood to create a multi-dimensional view of Bringham's career. Guided by the simple faith that "everything is connected to everything else," Bringham's ability to listen closely to the great minds of many cultures and represent their voices pragmatically

is, as this diverse and insightful book shows, of greater interest than ever in a world facing unprecedented ecological crisis and intensive cultural evolution. Contributors include Margaret Atwood, Nicholas Bradley (University of Victoria), Crispin Elsted (Barbarian Press), Clare Goulet (Mount St. Vincent University), Iain Higgins (University of Victoria), Ishmael Hope, Peter Koch (Peter Koch Printers), Dennis Lee, Scott McIntyre, Katherine McLeod (Concordia University), Kevin McNeilly (University of British Columbia), Káawan Sangáa, and Erica Wagner. A leading spiritual teacher reveals how Celtic spirituality—listening to the sacred around us and inside of us—can help us heal the earth, overcome our conflicts, and reconnect with ourselves. John Philip Newell shares the long, hidden tradition of Celtic Christianity, explaining how this earth-based spirituality can help us rediscover the natural rhythms of life and deepen our spiritual connection with God, with each other, and with the earth. Newell introduces some of Celtic Christianity's leading practitioners, both saints and pioneers of faith, whose timeless wisdom is more necessary than ever, including: Pelagius, who shows us how to look beyond sin to affirm our sacredness as part of all God's creation, and courageously stand up for our principles in the face of oppression. Brigid of

Kildare, who illuminates the interrelationship of all things and reminds us of the power of the sacred feminine to overcome those seeking to control us. John Muir, who encourages us to see the holiness and beauty of wilderness and what we must do to protect these gifts. Teilhard de Chardin, who inspires us to see how science, faith, and our future tell one universal story that begins with sacredness. By embracing the wisdom of Celtic Christianity, we can learn how to listen to the sacred and see the divine in all of creation and within each of us. Human beings are inherently spiritual creatures who intuitively see the sacred in nature and within one another, but our cultures—and at times even our faiths—have made us forget what each of us already know deep in our souls but have learned to suppress. Sacred Earth, Sacred Soul offers a new spiritual foundation for our lives, once centered on encouragement, guidance, and hope for creating a better world. *Celtic Prayers from Iona* Penguin
Dare to imagine a new birth from deep within Christianity, a fresh

stirring of the Spirit. “The walls of Western Christianity are collapsing. In many parts of the West that collapse can only be described as seismic.... There are three main responses or reactions to this collapse. The first is to deny that it is happening. The second is to frantically try to shore up the foundations of the old thing. The third, which I invite us into, is to ask what is trying to be born that requires a radical reorientation of our vision. What is the new thing that is trying to emerge from deep within us and from deep within the collective soul of Christianity?” —from the Introduction In the midst of dramatic changes in Western Christianity, internationally respected spiritual leader, peacemaker and scholar John Philip Newell offers the hope of a fresh stirring of the Spirit among us. He invites us to be part of a new holy birth of sacred living. Speaking directly to the heart of Christians—those within the well-defined bounds of Christian practice and those on the disenchanting edges—as well as to the faithful and seekers of other traditions, he explores eight major features of a

new birthing of Christianity: Coming back into relationship with the Earth as sacred
Reconnecting with compassion as the ground of true relationship
Celebrating the Light that is at the heart of all life
Reverencing the wisdom of other religious traditions
Rediscovering spiritual practice as the basis for transformation
Living the way of nonviolence among nations
Looking to the unconscious as the wellspring of new vision
Following love as the seed-force of new birth in our lives and world

 A NEW YORK TIMES BESTSELLER Named a best book of 2019 by The New York Times, TIME, The Washington Post, NPR, Hudson Booksellers, The New York Public Library, The Dallas Morning News, and Library Journal. "Chapter after chapter, it's like one shattered myth after another." - NPR "An informed, moving and kaleidoscopic portrait... Treuer's powerful book suggests the need for soul-searching about the meanings of American history and the stories we tell ourselves about this nation's past.." - New York Times Book Review, front page A sweeping history—and counter-narrative—of Native American life from the Wounded Knee massacre to the present. The received idea of Native American history—as promulgated by books like Dee Brown's mega-bestselling 1970 Bury My Heart at Wounded Knee—has been that American Indian history essentially ended with the 1890 massacre at Wounded Knee. Not only did one hundred fifty

Sioux die at the hands of the U. S. Cavalry, the sense was, but Native civilization did as well. Growing up Ojibwe on a reservation in Minnesota, training as an anthropologist, and researching Native life past and present for his nonfiction and novels, David Treuer has uncovered a different narrative. Because they did not disappear—and not despite but rather because of their intense struggles to preserve their language, their traditions, their families, and their very existence—the story of American Indians since the end of the nineteenth century to the present is one of unprecedented resourcefulness and reinvention. In The Heartbeat of Wounded Knee, Treuer melds history with reportage and memoir. Tracing the tribes' distinctive cultures from first contact, he explores how the depredations of each era spawned new modes of survival. The devastating seizures of land gave rise to increasingly sophisticated legal and political maneuvering that put the lie to the myth that Indians don't know or care about property. The forced assimilation of their children at

government-run boarding schools incubated a unifying Native identity. Conscripted in the US military and the pull of urban life brought Indians into the mainstream and modern times, even as it steered the emerging shape of self-rule and spawned a new generation of resistance. The Heartbeat of Wounded Knee is the essential, intimate story of a resilient people in a transformative era. [Listen to My Heartbeat](#)

 By creatively using humor and life experiences, this book will exhort and encourage you to spend time with the Lord and listen to His voice (heartbeat). After 36 years of teaching, playing sports and several pets, Linda uses powerful examples of God teaching her His Word and conversations they shared. Chapter titles like, "World's Fastest Brake Foot", "God's One-Liners", "You Can't Pull A Goat", and "God Uses Sump Pumps and Burning Bushes" will peak your curiosity. It is important to know what the Bible says and so scripture is used throughout. This book not only entertains but is a teaching tool. Linda grew up in Michigan where she

enjoyed church activities and sports. In high school, she was a member of the National Honor Society and graduated in the Top Ten of her class. She graduated from Huntington College in Huntington Indiana in 1972 with a Bachelor of Science in Secondary Education. Before retiring in 2010, she taught school for 36 years with the last 13 being in juvenile corrections. In 2005 she finished her Master of Arts in Biblical Studies. The Lord has used Linda as an educator, exhorter, and encourager while ministering in church services, Sunday school, and women's ministries. *Love Approach: 4 Proven Steps to Transforming Relationships in Your Family, Church, and Community* Echo Point Books & Media, LLC Listen to the Heartbeat of

the Church resurrects the concept of episcopal visitation, an age-old and rarely used practice in Catholic parishes and dioceses. Using information gleaned from a survey of 100 Benedictine monasteries along with a nine-month experience of facilitating a parish goal-setting process, Baroch describes how visitation can strengthen parishes and dioceses by closing the communication gap that sometimes exists between the laity and the hierarchy. Her fictional account of St. Anonymous Catholic Church, the heart of the book, shows how a struggling congregation can accomplish its goals when parishioners, the pastor, and their bishop engage in shared ministry. It can happen--one parish, one diocese, at a time.
