**Nature Walk in the City**

John Wiley & Sons

A gentle introduction to the important topic of the environment. Crafted around a conversation between a grade-school-aged child and an adult, this inquiry-focused book using age-appropriate language and tone will help children shape their understanding of the natural world and how they participate in protecting it. Dr. Roberts starts the discussion with the types of pollution and trash that children might notice on a nature walk or a trip to the beach, how they are caused and how to work to improve things in their own lives and communities. The World Around Us series introduces children to complex cultural, social

and environmental issues they may encounter outside their homes, in an accessible way. Sidebars offer further reading for older children or care providers who have bigger questions. For younger children just starting to make these observations, the simple question-and-answer format of the main text will provide a foundation of knowledge on the subject matter.

Nature Walk is a book of verse and illustrations based on wildlife encounters and the sometimes quirky behaviour of birds, spiders, insects, crustaceans, marine life, snakes etc observed during regular photography shoots by the author. The inspiration for Nature Walk came from time spent observing creatures in their natural environment including coastal areas, rock pools, beaches, rivers, cliff tops, heathland, forested areas, suburban gardens and freshwater lakes on the far north coast of New South Wales, Australia, where the author lives and works. Karin Taylor is a visual artist, writer and photographer who's illustration style has been described as quirky, playful, unique, nostalgic and vibrant. Secret Seattle (Seattle Walk Report) Lerner Publications (Tm) Bringing chivalry back into our modern-day world, this book shows us how to inspire today's generation of young boys to pursue honor, courage, and compassion. In an age when respect and honor seem like distant and antiquated relics, how can we equip boys to pursue valor and courageously put the needs of others before their own? This book helps parents to inspire their boys by captivating their imagination and honoring their love for adventure. Heather Haupt explores how knights historically lived out various aspects of the knights' Code of Chivalry, as depicted in the French epic Song of Roland, and how boys can embody these same ideals now. When we issue the challenge and

give boys the reasons why it is worth pursuing, we step forward on an incredible journey towards raising the kind of boys who, just like the knights of old, make an impact in their world now and for the rest of their lives.
