chapters that were omitted from the original paperback release. Less than fifty thousand years ago mankind had no art, no religion, no sophisticated symbolism, no innovative thinking. Then, in a dramatic and electrifying change, described by scientists as "the greatest riddle in human history," all the skills and qualities that we value most highly in ourselves appeared already fully formed, as though bestowed on us by hidden powers. In *Supernatural* Graham Hancock sets out to investigate this mysterious "before and after moment" and to discover the truth about the influences that gave birth to the modern human mind.

His quest takes him on a detective journey from the stunningly beautiful painted caves of prehistoric France, Spain, and Italy to rock shelters in the mountains of South Africa, where he finds extraordinary Stone Age art. He uncovers clues that lead him to the depths of the Amazon rainforest to drink the powerful hallucinogen Ayahuasca with shamans, whose paintings contain images of "supernatural beings" identical to the animal-human hybrids depicted in prehistoric caves. Hallucinogens such as mescaline also produce visionary encounters with exactly the same beings. Scientists at the cutting edge of consciousness

research have begun to consider the possibility that such hallucinations may be real perceptions of other "dimensions." Could the "supernaturals" first depicted in the painted caves be the ancient teachers of mankind? Could it be that human evolution is not just the "meaningless" process that Darwin identified, but something more purposive and intelligent that we have barely begun to understand?

Larry Niven created his popular "Magic Goes Away" universe in 1967, and it has been a source of delight and inspiration ever since. By asking the simple question, What if

magic were a finite resource?, Niven brought to life a mesmerizing world of wonder and loss, of hope and despair. The success of his first story collection, "The Magic Goes Away," birthed two sequel anthologies, "The Magic May Return" and "More Magic." All three volumes are collected here for the first time, with stories by Niven himself, as well as contributions by such luminaries of fantasy as Roger Zelazny, Fred Saberhagen, Steven Barnes, and Poul Anderson. Featuring a brand-new introduction by Larry Niven, "The Magic Goes Away Collection" gives readers insight into the breathtaking world of Niven and Jerry Pournelle's "The Burning City" and

"Burning Tower" and stands on its own as a landmark in fantasy fiction

New commentaries on Aleister Crowley's Book of the Law reveal how it is connected to both Right- and Left-Hand Paths • Examines each line of the Book of the Law in the light of modern psychology, Egyptology, Gurdjieff's teachings, and contemporary Left-Hand Path thought • Explores Crowley's identification with the First Beast of Revelations as well as his adoption of the Loki archetype for becoming a vessel of love for all humanity • Recasts the Cairo Working as a text of personal sovereignty and a relevant tool for

personal transformation • Includes commentary on the Book of the Law by Dr. Michael A. Aquino, who served as High Priest of the Temple of Set from 1975 to 1996 Received by Aleister Crowley in April 1904 in Cairo, Egypt, the Book of the Law is the most provocative record of magical working in several hundred years, affecting not only organizations directly associated with Crowley such as the Ordo Templi Orientis but also modern Wicca, Chaos Magic, and the Temple of Set. Boldly defying Crowley's warning not to comment on the Book of the Law, Ipsissimus Don Webb provides in-depth interpretation from both Black and White Magical

perspectives, including commentary from Dr. Michael A. Aquino, who served as High Priest of the Temple of Set from 1975 to 1996. Webb examines each line of the Book in the light of modern psychology, Egyptology, existentialism, and competing occult systems such as the teachings of G. I. Gurdjieff and contemporary Left-Hand Path thought. Discarding the common image of Crowley formulated in a spiritually unsophisticated time when the devotee of the Left-Hand Path was dismissed as a selfish evil doer, Webb unveils a new side of Crowley based on his adoption of the Loki archetype and his aim to become a vessel of love for all humanity. In so doing,

he shows how the Book of the Law is connected to both Right- and Left-Hand Paths and reveals how Crowley's magical path of mastery over the self and Cosmos overthrew the gods of old religion, which had kept humanity asleep to dream the nightmare of history. Providing in-depth analysis of Crowley's sources and his self-identification with the First Beast of Revelation from a profound esoteric perspective, Webb takes his views out of the Golden Dawn matrix within which he received the Book of the Law and radically recasts the Cairo Working as a text of personal sovereignty and a relevant tool for personal transformation.

*The Divine Spark: A Graham Hancock Reader Crown*  
The Instant New York Times Bestseller! Was an advanced civilization lost to history in the global cataclysm that ended the last Ice Age? Graham Hancock, the internationally bestselling author, has made it his life's work to find out--and in *America Before*, he draws on the latest archaeological and DNA evidence to bring his quest to a stunning conclusion. We've been taught that North and South America were empty of humans until around 13,000 years ago - amongst the last great landmasses on earth to have been settled by our ancestors. But new discoveries have radically reshaped this

long-established picture and we know now that the Americas were first peopled more than 130,000 years ago - many tens of thousands of years before human settlements became established elsewhere. Hancock's research takes us on a series of journeys and encounters with the scientists responsible for the recent extraordinary breakthroughs. In the process, from the Mississippi Valley to the Amazon rainforest, he reveals that ancient "New World" cultures share a legacy of advanced scientific knowledge and sophisticated spiritual beliefs with supposedly unconnected "Old World" cultures. Have archaeologists focused for too long only on the

"Old World" in their search for the origins of civilization while failing to consider the revolutionary possibility that those origins might in fact be found in the "New World"? America Before: The Key to Earth's Lost Civilization is the culmination of everything that millions of readers have loved in Hancock's body of work over the past decades, namely a mind-dilating exploration of the mysteries of the past, amazing archaeological discoveries and profound implications for how we lead our lives today.

With over 5 million copies sold worldwide of Fingerprints of the Gods, its New York Times bestselling sequel Magicians of the Gods brings new evidence supporting Hancock's thesis that a global cataclysm wiped out a great global civilization. On the heels of the very successful hardcover edition, Hancock returns with this paperback version including three new

chapters brimming with recent reporting of fresh scientific advances (ranging from DNA to astrophysics) that substantially support his case. Twenty years ago, Graham Hancock published *Fingerprints of the Gods* an astonishing, deeply controversial investigation of the mysteries of and the evidence for Earth's lost prehistoric civilization. Twenty years after this massive bestseller debuted, Hancock returns with its sequel, filled with completely new scientific and archaeological evidence. Since 2007, a host of new proof has come to light supporting his theories through new archaeological discoveries. He travels

to a wholly different set of ancient sites, including Gobekli Tepe, and brings entirely up to date and exciting material to the table for fans eagerly awaiting more evidence in favor of the prehistoric civilization. And, even more intriguing, he proposes an answer to the one question he could not answer in *Fingerprints* what caused this civilization to disappear. *Magicians* is poised perfectly for what his fans want to hear as well as for ushering in a new generation of readers.

### **Children of Blood**

**and Bone** Simon and Schuster

Graham Hancock's multi-million bestseller *Fingerprints of the Gods* remains an astonishing, deeply controversial, wide-ranging investigation of the mysteries of our past and the evidence for Earth's lost civilization. Twenty years on, Hancock returns with a book

filled with completely new, scientific and archaeological evidence, which has only recently come to light... The evidence revealed in this book shows beyond reasonable doubt that an advanced civilization that flourished during the Ice Age was destroyed in the global cataclysms between 12,800 and 11,600 years ago. Near the end of the last Ice Age 12,800 years ago, a giant comet that had entered the solar system from deep space thousands of years earlier, broke into multiple fragments. Some of these struck the Earth causing a global cataclysm on a scale unseen since the extinction of the dinosaurs. At least

eight of the fragments hit the North American ice cap, while further fragments hit the northern European ice cap. The impacts, from comet fragments a mile wide approaching at more than 60,000 miles an hour, generated huge amounts of heat which instantly liquidized millions of square kilometres of ice, destabilizing the Earth's crust and causing the global Deluge that is remembered in myths all around the world. A second series of impacts, equally devastating, causing further cataclysmic flooding, occurred 11,600 years ago, the exact date that Plato gives for the destruction and submergence of Atlantis. But there

were survivors - known to later cultures by names such as 'the Sages', 'the Magicians', 'the Shining Ones', and 'the Mystery Teachers of Heaven'. They travelled the world in their great ships doing all in their power to keep the spark of civilization burning. They settled at key locations - Gobekli Tepe in Turkey, Baalbek in the Lebanon, Giza in Egypt, ancient Sumer, Mexico, Peru and across the Pacific where a huge pyramid has recently been discovered in Indonesia. Everywhere they went these 'Magicians of the Gods' brought with them the memory of a time when mankind had fallen out of harmony with the universe and paid a heavy price. A memory and a warning

to the future... For the comet that wrought such destruction between 12,800 and 11,600 years may not be done with us yet. Astronomers believe that a 20-mile wide 'dark' fragment of the original giant comet remains hidden within its debris stream and threatens the Earth. An astronomical message encoded at Gobekli Tepe, and in the Sphinx and the pyramids of Egypt, warns that the 'Great Return' will occur in our time... Age of the Five Gods Trilogy #3, The Red Wheel/Weiser Powerful new evidence has emerged that supports Hancock's disturbing thesis of a massive global cataclysm in the window between 13,000 and 12,000

years ago, around the last Ice Age, that wiped out and destroyed almost all traces (except the 'fingerprints') of a great global civilisation of prehistoric antiquity. Hancock analyses the evidence emerging from popular science for events such as north America being struck by several pieces of a giant fragmenting comet, and the discovery in Turkey of an extraordinary 12,000 year-old megalithic site called Gobekli Tepe, on the scale of Stonehenge, but 7,000 years older than any of the great stone circles. Mysteries of this calibre drive the quest of Magicians of the Gods, each leading us to a labyrinth of further possibilities. Graham Hancock takes his

original intuition of two phases of construction much further, exploring and investigating many mysterious ancient sites high in the Andes. His research also takes him to the Amazon, a rain forest that has been managed and cultured by human beings for millenia. From the Amazon, Graham follows the trail east, along the Atlantic ocean to the west coast of Africa, through the Sahara and on to Egypt. Magicians of the Gods satisfies the intellect and inspires the imagination. It transports readers for years to come with realms of mystery, enchantment and extraordinary possibilities. Demigods and Magicians Penguin What secrets lie

beneath the deep blue sea? Underworld takes you on a remarkable journey to the bottom of the ocean in a thrilling hunt for ancient ruins that have never been found—until now. In this explosive new work of archaeological detection, bestselling author and renowned explorer Graham Hancock embarks on a captivating underwater voyage to find the ruins of a mythical lost civilization hidden for thousands of years beneath the world's oceans. Guided by cutting-edge science, innovative computer-mapping techniques, and the latest archaeological scholarship, Hancock examines the mystery at the end of the last Ice Age and delivers astonishing revelations

that challenge our long-held views about the existence of a sunken universe built on the ocean floor. Filled with exhilarating accounts of his own participation in dives off the coast of Japan, as well as in the Mediterranean, the Atlantic, and the Arabian Sea, we watch as Hancock discovers underwater ruins exactly where the ancient myths say they should be—submerged kingdoms that archaeologists never thought existed. You will be captivated by Underworld, a provocative book that is both a compelling piece of hard evidence for a fascinating forgotten episode in human history and a completely new explanation for the origins of civilization as

we know it.

**Civilization** Coronet In September of 2015 the visitors in Whitley Strieber's immortal bestseller *Communion* returned to his life. A *New World* details their powerful message: A

new world is coming...if we can take it. In 2018, the US Navy admitted that videos taken off the carrier Nimitz by pilots using ultra-sophisticated cameras were of unknown objects with incredible flight characteristics. Add to this the past seventy years of UFO evidence, and it is now undeniable that something unknown is flying around in our skies. But why are they here? There are millions of close encounter witnesses who would say that they are here for us, and have already been in contact with us for two generations, while the official world and the media have been in denial. In 1987, author Whitley Strieber published *Communion* about his own close encounter. It was met

with brutal skepticism...but not from other close encounter witnesses, who wrote him in the hundreds of thousands, telling of their own experiences. With these overwhelming accounts of alien encounters, Rice University in Houston, Texas, has archived these letters as a testimony that we are not alone. After thirty-three years of having them in his life, and an entirely new group of encounters starting in 2015, Whitley Strieber returns with a new vision of contact that will shatter all of our previous theories and beliefs and reveal the experience for what it is: the strangest, most powerful, and potentially most important thing that has ever happened to

mankind.
