With so much attention on becoming our "best self," a fragmented view of wellness has emerged. This perspective has us focused on diets, exercise programs, biometric screening numbers, stress levels, etc. More enlightened approaches have grown to include mental well-being and mindfulness, but few invite us to draw from the source, the Divine realm-the God realm. True holistic wellness can only be accessed in the place where we've done our part as successfully as

we can, given our mental and physical abilities, then submitting the rest to God. There, God takes us to a new level of wellness where we have joy and fulfillment that is hard to describe. In this book, you will encounter the Well With God model placing God at the center-the source-and influencing these eight dimensions of wellness: Physical Wellness, Financial Wellness, Mental Wellness, Environmental Wellness, Occupational Wellness, Intellectual Wellness, Social Wellness, Spiritual Wellness
