GREYSON MORA

Irlanda. Ediz. illustrata Rockport Publishers

An unprecedented, essential field guide to more than a century of fascinating product and industrial design. From legendary classics to anonymous objects that are indispensable in homes and offices, this one-of-a-kind collection of original patent documents celebrates the creative genius of designers, inventors, creators, innovators, and dreamers the world over. The range is phenomenal: patents by Eero Saarinen, Charles Eames, Isamu Noguchi, Ettore Sottsass, Raymond Loewy, and George Nelson sit alongside everyday designs for tape dispensers, pencil sharpeners, food processors, desk fans, and drink bottles to create a valuable reference that's also an irresistible browse.

Goya. Ediz. Illustrata Routledge

From scrolls and sheets of papyrus to elaborate and expensive codices to the mass press-printed volumes as we know them today, books have come a long way since writing was first developed. Although digital technology has impacted how we consume information over the last few decades, book design has survived as a means of showcasing creativity and craftsmanship, as books remain important sources of inspiration, knowledge, and entertainment. A Book on Books showcases some of the best book design work from all over the world in celebrating the designers' contributions to preserving reading culture, as they continue to make books eye-catching and exciting to read or own. It also captures the voices of key influencers from publishing, printmaking, book fair organizing, and bookshop-owning standpoints, as they continue to play a crucial role in keeping the book-making industry alive and thriving even in the unknown future.

Carlo Scarpa Michelin Travel Publications

NEW YORK TIMES BESTSELLER • The Academy Award-winning director of *Free Solo* and National Geographic photographer presents the first collection of his iconic adventure photography, featuring some of the greatest moments of the most accomplished climbers and outdoor athletes in the world, and including more than 200 extraordinary photographs. "An extraordinary work of art."—Jon Krakauer
 Filmmaker, photographer, and world-class mountaineer Jimmy Chin goes where few can follow to capture stunning images in death-defying situations. *There and Back* draws from his breathtaking portfolio of photographs, captured over twenty years during cutting-edge expeditions on all seven continents—from skiing Mount Everest, to an unsupported traverse of Tibet's Chang Tang Plateau on foot, to first ascents in Chad's Ennedi Desert and Antarctica's Queen Maud Land. Along the way, Chin shares behind-the-scenes details about how he captured such astounding images in impossible conditions, and tells the stories of the legendary adventurers and remarkable athletes he has photographed, including Alex Honnold, the star of his Academy Award-winning documentary film *Free Solo*; ski mountaineer Kit DesLauriers; snowboarder Travis Rice; and mountaineers Conrad Anker and Yvon Chouinard. These larger-than-life images, coupled with stories of outsized drive and passion, of impossible goals with life or death stakes, of partnerships forged through incredible hardship, are sure to inspire wonder and awe.

Yves Saint Laurent Museum Marrakech Phaidon Press

Made in close collaboration with Dieter Rams himself, this catalogue raisonné is the ultimate reference on one of the most influential product designers of all time

Typography for Screen Phaidon Press

Illustrated with hundreds of illuminating line drawings, this classic guide reveals virtually every secret of a building's function: how it stands up, keeps its occupants safe and comfortable, gets built, grows old, and dies—and why some buildings do this so much better than others. Drawing on things he's learned from the many buildings he himself designed (and in some cases built with his own hands), Edward Allen explains complex phenomena such as the role of the sun in heating

buildings and the range of structural devices that are used for support, from trusses and bearing walls to post-tensioned concrete beams and corbeled vaults. He stresses the importance of intelligent design in dealing with such problems as overheating and overcooling, excessive energy use, leaky roofs and windows, fire safety, and noisy interiors. He serves up some surprises: thermal insulation is generally a better investment than solar collectors; board fences are not effective noise barriers; there's one type of window that can be left open during a rainstorm. The new edition emphasizes "green" architecture and eco-conscious design and construction. It features a prologue on sustainable construction, and includes new information on topics such as the collapse of the World Trade Center, sick building syndrome, and EIFS failures and how they could have been prevented. Allen also highlights the array of amazing new building materials now available, such as self-cleaning glass, photovoltaics, transparent ceramics, cloud gel, and super-high-strength concrete and structural fibers. Edward Allen makes it easy for everyone—from armchair architects and sidewalk superintendents to students of architecture and construction—to understand the mysteries and complexities of even the largest building, from how it recycles waste and controls the movement of air, to how it is kept alive and growing.

Fra Angelico. Ediz. illustrata Rizzoli Publications

Alice Rawsthorn and Paola Antonelli, two of the world's most influential design figures, meet the visionary designers whose innovations and ingenuity give us hope for the future by redesigning and reconstructing our lives, enabling us to thrive. *Design Emergency* tells the stories of the remarkable designers, architects, engineers, artists, scientists, and activists, who are at the forefront of positive change worldwide. Focusing on four themes - Technology, Society, Communication, and Ecology - Alice Rawsthorn and Paola Antonelli present a unique portrait of how our great creative minds are developing new design solutions to the major challenges of our time, while helping us to benefit from advances in science and technology.

Renovated houses 2. Ediz. illustrata Museum of Modern Art

The first pop-up book on Florence. Dario Cestaro's spectacular drawings and paper architecture reveal Florence and its treasures in a pop-up book telling the city's history with straightforward texts and interesting facts. This fascinating journey in colored pages shaped into Florence's most celebrated landmarks will help even younger children to recognize the main buildings: the cathedral with its famous ogival dome; the Palazzo Vecchio with its great tower and crenellated walls; the Palazzo Pitti, once the Medicis' majestic ducal residence; the Ponte Vecchio, the iconic bridge over the Arno with its historic craft shops; the Church of Santa Croce, which contains tombs and monuments to many illustrious persons (Dante, Michelangelo, Galileo).

The Motorcycle Roaring Brook Press

Revealing the rich artistic history of this ever-changing art form, the A-to-Z format of this fully updated bestseller creates fascinating juxtapositions between the 500 iconic garden-makers of all time found within its pages

The Garden Book Phaidon Press

Written by a leading proponent of biophilic design, this is the only practical guide to biophilic design principles for interior designers. Describing the key benefits, principles and processes of biophilic design, *Nature Inside* illustrates the implementation of biophilic design in interior design practice, across a range of international case studies - at different scales, and different typologies. Starting with the principles of biophilic design, and the principles and processes in practice, the book then showcases a variety of interior spaces - residential, retail, workplace, hospitality, education, healthcare and manufacturing. The final chapter looks 'outside the walls', giving a case study at the campus and city scale. With practical guidance and real-world solutions that can be directly-applied in day-to-day practice, this is a must-have for designers interested in applying biophilic principles.

Grafton Architects Phaidon Press

An essential and compelling exploration of the design, history, and culture of the motorcycle - an

icon of the machine age Motorcycles are ubiquitous in the world's streets and cities, evolving over decades in engineering and design to meet individual transportation needs. With the coming demise of the internal combustion engine and the rise of electric powered vehicles, motorcycle design is being revolutionized by new technologies, the demands of climate change, and global social transformation. The Motorcycle: Desire, Art, Design traces the exciting evolution of this automotive icon - and the culture of desire, freedom, and rebellion that surrounds it. The Motorcycle showcases 100 superb examples of motorcycle design from the late 19th century to the present day and beyond to the technological innovations of the future. Beautifully illustrated with newly commissioned photography and archival ephemera, this visually arresting survey will prove compulsive reading to design lovers and motorcycle fans alike.

Studio KO L'Archivolta

In recent years Africa's booming art scene has gained substantial global attention, with a growing number of international exhibitions and a stronger-than-ever presence on the art market worldwide. Here, for the first time, is the most substantial survey to date of modern and contemporary African-born or Africa-based artists. Working with a panel of experts, this volume builds on the success of Phaidon's bestselling Great Women Artists in re-writing a more inclusive and diverse version of art history.

Formafantasma Fratelli Alinari spa

A study of over 40 years work by the Portuguese architect.

The Interior Design Reference & Specification Book Hoaki

A geographically organized survey of the world's most desirable and iconic residential interiors from the 1940s to today. 'The Atlas of Interior Design' is an unparalleled global tour of more than 400 captivating residential interiors from the past eight decades. From classic to contemporary, minimal to maximal, the homes included illuminate the design tropes unique to their location's context, while others confound preconceived ideas of vernacular design to spectacular effect. Exceptional photography and a descriptive text accompanying each project enrich this thoroughly researched and comprehensive volume.

There and Back Phaidon Press Limited

This guide offers the latest selection of hotels and restaurants in Great Britain and Ireland. It presents travellers with a wide choice of establishments at all levels of comfort and price.

Orlan. Le récit-The narrative. Ediz. illustrata Phaidon

Both a love letter to New York City and an introduction to graphic design, this is the story of how the designer Massimo Vignelli tackled the problem of creating a subway map that could be understood by all New Yorkers as well as out-of-towners. Filled with depictions of trains, subway stations, and the New York City skyline, the book follows Vignelli around the city as he tries to understand the system in order to translate it into a map. The book is produced in collaboration with the New York Transit Museum and features a section of historical and archival images and photographs. A groundbreaking work of information design, the subway map designed by Vignelli is an iconic work used by over a billion people every year. The Museum of Modern Art acquired the original 1972 diagram in 2004.

Popville Phaidon Press

Unique book addressing cooperative algorithms at the MAC layer Cooperative Communications: MAC Protocols focuses on issues pertaining to the MAC layer of wireless cooperative communication networks, offering a rigorous taxonomy of this dispersed field, along with a range of application scenarios for cooperative and distributed schemes to show how these techniques can be employed. The authors provide rigorous analytical tools for reservation and contention based MACs, as well as hybrids. This is complemented by an application of developed techniques to specific wireless

standards. There is currently no book on the market which coherently discusses cooperative algorithms at the MAC layer. Introduces background, concepts, applications, milestones and thorough taxonomy of the field, along with a range of application scenarios Identifies the potential in this emerging technology applied to e.g. LTE/WiMAX, WSN Explores reservation-based, contention-based and hybrid cooperative MAC protocols, and applies rigorous mathematical tools to these Demonstrates cross-layer design to boost performance Addresses advanced MAC topics, such as opportunistic and network coded MACs Highlights future research challenges within the cooperative communications Includes an accompanying website (<http://books.cttc.es>)

The Edge of the World Lars Müller Publishers

Cutting-edge typography for digital media and examples of how it is applied. It includes QR codes with links to the designers' videos and webpages, with examples of the fonts they use.

African Artists Phaidon Press

The world's most innovative and influential architect-designed houses created since the early 20th century Throughout history, houses have presented architects the world over with infinite opportunities to experiment with new methods and materials for domestic living. Houses: Extraordinary Living celebrates the incredible diversity and beauty of the house as never before, from Modernist icons to feats of technological, material, and spatial innovation in the 21st century. Explore the creative imaginations of hundreds of internationally renowned architects past and present, as well as dozens of awe-inspiring houses by lesser-known and emerging talents.

Radical Architecture of the Future Rowman & Littlefield

Photos and stories that will stop you in your tracks Created in partnership with Outside magazine for its 40th anniversary The gripping stories behind some of Outside's most iconic images. More than 140 of the best adventure photos ever featured in Outside With a foreword by world-renowned photographer Jimmy Chin and an introduction by Outside magazine's editor Christopher Keyes, Edge of the World is a stunning collection of the best photography ever published by the leader in outdoor adventure photography and journalism. Covering Outside's most compelling stories from throughout the years, it offers readers an inside and dramatic look through the lens of the world's top adventure photographers. First published in 1977, Outside magazine's mission is "to inspire active participation in the world outside through award-winning coverage of the sports, people, places, adventure, discoveries, health and fitness, gear and apparel, trends and events that make up an active lifestyle."

Paesaggi toscani. Ediz. illustrata Touring Editore

DIV In the world of interior design, thousands of bits of crucial information are scattered across a wide array of sources. The Interior Design Reference & Specification Book collects the information essential to planning and executing interior projects of all shapes and sizes, and distills it in a format that is as easy to use as it is to carry. You'll also find interviews with top practitioners drawn across the field of interior design. "Fundamentals provides a step-by-step overview of an interiors project, describing the scope of professional services, the project schedule, and the design and presentation tools used by designers. "Space examines ways of composing rooms as spatial environments while speaking to functional and life-safety concerns. "Surface identifies options in color, material, texture, and pattern, while addressing maintenance and performance issues. "Environments looks at aspects of interior design that help create a specific mood or character, such as natural and artificial lighting, sound and smell. "Elements describes the selection and specification of furniture and fixtures, as well as other components essential to an interior environment, such as artwork and accessories. "Resources gathers a wealth of useful data, from sustainability guidelines to online sources for interiors-related research. /div
