Alice in Wonderland (also known as *Alice's Adventures in Wonderland*), from 1865, is the peculiar and imaginative tale of a girl who falls down a rabbit-hole into a bizarre world of eccentric and unusual creatures. Lewis Carroll's prominent example of the genre of "literary nonsense" has endured in popularity with its clever way of playing with logic and a narrative structure that has influence generations of fiction writing.

One Piece Pantheon

In the time of a devastating pandemic, seven women and three men withdraw to a country estate outside Florence to give themselves a diversion from the death around them. Once there, they decide to spend some time each day telling stories, each of the ten to tell one story each day. They do this for ten days, with a few other days of rest in between, resulting in the 100 stories of the *Decameron*. The *Decameron* was written after the Black Plague spread through Italy in 1348. Most of the tales did not originate with Boccaccio; some of them were centuries old already in his time, but Boccaccio imbued them all with his distinctive style. The stories run the gamut from tragedy to comedy, from lewd to inspiring, and sometimes all of those at once. They also provide a detailed picture of daily life in fourteenth-century Italy.

'What is a self and how can a self come out of inanimate matter?'

This is the riddle that drove Douglas Hofstadter to write this extraordinary book. In order to impart his original and personal view on the core mystery of human existence - our intangible sensation of 'I'-ness - Hofstadter defines the playful yet seemingly paradoxical notion of 'strange loop', and explicates this idea using analogies from many disciplines.
