Architects and artists have always acknowledged over the centuries that Rome is rightly called the 'eternal city'. Rome is

eternal above all because it was always young, always 'in its prime'. Here the buildings that defined the West appeared over more than 2000 years, here the history of European architecture was written. The foundations were laid even in ancient Roman times, when the first attempts were made to design interiors and thus make space open to experience as something physical. And at that time the Roman architects also started to develop building types that are still valid today, thus creating the cornerstone of later Western architecture. In it Rome's primacy remained unbroken -- whether it was with old St Peter's as the first medieval basilica or new St. Peter's as the building in which Bramante and Michelangelo developed the High Renaissance, or with works by Bernini and Borromini whose rich and lucid spatial

forms were to shape Baroque as far as Vienna, Bohemia and Lower Franconia, and also with Modern buildings, of which there are many unexpected pearls to be found in Rome. All this is comprehensible only if it is presented historically, i. e. in chronological sequence, and so the guide has not been arranged topographically as usual but chronologically. This means that one is not led in random sequence from a Baroque building to an ancient or a modern one, but the historical development is followed successively. Every epoch is preceded by an introduction that identifies its key features. This produces a continuous, lavishly illustrated history of the architecture of Rome -- and thus at the same time of the whole of the West. Practical handling is guaranteed by an alphabetical index and detailed maps, whose information does not just immediately illustrate the historical picture, but also makes it possible to choose a personal route through history.

Small on Purpose: Life in a Significant Church is a joyful and honest look at the kingdom-enriching characteristics of small congregations. Lewis Parks demonstrates how to see and build upon those strengths. His premise is not better/worse. Instead, Parks shows us how life in a small congregation is profoundly significant and the important role these churches play. This book includes clear instructions on how leaders can streamline ministry to maximize the unique and powerful contributions small churches make in their communities. This book is inspiring and practical, a refreshing point of view for the church and church leaders. "Small on Purpose reimagines what it means to be a congregation of ninety, sixty, or thirty by not focusing on size. I

especially appreciate Lewis Parks's attention to why 'soul care' is critical for congregations under 150 as a means of discipleship and outreach. Parks sees soul care as a countercultural act that creates meaning for many who are seeking family-like relationships. This book challenges all congregations to take seriously the small things they are doing—like soul care—as a compelling way to move into the future." —F. Douglas Powe Jr., Managing Director for The Institute for Community Engagement, Wesley Theological Seminary, Washington DC; author of *New Wine, New Wineskins* and *Not Safe for Church* from Abingdon Press "Lewis Parks writes with pitch-perfect tone about the life of small churches. He appeals to the experience of smaller congregations as gathering places of worship and service. There he sees signs of the Spirit moving, of tradition revived through song and word, of pastoral care shared across a congregation. Above all, he offers transformative words and perspectives with which small churches can claim their distinctive witness."

—Thomas Edward Frank, University Professor and Chair of the Department of History, Wake Forest College, Wake Forest University, Winston-Salem, NC "In a time when the culture is becoming more and more individualistic, Lew Parks strikes a chord for the great value of the gathered community of faith that is strengthened week by week through their faithfulness to the gospel and to one another. Gather in your small church and read this together. Your life and your community will be enriched."

—Bill McAlilly, Bishop, Nashville Area Episcopal Office, The United Methodist Church
