Songs of Kabir

Rabindranath Tagore -

Kabir lived in the 15th

Century (1440-1518);

born to Mohammadan

parents; he came under

the influence of the

famous Hindu saint; Sri

Ramananda and delved deep into the mysteries of Hindu mysticism. A true worshipper of God; he emphasized the purity of mind and selfless devotion to God. He openly opposed the weaknesses of both Hinduism and Islam. During his life time he composed many poems. They are usually two line couplets; known as dohas; recited by many

scholars even today to denote some deep philosophical truths. All these songs of Kabir were translated into English by none other than Rabindranath Tagore; the mystic poet and the Noble Laureate; the first edition; published by The Macmillan Company; 1915; New York. This book shall prove to be an asset for the Kabir lovers who can't enjoy his writings in

Hindi.

An enormously satisfying, exciting and enriching book, Vikram Chandra's novel draws the reader deep into the lives of detective Sartaj Singh and Ganesh Gaitonde, the most wanted gangster in India. Sartaj, the only Sikh inspector in the whole of Mumbai, is used to being identified by his turban, beard and the sharp cut of his trousers. But 'the silky Sikh' is now past forty, his marriage is over and his career prospects

are on the slide. When Sartaj gets an anonymous tip off as to the secret hideout of the legendary boss of the G-company, he's determined that he'll be the one to collect the prize. This is a sprawling, epic novel of friendships and betrayals, of terrible violence, of an astonishing modern city and its underworld. Drawing on the best of Victorian fiction, mystery novels, Bollywood movies and Vikram Chandra's years of first hand research on the streets of Mumbai, this novel reads

like a potboiling page-turner but resonates with the intelligence and emotional depth of the best of literature.

This book examines the structural changes in the labour market in North-East India. Going beyond the conventional study of tea and agricultural sectors, it focuses on the nature, pattern and

structure of work and employment in the region as well as documents emerging shifts in the labour force towards farm to non-farm dynamics. The chapters explore historical developments in employment patterns, labour market policies, issues of gender and social-religious dimensions, as well as point to growing forms of casual, informal and contractual labour across sectors. Through large-scale data and detailed case studies on unfree labour in plantations and

those employed in crafts, handloom and the manufacturing industry, the book provides insights into labour and employment in the region. It also delves into the temporal and spatial dimensions of non-farm employment and its relationship with rural income distribution and labour mobility. By bringing interdisciplinary perspectives from scholars working on North-East India, this work fills a major gap in the political economy of the labour market in the

region. The volume will be useful to scholars and researchers of development studies, North-East India studies, labour studies, economics, sociology and political science as well to those involved with governance and policymaking.

Radiating fire and ice, comets as a phenomenon seem part science, part myth. Two thousand years ago when a comet shot across the night sky, it convinced the Romans that Julius Caesar was a god. In 1066, Halley's Comet was interpreted as a foreshadowing of the death of Harold the Second in the Battle of Hastings. Even today the arrival of a comet often feels auspicious, confirming our hopes, fears, and sense of

wonder in the universe. In *Comets*, P. Andrew Karam takes the reader on a far-ranging exploration of these most beautiful and dramatic objects in the skies, revealing how comets and humanity have been interwoven throughout history. He delves into the science of comets and how it has changed over time; the way comets have been depicted in art, religion, literature, and popular culture; and how comets have appeared in the heavens through the centuries. Comprehensive

in scope and beautifully illustrated throughout, the book will appeal not only to the budding astronomer, but to anyone with an appreciation for these compelling and remarkable celestial bodies.

In his own words and with his trademark enthusiasm, Gold's tome will be the only book anyone wanting to make something of him or herself will ever need. The nationwide lockdown in 2020 to curb the spread of Covid-19 left millions of migrant labourers without jobs, food and shelter. Desperate and helpless, most took to the road, embarking on the long, often fatal, journey home. Ritesh, Ashish, Ram Babu, Sonu, Krishna, Sandeep and Mukesh-migrants from Bihar-undertook a similar journey on their bicycles that lasted for seven days and seven nights. Their harrowing trip from Ghaziabad, Uttar Pradesh, to their

hometown of Saharsa as they braved police lathis and insults, and battled hunger, exhaustion and fear, was documented by National Award-winning filmmaker Vinod Kapri. 1232 km is a story of the extraordinary courage of seven men in the face of tremendous odds.

Penguin  
I Will Survive is the story of Gloria Gaynor, America's "Queen of Disco." It is the story of riches and fame, despair, and finally salvation. Her

meteoric rise to stardom in the mid-1970s was nothing short of phenomenal, and hits poured forth that pushed her to the top of the charts, including "Honey Bee," "I Got You Under My Skin," "Never Can Say Goodbye," and the song that has immortalized her, "I Will Survive," which became a #1 international gold seller. With that song, Gloria heralded the international rise of disco that became synonymous with a way of life in the fast lane - the sweaty bodies at Studio

54, the lines of cocaine, the indescribable feeling that you could always be at the top of your game and never come down. But down she came after her early stardom, and problems followed in the wake, including the death of her mother, whose love had anchored the young singer, as well as constant battles with weight, drugs, and alcohol. While her fans always imagined her to be rich, her personal finances collapsed due to poor management; and while many envied her, she felt completely empty

inside. In the early 1980s, sustained by her marriage to music publisher Linwood Simon, Gloria took three years off and reflected upon her life. She visited churches and revisited her mother's old Bible. Discovering the world of gospel, she made a commitment to Christ that sustains her to this day. RAW Faber & Faber Zero-day vulnerabilities--software vulnerabilities for which no patch or fix has been publicly released-- and their exploits are useful in

cyber operations--whether by criminals, militaries, or governments--as well as in defensive and academic settings. This report provides findings from real-world zero-day vulnerability and exploit data that could augment conventional proxy examples and expert opinion, complement current efforts to create a framework for deciding whether to disclose or retain a cache of zero-day vulnerabilities and exploits, inform ongoing policy debates regarding stockpiling and

vulnerability disclosure, and add extra context for those examining the implications and resulting liability of attacks and data breaches for U.S. consumers, companies, insurers, and for the civil justice system broadly. The authors provide insights about the zero-day vulnerability research and exploit development industry; give information on what proportion of zero-day vulnerabilities are alive (undisclosed), dead (known), or somewhere in between; and establish some

baseline metrics regarding the average lifespan of zero-day vulnerabilities, the likelihood of another party discovering a vulnerability within a given time period, and the time and costs involved in developing an exploit for a zero-day vulnerability"-- Publisher's description.
