BALLARD EVERETT

Interpreting Primo Levi Bloomsbury Publishing
 Primo Levi (1919–1987) was an Italian chemist, writer, and Holocaust survivor who used a combination of testimony, essays, and creative writing to explore crucial themes related to the Shoah. His voice is among the most important to emerge from this dark chapter in human history. In *Primo Levi and the Identity of a Survivor*, Nancy Harrowitz examines the complex role that Levi's Jewish identity played in his choices of how to portray his survival, as well as in his exposition of topics such as bystander complicity. Her analysis uncovers a survivor's shame that deeply influenced the personas he created to recount his experiences. Exploring a range of Levi's works, including *Survival at Auschwitz* and lesser-known works of fiction and poetry, she illustrates key issues within his development as a writer. At the heart of Levi's discourse, Harrowitz argues, lies a complex interplay of narrative modes that reveals his brilliance as a theorist of testimony.  A Penguin Classic In the final days of World War II, a courageous band of Jewish partisans makes its way from Russia to Italy, moving toward the ultimate goal of Palestine. Based on a true story, *If Not Now, When?* chronicles their adventures as they wage a personal war of revenge against the Nazis: blowing up trains, rescuing the last victims of concentration camps, scoring victories in the face of unspeakable devastation. Primo Levi captures the landscape and the people of Eastern Europe in vivid detail, depicting as well the terrible bleakness of war-ridden Europe. But finally, what he gives us is a tribute to the strength and ingenuity of the human spirit. For more than seventy years, Penguin has been the leading publisher of classic literature in the English-speaking world. With more than 1,800 titles, Penguin Classics represents a global bookshelf of the best works throughout history and across genres and disciplines. Readers trust the series to provide authoritative texts enhanced by introductions and notes by distinguished scholars and contemporary authors, as well as up-to-date translations by award-winning translators. **I sommersi e i salvati** Simon and Schuster
 "Four major Italian writers raised in the shadow of fascism - Cesare Pavese, Primo Levi, Natalia

Ginzburg and Francesca Sanvitale - are the focus of this examination of the 'unsaid' in modern Italian narrative. Post-war and free of official censorship, these writers nonetheless show signs of constraint and omission in their work. Are the gaps a form of concealment? In this lucid and wide-ranging study, which embraces key areas of modern literary investigation - Holocaust writing, political guilt, autobiography, feminism and film theory - the author addresses the question of self-censorship and traces its course in contemporary Italian writing."

 Vent'anni fa rientrava drammaticamente nel mondo dei "sommersi" un personaggio unico nella storia del nostro Paese, uno degli sparuti "salvati" che aveva trovato la forza di testimoniare i drammi del ventesimo secolo: Primo Levi. Nel ventesimo anniversario della scomparsa Firenze University Press ha deciso di rivivificare la sua lezione con un omaggio che non vuol essere celebrazione, bensì pausa di riflessione per riascoltare le parole di questo grande scrittore,

atomizzate nel mondo intero originando germi di memoria auspicabilmente universali al pari dei segni matematici e geometrici o delle formule chimiche da lui tanto amati. Voci dal mondo per Primo Levi. In memoria, per la memoria curato da Luigi Dei, docente di chimica fisica dell'Ateneo fiorentino, consta di quindici contributi di dimensioni circoscritte realizzati da un insieme multiforme e poliedrico di autori, sia a livello di provenienza geografica che di formazione e professione.

What imaginaries, tropes, and media have shaped how we theorize? The Mark of Theory argues that inscription constitutes one of the master metaphors of contemporary theory. As a trope that draws on a wide array of practices of marking, from tattooing to circumcision, from photographic imprints and phonographic grooves to marks on a page, inscription provides an imaginary that orients and irritates theoretical thought. Tracing inscriptive imaginaries from the late nineteenth century to today, The Mark of Theory offers a wide-ranging conceptual genealogy of contemporary thought. Navigating poststructuralism's attention to figurative language as well as media theory's attention to objects, phenomena, and practices of mediation, the book works through core questions for how we theorize. Across a range of disciplines and scholarly conversations—from literature and media to anthropology, race and gender, art, psychoanalysis, sound, and ultimately ethics—sites of inscription come to constitute the past legacy of a thought to come, a prehistory of our current moment. In focusing on materiality and mediation The Mark of Theory shows how inscriptive practices shape conceptual thought, as well as political and ethical choices. By contextualizing the fraught relationship between materiality and signification, The Mark of Theory lays the ground for a politics of theory that begins there where theory and politics are no longer conflated.

Quali sono le strutture gerarchiche di un sistema autoritario e quali le tecniche per annientare la personalità di un individuo ? Quali rapporti si creano fra oppressori ed oppressi ? Chi sono gli esseri che abitano la zona grigia "della collaborazione" ? Come si costruisce un mostro ? Era possibile capire dall'interno la logica della macchina dello sterminio? Era possibile ribellarsi ? e come funziona la memoria di un'esperienza estrema ? A questi interrogativi risponde questo libro di Levi sui lager nazisti.

Tackling important philosophical questions on modernity – what it is, where it begins and when it

ends – Przemyslaw Tacik challenges the idea that modernity marks a particular epoch, and historicises its conception to offer a radical critique of it. His deconstruction-informed critique collects and assesses reflections on modernity from major philosophers including Hegel, Heidegger, Lacan, Arendt, Agamben, and Žižek. This analysis progresses a new understanding of modernity intrinsically connected to the growth of sovereignty as an organising principle of contemporary life. He argues that it is the idea of 'modernity', as a taken-for-granted era, which is positioned as the essential condition for making linear history possible, when it should instead be history, in and of itself, which dictates the existence of a particular period. Using Hegel's notion of 'spirit' to trace the importance of sovereignty to the conception of the modern epoch within German idealism, Tacik traces Hegel's influence on Heidegger through reference to the 'star' in his late philosophy which represents the hope of overcoming the metaphysical poverty of modernity. This line of thought reveals the necessity of a paradigm shift in our understanding of modernity that speaks to contemporary continental philosophy, theories of modernity, political theory, and critical re-assessments of Marxism.

Pained Screams from Camps Cambridge University Press

This book analyzes Byzantine examples of witness literature, a genre that focuses on eyewitness accounts written by slaves, prisoners, refugees, and other victims of historical atrocity. It focuses on such episodes in three nonfictional texts – John Kaminiates' Capture of Thessaloniki (904), Eustathios of Thessaloniki's Capture of Thessaloniki (1186), and Niketas Choniates' History (ca. 1204-17) – and the three extant twelfth-century Komnenian novels to consider how the authors' positions as both eyewitness and victim require an interpretive method that distinguishes witness literature from other kinds of writing about the past. Drawing on theoretical developments in the fields of Holocaust and Genocide Studies (such as Giorgio Agamben's homo sacer and Michel Foucault's biopolitics) and comparisons with modern examples (Elie Wiesel's Night and Primo Levi's If This is a Man), Witness Literature emphasizes the affective, subjective, and experiential in medieval Greek historical writing.

A Philosophy of Tragedy explores the tragic condition of man in modernity. Nietzsche knew it, but so have countless characters in literature: that the modern age places us squarely before the reflection of our own tragic condition, our existence characterized by utmost contingency, homelessness, instability, unredeemed suffering, and broken morality. Christopher Hamilton examines the works of philosophers, writers, and playwrights to offer a stirring account of our tragic condition, one that explores the nature of philosophy and the ways it has understood itself and its role to mankind. Ranging from the debate over the death of the tragedy to a critique of modern virtue ethics, from a new interpretation of the evil of Auschwitz to a look at those who have seen our tragic state as inherently inconsolable, he shows that tragedy has been a crucial part of the modern human experience, one from which we shouldn't avert our eyes.

The Cambridge Companion to Primo Levi I sommersi e i salvatiThe Drowned and the Saved

One of twentieth-century Italy's greatest thinkers, Primo Levi (1919-1987) started reflecting on the Holocaust almost immediately after his return home from the year he survived in Auschwitz. Levi's powerful Holocaust testimonials reveal his preoccupation with processes of translation, in the form of both embedded and book-length renderings of texts relevant to Holocaust survival. In Arduous Tasks, Lina N. Insana demonstrates how translation functions as a metaphor for the transmission of Holocaust testimony and broadens the parameters of survivor testimony. The first book to study Levi and translation, Arduous Tasks overcomes the conventional views of the separation between his own personal memoirs and his translations by stressing the centrality of translation in Levi's entire corpus. Examining not only the testimonial nature of his work, Insana also discusses the transgressive and performative aspects of transmission in his writings. Arduous Tasks is a superb and innovative study on the importance of translation not only to Levi, but also to Holocaust studies in general.

A New Philosophy of Modernity and Sovereignty SUNY Press

Primo Levi, Holocaust survivor and renowned memoirist, is one of the most widely read writers of post-World War II Italy. His works are characterized by the lean, dispassionate eloquence with

which he approaches his experience of incarceration in Auschwitz. His memoirs--as well as his poetry and fiction and his many interviews--are often taught in several fields, including Jewish studies and Holocaust studies, comparative literature, and Italian language and literature, and can enrich the study of history, psychology, and philosophy. The first part of this volume provides instructors with an overview of the available editions, anthologies, and translations of Levi's work and identifies other useful classroom aids, such as films, music, and online resources. In the second part, contributors describe different approaches to teaching Levi's work. Some, in presenting Survival in Auschwitz, The Reawakening, and The Drowned and the Saved, look at the place of style in Holocaust testimony and the reliability of memory in autobiography. Others focus on questions of translation, complicated by the untranslatable in the language and experiences of the concentration camps, or on how Levi incorporates his background as a chemist into his writing, most clearly in The Periodic Table.

A Civil War is a history of the wartime Italian Resistance, recounted by a historian who took part in the struggle against Mussolini's Fascist Republic. Since its publication in Italy, Claudio Pavone's masterwork has become indispensable to anyone seeking to understand this period and its continuing importance for the nation's identity. Pavone casts a sober eye on his protagonists' ethical and ideological motivations. He uncovers a multilayered conflict, in which class antagonisms, patriotism and political ideals all played a part. A clear understanding of this complexity allows him to explain many details of the post-war transition, as well as the legacy of the Resistance for modern Italy. In addition to being a monumental work of scholarship, A Civil War is a folk history, capturing events, personalities and attitudes that were on the verge of slipping entirely out of recollection to the detriment of Italy's understanding of itself and its past.

In his final book before his death, Primo Levi returns once more to his time at Auschwitz in a moving meditation on memory, resiliency, and the struggle to comprehend unimaginable tragedy. Drawing on history, philosophy, and his own personal experiences, Levi asks if we have already begun to forget about the Holocaust. His last book before his death, Levi returns to the subject that would define his reputation as a writer and a witness. Levi breaks his book into eight essays, ranging from topics like the unreliability of memory to how violence twists both the victim and the victimizer. He shares how difficult it is for him to tell his experiences with his children and friends. He also debunks the myth that most of the Germans were in the dark about the Final Solution or that Jews never attempted to escape the camps. As the Holocaust recedes into the past and fewer and fewer survivors are left to tell their stories, The Drowned and the Saved is a vital first-person testament. Along with Elie Wiesel and Hannah Arendt, Primo Levi is remembered as one of the most powerful and perceptive writers on the Holocaust and the Jewish experience during World War II. This is an essential book both for students and literary readers. Reading Primo Levi is a lesson in the resiliency of the human spirit.

A Centaur in Auschwitz Penguin

"Elegant, beautifully written literary criticism, examining how eight major writers—"From Tolstoy to Primo Levi"—dealt with death in their fiction." —The Wall Street Journal "All art and the love of art," Victor Brombert writes at the beginning of the deeply personal Musings on Mortality, "allow us to negate our nothingness." As a young man returning from World War II, Brombert came to understand this truth as he immersed himself in literature. Death can be found everywhere in literature, he saw, but literature itself is on the side of life. With delicacy and penetrating insight, Brombert traces the theme of mortality in the work of a group of modern writers: Leo Tolstoy, Thomas Mann, Franz Kafka, Virginia Woolf, Albert Camus, Giorgio Bassani, J. M. Coetzee, and Primo Levi. Illuminating their views on the meaning of life and the human condition, Brombert ultimately, reveals that by understanding how these authors wrote about mortality, we can grasp the full scope of their literary achievement and vision. Winner of the Robert Penn Warren-Cleath Brooks award for outstanding literary criticism. "Suffused with wisdom and argued with the strong hand of a weathered and feeling literary scholar. . . . It is hard to imagine such thematic criticism being done better than here. What a beautiful book." —Thomas Harrison, author of 1910: The Emancipation of Dissonance "A brave and eloquent book." — Peter Brooks, author of Henry James Goes to Paris "The simplicity and directness of Brombert's style gives his discussion of the philosophical and aesthetic underpinnings of the works under scrutiny great clarity." —Publishers Weekly "Brombert's eloquently written book is for serious lovers of literature." —Library Journal *The Mark of Theory* Camden House
