 The final novel in the First
 Law Trilogy by New York
 Times bestseller Joe
 Abercrombie. Logen
 Ninefingers might only
 have one more fight in
 him -- but it's going to be
 a big one. Battle rages
 across the North, the king
 of the Northmen still
 stands firm, and there's
 only one man who can
 stop him. His oldest
 friend, and his oldest
 enemy: it's time for the
 Bloody-Nine to come
 home. With too many
 masters and too little

time, Superior Glokta is
 fighting a different kind of
 war. A secret struggle in
 which no one is safe, and
 no one can be trusted. As
 his days with a sword are
 far behind him, it's
 fortunate that he's deadly
 with his remaining
 weapons: blackmail,
 threats, and torture. Jezal
 dan Luthar has decided
 that winning glory is too
 painful an undertaking
 and turned his back on
 soldiering for a simple life
 with the woman he loves.
 But love can be painful
 too -- and glory has a
 nasty habit of creeping up

on a man when he least
 expects it. The king of the
 Union lies on his
 deathbed, the peasants
 revolt, and the nobles
 scramble to steal his
 crown. No one believes
 that the shadow of war is
 about to fall across the
 heart of the Union. Only
 the First of the Magi can
 save the world, but there
 are risks. There is no risk
 more terrible, than to
 break the First Law. . .

During economic contractions, it becomes much more difficult to sell your products, maintain your customer base, and gain market share. Mistakes become more costly, and failure becomes a real possibility for all those who are not able to make the transition. But imagine being able to sell your products when others cannot, being able to take market share from both your competitors, and knowing the precise formulas that would allow you to expand your sales

while others make excuses. If You're Not First, You're Last is about how to sell your products and services—despite the economy—and provides the reader with ways to capitalize regardless of their product, service, or idea. Grant shares his proven strategies that will allow you to not just continue to sell, but create new products, increase margins, gain market share and much more. Key concepts in If You're Not First, You're Last include: Converting the Unsold to Sold The

December 1967: Richard Burns had just arrived in

Vietnam as part of the fourteen-man 101st Pathfinder Detachment. Within just one month, during a holiday called Tet, the Communists would launch the largest single attack of the war--and he would be right in the thick of it. . . . In Vietnam, Richard Burns operated in live-or-die situations, risking his life so that other men could keep theirs. As a Pathfinder--all too often alone in the middle of a hot LZ--he guided in helicopters disembarking troops, directed

medevacs to retrieve the wounded, and organized extractions. As well as parachuting into areas and supervising the clearing of landing zones, Pathfinders acted as air-traffic controllers, keeping call signs, frequencies, and aircraft locations in their heads as they orchestrated takeoffs and landings, often under heavy enemy fire. From Bien Hoa to Song Be to the deadly A Shau Valley, Burns recounts the battles that won him the Silver Star, Bronze Star, Purple Heart, and numerous

other decorations. This is the first and only book by a Pathfinder in Vietnam . . . or anywhere else.

A world without accounting means confusion and chaos. Accounting is not only used in the business world, but rather it is used by everyone in all types of situations. Tax touches every aspect of our lives. People are talking about tax on the TV, the radio, newspaper, and the Internet. Life has grown, as a whole, toward higher

levels of complexity. The language of accounting and taxation is also expanding: More and more new words are created, and new meanings are added to the old words. Do you know the meaning of these words: ad hoc, accounting bath, below-water, blackout, capex, carve-out, e-tax, postil, Sarbanes-Oxley, strata...? Each term has its unique meaning you may not be able to find a definition in an ordinary dictionary. "An International Dictionary of Accounting

& Taxation" is a book with more than 12,000 entries drawn from accounting, auditing and taxation. Each entry has a clear one-sentence definition right to the point. Whether you are an accountant, CPA, tax professional or amateur, you will find this dictionary of immeasurable help. [If You're Not First, You're Last](#) iUniverse
In recent years, banks have greatly increased their reliance on contingency financing. Shows bankers how to

minimize their risk and maximize their profits when dealing in these new markets.

Contingency items (also called off-balance-sheet items) are agreements made by banks in which, for a fee, the bank undertakes to act as an intermediary, guaranteeing a transaction between other parties. Zamora explains the various types of contingency financing, including swap transactions, forward rate agreements, bankers' acceptances, and standby

letters of credit. Each topic is illustrated with a case study. covers all aspects of contingency financing and places them in the context of the bank's overall financial structure.

First In, Last Out Orbit "...the level or research, the quality of graphics, and the readability are exceptional. [...] It is a subject area not covered often and it is a worthy addition to the bookshelves of readers with an interest in early Southwest Pacific air campaigns of World War

Two." — Sir Henry Beverley Lieutenant General RM The official document Amphibious Warfare Handbook No. 10a: The Organisation, Employment and Training of Commandos is a unique piece of postwar Royal Marines Commando doctrine, never before published, or quoted at length. Prepared in 1951 at the height of the Korean War by the Chief of Amphibious Warfare and the Commandant General Royal Marines, this seventy-page aide memoir is, in essence, the

distillation of major lessons learned by the British wartime Combined Operations Headquarters regarding amphibious warfare, raiding, cliff assaults, sabotage, intelligence-gathering, specialized infantry work, guerrilla warfare and Commando tactics. In addition, it offers its readership a delineation of the characteristics, skills and qualities required of a Royal Marines Commando. Published to mark the seventieth anniversary of its official issue, this rare

example of bespoke Commando doctrine is a timely and highly relevant addition to a growing body of work on The Corps of Royal Marines. Currently undergoing significant institutional changes by means of the Future Commando Force (FCF) program, the Royal Marines are having to challenge their existing operating concept, force structures, doctrine, and organizational design to meet the emerging defense challenges of the 21st century. It serves to remind those currently

evolving the FCF concept of General Sir John Hackett's advice, namely, "To see where we are going, we must know where we are, and to know where we are, we need to discover how we got here."

This is the astonishing tale of two episodes in the life of Colonel J P Cross, jungle fighter and linguist extraordinaire. As a young officer at the end of the war against Japan in 1945, he took part in counterinsurgency operations against the Vietminh at a time of chaos and confusion. Sent to the area to help disarm the defeated Japanese,

Cross found himself commanding a battalion of the very same troops against the Vietminh. That period provides the backdrop to Cross's experiences as British Defence Attache to Laos between 1972 and 1976. His mastery of the languages of the region allowed him rarely accorded access to high Laotian political circles. Allowed to wander at will even by the Communists, he was in the unique position to survey the subterfuge and rivalry surrounding an

overlooked yet fascinating sideshow to the Vietnam War. A remarkable man, J P Cross provides an absorbing account of his life amidst the cut and thrust of Laotian politics. Penguin

WINNER OF THE MARK LYNTON HISTORY PRIZE • A prize-winning historian’s “effervescent” (The New Yorker) account of a close-knit band of wildly famous American reporters who, in the run-up to World War II, took on dictators and rewrote the rules of modern journalism “High-speed, four-lane storytelling . . . Cohen’s all-action narrative bursts with colour and incident.”—Financial Times NEW YORK TIMES EDITORS’ CHOICE • WINNER OF THE

GOLDSMITH BOOK PRIZE

• FINALIST FOR THE PROSE AWARD ONE OF THE BEST BOOKS OF THE YEAR: The New Yorker, Vanity Fair, NPR, BookPage, Booklist They were an astonishing group: glamorous, gutsy, and irreverent to the bone. As cub reporters in the 1920s, they roamed across a war-ravaged world, sometimes perched atop mules on wooden saddles, sometimes gliding through countries in the splendor of a first-class sleeper car. While empires collapsed and

fledgling democracies faltered, they chased deposed empresses, international financiers, and Balkan gun-runners, and then knocked back doubles late into the night. Last Call at the Hotel Imperial is the extraordinary story of John Gunther, H. R. Knickerbocker, Vincent Sheean, and Dorothy Thompson. In those tumultuous years, they landed exclusive interviews with Hitler and Mussolini, Nehru and Gandhi, and helped shape what Americans knew

about the world. Alongside these backstage glimpses into the halls of power, they left another equally incredible set of records. Living in the heady afterglow of Freud, they subjected themselves to frank, critical scrutiny and argued about love, war, sex, death, and everything in between. Plunged into successive global crises, Gunther, Knickerbocker, Sheean, and Thompson could no longer separate themselves from the turmoil that surrounded

them. To tell that story, they broke long-standing taboos. From their circle came not just the first modern account of illness in Gunther's *Death Be Not Proud*—a memoir about his son's death from cancer—but the first no-holds-barred chronicle of a marriage: Sheean's *Dorothy and Red*, about Thompson's fractious relationship with Sinclair Lewis. Told with the immediacy of a conversation overheard, this revelatory book captures how the global upheavals of the

twentieth century felt up close.

"*Last Day on Mars* is thrillingly ambitious and imaginative. Like a lovechild of *Gravity* and *The Martian*, it's a rousing space opera for any age, meticulously researched and relentlessly paced, that balances action, science, humor, and most importantly, two compelling main characters in Liam and

Phoebe. A fantastic start to an epic new series."

"Emerson's writing explodes off the page in this irresistible space adventure, filled with startling plot twists, diabolical aliens, and (my favorite!) courageous young heroes faced with an impossible task."

—Lisa McMann, *New York Times* bestselling author of the *Unwanteds* series *It is Earth year 2213*—but, of course, there is no

Earth anymore. Not since it was burned to a cinder by the sun, which has mysteriously begun the process of going supernova. The human race has fled to Mars, but this was only a temporary solution while we have prepared for a second trip: a one-hundred-fifty-year journey to a distant star, our best guess at where we might find a new home. Liam Saunders-Chang is one of the last humans left on Mars. The son of two scientists who have been racing against time to

create technology vital to humanity's survival, Liam, along with his friend Phoebe, will be on the last starliner to depart before Mars, like Earth before it, is destroyed. Or so he thinks. Because before this day is over, Liam and Phoebe will make a series of profound discoveries about the nature of time and space and find out that the human race is just one of many in our universe locked in a dangerous struggle for survival.

written in order to define the political right v. the left; conservative v. liberal. The fact is, it is not that complicated. There are basic principles from which each philosophy draws its roots. Examining these basics in light of historical events clearly illustrates the differences in the philosophies. Problem is, many educators, journalists, and politicians would prefer that the populace not look too closely at the underpinnings of their political beliefs. Obfuscation of historical

facts and robotic sloganeering are their weapons. This book clearly defines the basic philosophical principles that underlie the right and the left. The reader is then shown how some of the modern world's most notorious regimes were squarely rooted in one of those philosophies. The question then is: Though you may be kind and gentle and a lover of peace, do your political beliefs share the same roots as the likes of Adolph Hitler? First In, Last Out

These were the athletes in the Olympic marathon. So how did he end up with a bronze

medal? How did he win the London Marathon? And why does he still hold the English record for the distance? In this remarkable autobiography he explains how “how someone who was almost bottom of the class when he first went to school, and even worse at sport, eventually turned himself into a genuinely world-class athlete, competing in top marathons all over the world, and genuinely going from last to first. As well as the enthralling life story of one of our finest distance runners, this

book is a wonderfully clear and inspiring piece of life coaching for anyone who wants to make the most of their talents. But more than this, as Spedding says at the start, ‘I believe that on occasions you can create the circumstances in which you can perform at a higher level than your talent says you can’. Spedding's own story, and his chronicle of the big races he excelled in, proves it's true. “For anyone aspiring to run a marathon, or indeed anyone who wants to set

themselves a goal they think beyond their reach” and achieve it “this is an essential book. *Last and First Men* Random House New York Times bestselling sportswriter John Feinstein exposes the real “March Madness”—behind the scenes at the Final Four basketball tournament.
