The Magick of Aleister Crowley Weiser Books

In 1582, Dr. John Dee and Edward Kelley made magical contact with a number of spiritual entities who identified themselves as angels-- the same entities who communicated with Enoch and the patriarchs of the Old Testament. Over the next three years, they revealed to Dee and Kelley three distinct magickal systems of vision magick. Here, Lon Milo DuQuette introduces the origins of Enochian magick and offers the expert and novice alike the opportunity to see not only the big picture of the full system but also the practical means by which he or she can become attuned in the same step-by-step manner first prepared by Dee and Kelley.

The 30th Anniversary of the Classic Guide to Thelema, Aleister Crowley's Spiritual System of Ritual

Magick, with a New Introduction by the Author. This is the perfect introductory text for readers who wonder what the works—rather than the myth—of Aleister Crowley are all about. DuQuette begins by dispatching some of the myths that have surrounded Crowley's life and legend. He then explores the practice of rituals themselves, unpacking Crowley's often opaque writing and offering his own commentary. Step by step, and in plain English, he presents a course of study with examples of rituals and explanations of their significance. DuQuette also includes a survey of many of Crowley's original works with an extensive bibliography and endnotes. Formerly titled *The Magick of Thelema*, then released in a revised edition published in 2003, this Weiser Classics edition includes a new introduction by the author.

- Shares the history and meaning of Freemasonry and its symbols
- Offers thoughtful explorations of different areas of Masonic experience, drawing on esoteric doctrines and paralleling them with experiences found in daily life
- Provides simple exercises and practices to help internalize and personalize the lessons presented, including dreamwork, journaling, meditation, and prayer

practical guide, Mark Stavish details the spiritual lessons and rituals of Freemasonry as a step-by-step path of spiritual development and self-improvement for both Masons and non-Masons, men and women, alike. He explores the history and meaning of Freemasonry and its symbols—from its origins in the Temple of Solomon to the Medieval craft guilds to the Renaissance—and explains how the Craft promotes personal growth through the symbolic building of self and an inner Temple of Wisdom in much the same way that Masonry’s rituals symbolize the building of Solomon’s Temple in accordance with the mystical architectural instructions of Hiram. Drawing on esoteric doctrines, including the Qabala, alchemy, sacred geometry, John Dee’s angelic magic, and the secrets of the Gothic cathedral builders, each chapter addresses an area of the Masonic experience, paralleling them with experiences each of us finds in our own lives. The author provides simple practices to help internalize and personalize the lessons presented, including dreamwork, journaling, meditation, prayer, and understanding sacred architecture. The author also examines the crafting and use of the spiritual and symbolic tools of Freemasonry, such as the trestle or tracing board and the Chamber of Reflection. Providing the tools to make the Craft an initiatic experience of self-improvement, the author shows that, ultimately, the Masonic experience is the human quest for self-realization and self-expression, so that we each may find our place in the Temple of Wisdom.

This book presents important topics regarding the more mystical trend of Kabbalah—the ecstatic Kabbalah. It includes the mystical union, the world of imagination, and concentration as a spiritual technique. The emphasis in the text is on the interaction between the "original" Spanish stage of Kabbalah and Muslim mysticism in the East, mainly in the Galilee. The influence of the Kabbalistic-Sufic synthesis on the later developments of Jewish mysticism is traced, thereby providing a more precise understanding of the history of Kabbalah as an interplay between the theosophical and ecstatic mystical experiences.

The 2nd Century CE Indian philosopher Nagarjuna founded the Madhyamika (Middle Way) school of Mahayana Buddhism, which strongly influenced Chinese, Korean and Japanese Buddhism, as well as Tibetan Buddhism. His writings include a series of arguments purporting to show the illogic of logic, the absurdity of reason. He considers this the way to verbalize and justify the Buddhist

doctrine of “emptiness” (Shunyata). The present essay demonstrates the many sophistries involved in Nagarjuna’s arguments.

Studies in Ecstatic Kabbalah Weiser Books

The Tree of Life forms the ground-plan of the Western Esoteric Tradition and is the system upon which pupils are trained in the Fraternity of the Inner Light. The transliteration of Hebrew words into English is the subject of much diversity of opinion, every scholar appearing to have his own system. In these pages I have availed myself of the alphabetical table given by MacGregor Mathers in *The Kabbalah Unveiled* because this book is the one generally used by esoteric students. He himself does not adhere to his own table systematically, however, and even uses different spellings for the same words. This is very confusing for anyone who wishes to use the Gematric method of elucidation, in which letters are turned into numbers. When, therefore, Mathers gives alternative trans literations, I have followed the one which coincides with that given in his own table. The capitalisation employed in these pages may also appear unusual, but it is the one traditionally used among students of the Western Esoteric Tradition. In this system, common words, such as earth or path, are used in a technical sense to denote spiritual principles. When this is done, a capital is used to indicate the fact. When a capital is not used, it may be taken that the word is to be understood in its ordinary sense. As I have frequently referred to the authority of MacGregor Mathers and Aleister Crowley in matters of Qabalistic mysticism, it may be as well to explain my position in relation to these two writers. I was at one time a member of the organisation founded by the former, but have never been associated with the latter. I have never known either of these gentlemen personally, MacGregor Mathers having died before I joined his organisation, and Aleister Crowley having then ceased to be associated with it. The Society of the Inner Light, founded by the late Dion Fortune, has courses for those who wish seriously to pursue the study of the Western Esoteric Tradition. Unlock the esoteric origins of Kabbalah to discover hidden symbolic messages in the Bible and key occult texts The art of Gematria goes far deeper than the way in which people have come to understand it today. Originating in Biblical texts, Gematria is less about the cherry-picking and comparison of numbers, but a far more beautiful and ancient art, that is crucial for biblical interpretation and occult symbolism. In this revised and expanded version of the classic book, Bethsheba Ashe tackles questions which have been asked for as long as the Bible has existed - why Adam and Eve had to leave the Garden of Eden; how Moses parted the Red Sea; whether Elijah riding the fiery chariot to heaven as real - which can all be answered all through the art of gematria, in the most advanced and thorough study of the subject ever published to date. The ciphers in the book are utilized by the Shematria Gematria Calculator, created by the author herself to assist readers as she guides you through the ancient Hebrew system. Behold can be

read as both a student handbook, a history and an invaluable reference text; within its pages you will find everything needed to detect and read hidden gematria calculations. The new and expanded edition has been revised and reorganised and includes new material on the true meaning of the recently discovered Mount Ebal Curse tablet
