REILLY MONROE

Rules for Radicals Macmillan

Archival material from the 1990s underground movement “preserves a vital history of feminism” (Ann Cvetkovich, author of *Depression: A Public Feeling*). For the past two decades, young women (and men) have found their way to feminism through Riot Grrrl. Against the backdrop of the culture wars and before the rise of the Internet or desktop publishing, the zine and music culture of the Riot Grrrl movement empowered young women across the country to speak out against sexism and oppression, creating a powerful new force of liberation and unity within and outside of the women’s movement. While feminist bands like Bikini Kill and Bratmobile fought for their place in a male-dominated punk scene, their members and fans developed an extensive DIY network of activism and support. The Riot Grrrl Collection reproduces a sampling of the original zines, posters, and printed matter for the first time since their initial distribution in the 1980s and ‘90s, and includes an original essay by Johanna Fateman and an introduction by Lisa Darms.

The Age of Earthquakes Vintage

Mirah Bolender's fast-paced, adventure fantasy debut, *City of Broken Magic*, features a bomb squad that defuses magic weapons. Five hundred years ago, magi created a weapon they couldn't control. An infestation that ate magic—and anything else it came into contact with. Enemies and allies were equally filling. Only an elite team of non-magical humans, known as sweepers, can defuse and dispose of infestations before they spread. Most die before they finish training. Laura, a new team member, has stayed alive longer than most. Now, she's the last—and only—sweeper standing between the city and a massive infestation. *Chronicles of Amicae City of Broken Magic / The Monstrous Citadel / Fortress of Magi*

Anarchism has been both a vision of a peaceful, cooperative society—and an ideology of revolutionary terror. Since the term itself—anarchism—is a negation, there is a great deal of disagreement on what the positive alternative would look like. The black flag comes in many colors. The *Anarchist Handbook* is an opportunity for all these many varied voices to speak for themselves, from across the decades. These were human beings who saw things differently from their fellow men. They fought and they loved. They lived and they died. They disagreed on much, but they all shared one vision: Freedom.

Red Skin, White Masks Liveright Publishing

From the duo behind the massively successful and award-winning podcast *Stuff You Should Know* comes an unexpected look at things you thought

you knew. Josh Clark and Chuck Bryant started the podcast *Stuff You Should Know* back in 2008 because they were curious—curious about the world around them, curious about what they might have missed in their formal educations, and curious to dig deeper on stuff they thought they understood. As it turns out, they aren't the only curious ones. They've since amassed a rabid fan base, making *Stuff You Should Know* one of the most popular podcasts in the world. Armed with their inquisitive natures and a passion for sharing, they uncover the weird, fascinating, delightful, or unexpected elements of a wide variety of topics. The pair have now taken their near-boundless "whys" and "hows" from your earbuds to the pages of a book for the first time—featuring a completely new array of subjects that they've long wondered about and wanted to explore. Each chapter is further embellished with snappy visual material to allow for rabbit-hole tangents and digressions—including charts, illustrations, sidebars, and footnotes. Follow along as the two dig into the underlying stories of everything from the origin of Murphy beds, to the history of facial hair, to the psychology of being lost. Have you ever wondered about the world around you, and wished to see the magic in everyday things? Come get curious with *Stuff You Should Know*. With Josh and Chuck as your guide, there's something interesting about everything (...except maybe jackhammers).

The Anarchist Kosher Cookbook See Sharp Press

Little is more dangerous to U.S. forces fighting insurgents in hot spots around the world than improvised explosive devices. It's the weapon of choice for under-funded forces aimed to attack American soldiers with low risk to themselves. This official U.S. manual is the complete guide to using and dismantling boobytraps. Here you can learn how to assemble, use, detect, and remove boobytraps and demolition items in almost any situation. With intricate and detailed diagrams, you'll discover how army troops can disguise boobytraps in household items such as irons, teapots, and televisions; in structures such as window frames, stairways, and wooden beams; and in outdoor areas, in bushes and underground. Find out how boobytraps work, why they are used in the army, and the tactics behind their set-up. Learn the mechanics of the various types of firing devices, detonators, fuses, cords, adapters, blasting caps, and lighters. Also included are detailed instructions for detecting and removing boobytraps. The U.S. Army Guide to Boobytraps explains the responsibilities and safety issues that should be thoroughly understood by anyone using any weapon. Any military enthusiast will appreciate the level of detail this field manual offers.

With fiercely detailed information and visuals provided by the U.S. Army, U.S. Army Special Forces Guide to Unconventional Warfare is meant for experienced soldiers and novices alike. With this guide, you will be able to apply its material to understand and create initiators, igniters, and incendiary materials. The vast table of contents includes coverage on napalm, gelled gasoline, fire fudge, silver nitrate, concentrated sulfuric acid, fuse cords, delay mechanisms, and spontaneous combustion. Filled with special forces secrets, U.S. Guide to Unconventional Warfare is an invaluable tool for any provocateur-in-training and an invitation to look at how our special forces are fighting our enemies overseas. Skyhorse Publishing is proud to publish a range of books for readers interested in military tactics and skills. We publish content provided by or of interest to the U.S. Army, Army Rangers, the U.S. Navy, Navy SEALs, the U.S. Air Force, the U.S. Marine Corps, and the Department of Defense. Our books cover topics such as survival, emergency medicine, weapons, guns, weapons systems, hand-to-hand combat, and more. While not every title we publish becomes a New York Times bestseller or a national bestseller, we are committed to publishing books on subjects that are sometimes overlooked by other publishers and to authors whose work might not otherwise find a home.

Mantrapping Watson-Guptill

If you had one chance to change history...Where would you go? What would you do? Who would you kill? In *Time and Time Again*, international best-selling author Ben Elton takes readers on a thrilling journey through early 20th-Century Europe. It's the first of June 1914 and Hugh Stanton, ex-soldier and celebrated adventurer is quite literally the loneliest man on earth. No one he has ever known or loved has been born yet. Perhaps now they never will be. Stanton knows that a great and terrible war is coming. A collective suicidal madness that will destroy European civilization and bring misery to millions in the century to come. He knows this because, for him, that century is already history. Somehow he must change that history. He must prevent the war. A war that will begin with a single bullet. But can a single bullet truly corrupt an entire century? And, if so, could another single bullet save it?

Anarchist Essays Reputation Books

A highly provocative, mindbending, beautifully designed, and visionary look at the landscape of our rapidly evolving digital era. 50 years after Marshall McLuhan's ground breaking book on the influence of technology on culture in *The Medium is the Massage*, Basar, Coupland and Obrist extend the analysis to today, touring the world that's redefined by the Internet, decoding and explaining what they call the 'extreme present'. *THE AGE OF EARTHQUAKES* is a quick-fire paperback, harnessing the images, language and perceptions of our unfurling digital lives. The authors offer five characteristics of the Extreme Present (see below); invent a glossary of new words to describe how we are truly feeling today; and 'mindsource' images and illustrations from over 30 contemporary artists. Wayne Daly's striking graphic design imports the surreal, juxtaposed, mashed mannerisms of screen to page. It's like a culturally prescient, all-knowing email to the reader: possibly the best email they will ever read. Welcome to *THE AGE OF EARTHQUAKES*, a paper portrait of Now, where the Internet hasn't just changed the structure of our brains these past few years, it's also changing the structure of the planet. This is a new history of the world that fits perfectly in your back pocket. 30+ artists contributions: With contributions from Farah Al Qasimi, Ed Atkins, Alessandro Bavo, Gabriele Basilico, Josh Bitelli, James Bridle, Cao Fei, Alex Mackin Dolan, Thomas Dozol, Constant Dullaart, Cecile B Evans, Rami Farook, Hans-Peter Feldmann, GCC, K-Hole, Liam Gillick, Dominique Gonzalez-Foerster, Eloise Hawser, Camille Henrot, Hu Fang, K-Hole, Koo Jeong-A, Katja Novitskova, Lara Ogel, Trevor Paglen, Yuri Patterson, Jon Rafman, Bunny Rogers, Bogosi Sekhukhuni, Taryn Simon, Hito Steyerl, Michael Stipe, Rosemarie Trockel, Amalia Ulman, David Weir, Trevor Yeung.

The World Doesn't Require You: Stories U of Minnesota Press

From the cofounder of *Food Not Bombs*, an action-oriented guide to anarchism, social change, and vegan cooking Unlike the original *Anarchist Cookbook*, which contained instructions for the manufacture of explosives, this version is both a cookbook in the literal sense and also a "cookbook" of

recipes for social and political change. The coffee-table-sized book is divided into three sections: a theoretical section explaining what anarchism is and what it isn't; information on organizational principles and tactics for social and political change; and finally, numerous tasty vegan recipes from one of the cofounders of the international *Food Not Bombs* movement.

Expedient Homemade Firearms Simon and Schuster

This is American history they don't teach you in class: Discover the "fascinating, funny" stories of the states that never were, from Texlahoma to West Florida (The New Yorker) Everyone knows the fifty nifty united states—but what about the hundreds of other statehood proposals that never came to pass? *Lost States* is a tribute to such great unrealized dreams as West Florida, Texlahoma, Montezuma, Rough and Ready, and Yazoo. Some of these states came remarkably close to joining the Union. Others never had a chance. Many are still trying. Consider: Frontier legend Daniel Boone once proposed a state of Transylvania in the Appalachian wilderness. His plan was resurrected a few years later with the new name of Kentucky. Residents of bucolic South Jersey wanted to secede from their urban north Jersey neighbors and form the fifty-first state. The Gold Rush territory of Nataqua could have made a fine state—but since no women were willing to live there, the settlers gave up and joined California. Each story offers a fascinating glimpse at the nation we might have become—along with plenty of absurd characters, bureaucratic red tape, and political gamesmanship. Accompanying these tales are beautifully rendered maps detailing the proposed state boundaries, plus images of real-life artifacts and ephemera.

Welcome to the world of *Lost States!*

[The Anarchist Handbook](#) Penguin UK

The author provides clear, step-by-step instructions for and expedient 9mm submachine gun. It is easily constructed from readily available materials, primarily steel tubing; it does not require a lathe and milling machine and it can be built by just about anyone in about a week. For Academic Study Only

The Anarchist's Design Book Insomniac Press

The *Anarchist Cookbook* will shock, it will disturb, it will provoke. It places in historical perspective an era when "Turn on, Burn down, Blow up" are revolutionary slogans of the day. Says the author "This book... is not written for the members of fringe political groups, such as the Weatherman, or The Minutemen. Those radical groups don't need this book. They already know everything that's in here. If the real people of America, the silent majority, are going to survive, they must educate themselves. That is the purpose of this book." In what the author considers a survival guide, there is explicit information on the uses and effects of drugs, ranging from pot to heroin to peanuts. There i detailed advice concerning electronics, sabotage, and surveillance, with data on everything from bugs to scramblers. There is a comprehensive chapter on natural, non-lethal, and lethal weapons, running the gamut from cattle prods to sub-machine guns to bows and arrows.

Finalist • PEN / Jean Stein Book Award Longlisted • Aspen Words Literary Prize Best Books of the Year: Washington Post, NPR, Buzzfeed and Entropy Best Short Story Collections of the Year: Kirkus Reviews, Library Journal, the New York Public Library, and Electric Literature Welcome to Cross River, Maryland, where Rion Amilcar Scott creates a mythical universe peopled by some of the most memorable characters in contemporary American fiction. Set in the mythical Cross River, Maryland, *The World Doesn't Require You* heralds "a major unique literary talent" (Entertainment Weekly). Established by the leaders of America's only successful slave revolt in the mid-nineteenth century, the town still evokes the rhythms of its founding. With lyrical prose and singular dialect, Rion Amilcar Scott pens a saga that echoes the fables carried down for generations—like the screecher birds who swoop down for their periodic sacrifice, and the water women who lure men to wet death. Among its residents—wildly spanning decades, perspectives, and species—are David Sherman, a struggling musician who just happens to be God's last son; Tyrone, a ruthless, yet charismatic Ph.D. candidate, whose dissertation about a childhood game ignites mayhem in the neighboring, once-segregated town of Port Yooga; and Jim, an all-too-obedient robot who obeys his Master. Culminating with an explosive novella, *The World Doesn't Require You* is a "leap into a blazing new level of brilliance" (Lauren Groff) that affirms Rion Amilcar Scott as a writer whose storytelling gifts the world very much requires.

[The Time Garden](#) Simon and Schuster

The Sixth Sense meets *Planet of the Apes* in a moving science fiction novel set so far in the future, humanity is gone and forgotten in Lawrence M. Schoen's *Barsk: The Elephants' Graveyard* An historian who speaks with the dead is ensnared by the past. A child who feels no pain and who should not exist sees the future. Between them are truths that will shake worlds. In a distant future, no remnants of human beings remain, but their successors thrive throughout the galaxy. These are the offspring of humanity's genius-animals uplifted into walking, talking, sentient beings. The Fant are one such species: anthropomorphic elephants ostracized by other races, and long ago exiled to the rainy ghetto world of Barsk. There, they develop medicines upon which all species now depend. The most coveted of these drugs is koph, which allows a small number of users to interact with the recently deceased and learn their secrets. To break the Fant's control of koph, an offworld shadow group attempts to force the Fant to surrender their knowledge. Jorl, a Fant Speaker with the dead, is compelled to question his deceased best friend, who years ago mysteriously committed suicide. In so doing, Jorl unearths a secret the powers that be would prefer to keep buried forever. Meanwhile, his dead friend's son, a physically challenged young Fant named Pizlo, is driven by disturbing visions to take his first unsteady steps toward an uncertain future.

U.S. Army Special Forces Guide to Unconventional Warfare Frances Lincoln

"This country's leading hell-raiser" (The Nation) shares his impassioned counsel to young radicals on how to effect constructive social change and know "the difference between being a realistic radical and being a rhetorical one." First published in 1971 and written in the midst of radical political developments whose direction Alinsky was one of the first to question, this volume exhibits his style at its best. Like Thomas Paine before him, Alinsky was able to combine, both in his person and his writing, the intensity of political engagement with an absolute insistence on rational political discourse and adherence to the American democratic tradition.

Anarchist Cook Book 2000 Quirk Books

What will you do when they come to take your guns? Earl Turner and his fellow patriots face this question and are forced underground when the U.S. government bans the private possession of firearms and stages the mass Gun Raids to round up suspected gun owners. The hated Equality Police begin hunting them down, but the patriots fight back with a campaign of sabotage and assassination. An all-out race war occurs as the struggle escalates. Turner and his comrades suffer terribly, but their ingenuity and boldness in devising and executing new methods of guerrilla warfare lead to a victory of cataclysmic intensity and worldwide scope. The FBI has labeled The Turner Diaries "the bible of the racist right." If the government had the power to ban books, this one would be at the top of its list. The Turner Diaries is the most controversial book in America today-and it's a book unlike any you've ever read!

They thought they were safe . . . The Sanctum is a luxurious, self-sustaining survival condominium situated underground. It's a plush bolt-hole for the rich and paranoid - a place where they can wait out the apocalypse in style. When a devastating super-flu virus hits, several families race to reach The Sanctum. All have their own motivations for entering. All are hiding secrets. But when the door locks and someone dies, they realize the greatest threat to their survival may not be above ground - it may already be inside . . . Under Ground is a page-turning locked-room mystery from the combined talents of Sarah Lotz and Louis Greenberg, writing as S. L. Grey. It is perfect for fans of Under the Dome by Stephen King and films such as The Hole and The Descent (with a pinch of And Then There Were None by Agatha Christie).
