ELAINE WALKER

Diverse Teams at Work Peeters Publishers
 "Gone, finito, The End, I say. A father who puts an end to it all before he wears down the whole family deserves more praise than damnation." Two sisters travel to Sofia--in a convoy of luxury limousines arranged by a fellow Bulgarian exile--to bury their less-than-beloved father. Like tourists, they are chauffeured by the ever-charming Ruben Apostoloff--one sister in the back seat, one in the passenger seat, one sharp-tongued and aggressive, the other polite and considerate. In a caustic voice, Apostoloff shows them the treasures of his beloved country: the peacock-eye pottery (which contains poisonous dye), the Black Sea coast (which is utterly destroyed), the architecture (a twentieth-century crime). His attempts to win them over seem doomed to fail, as the sisters' Bulgarian

heritage is a heavy burden--their father, a successful doctor and melancholy immigrant, appears in their dreams still dragging the rope with which he hanged himself. An account of a daughter's bitterly funny reckoning with her father and his country, laden with linguistic wit and black humor, Apostoloff will introduce the unique voice of Sibylle Lewitscharoff to a new and eager audience.

 Darwinian theory holds that a successful life is measured in terms of reproduction. Bringing together work in anthropology, psychology, ethnography and the social sciences, this study explores the evolutionary purpose and possibilities of female post-generative life.

Days of the Bagnold Summer Meyer & Meyer Verlag

An edited group of 21 papers on urban

change; in addition, the author contributed the four initial chapters on theoretical methods. The remaining papers consider factors of urban change, mostly for the latter part of the 20th century, for countries in Europe, the Americas, South Africa, and Asia. Themes include migration, population change, and the impact of political change. The international group of contributors is made up of academics in geography, urban and regional planning, and demography. *Mathematical Buds* John Wiley & Sons
 Strategies for making differences in work teams an asset, not a liability are provided in this practical guide. Team members are helped to understand and make the most of their differences and to overcome barriers to achievement that are sometimes the result of diversity. More than 50 worksheets provide teams, team leaders, trainers, and consultants with processes, guidance, and tools to learn how to diversify groups while building relationships. An appendix provides an annotated list of resources, including

books, training activities, and videos that are helpful in developing group members and training team leaders.

Grandmotherhood W. W. Norton & Company

A sparkling debut about love, family, and the mysteries of the universe, perfect for fans of Jandy Nelson and Nicola Yoon. Linny has kept a journal of famous disappearances ever since her sister Grace ran away in the middle of the night. Sebastian is an aspiring astrophysicist with a working theory for everything—but the one thing he can't figure out is the identity of his birth father. They haven't met—yet—but Linny and Sebastian have one thing in common: an obsession with famous novelist and filmmaker Àlvaro Herrera, who who went missing three years ago and has just reappeared. As their lives converge around the mystery of Àlvaro, they begin to uncover the answers they've been looking for. With humor and heart, debut author Carlie Sorosiak weaves a story of searching for those who leave—and loving those who stay. "If Birds Fly Back feels like that last hazy, sun-drenched summer of high school, when you know you'll need to find your place in the world, but you're busy laughing and falling in love under starlit skies. It's the rarest author who can pull off laugh-out-loud hilarious, profound, and breathlessly romantic, all in the most sparkling prose. That shortlist includes Rainbow Rowell, Nicola Yoon, and now, Carlie Sorosiak."—Jeff Zentner, acclaimed author of *The Serpent King* and *Goodbye Days*

After the Shoah, Jewish survivors actively took control of their destiny. Despite catastrophic and hostile circumstances, they built networks and communities, fought for justice, and documented Nazi crimes. The essays, illustrations, and portraits of people and places contained in this volume are informed by a pan-European perspective. The book accompanies the first special exhibition at the re-opened Jewish Museum in Frankfurt.

Designing Families Age-Differentiated Work Systems

The disproportionate aging of the population of working age in many nations around the world is a unique occurrence in the history of humankind. In the light of demographic change, it is becoming increasingly important to develop and use the potential of older employees. This edited volume *Age-differentiated Work Systems* provides a final report on a six-year priority program funded by the German Research Foundation (DFG) and

presents selected research findings of 17 interdisciplinary project teams. The idea is that it will serve both as a reference book and overview of the current state of research in ergonomics, occupational psychology and related disciplines. It provides new models, methods, and procedures for analyzing and designing age-differentiated work systems with the aim of supporting subject matter experts from different areas in their decisions on labor and employment policies. Therefore over 40 laboratory experiments involving 2,000 participants and 50 field studies involving over 25,000 employees were conducted. Further objectives of the edited volume were to provide a pluridisciplinary compilation of the extensive information acquired over the six-year program period, to illustrate the range of the research field, and to convey an integrated understanding of age-differentiated work systems to readers.

Including considerations of sustainability in universities' activities has long since become mainstream. However, there is still much to be done with regard to the full integration of sustainability thinking into science and engineering curricula. Among the problems that hinder progress in this field, the lack of sound information on how to actually implement it is prominent. Created in order to address this need, this book presents a wealth of information on innovative approaches, methods and tools that may be helpful in translating sustainability principles into practice.

Online Distance Education: Towards a Research Agenda offers a systematic overview of the major issues, trends, and areas of priority in online distance education research. In each chapter, an international expert or team of experts provides an overview of one timely issue in online distance education, summarizing major research on the topic, discussing theoretical insights that guide the research, posing questions and directions for future research, and discussing the implications for distance education practice as a whole. Intended as a primary reference and guide for distance educators, researchers, and policymakers, *Online Distance Education* addresses aspects of distance education practice that have often been marginalized, including issues of cost and economics, concerns surrounding social justice, cultural bias, the need for faculty professional development, and the management and growth of learner communities. At once soundly empirical and thoughtfully reflective, yet also forward-looking and open to new approaches to online and distance teaching, this text is a solid resource for researchers in a rapidly expanding discipline.

Discover the quirky tale of single parenting and heavy metal behind the new film from director Simon Bird (The Inbetweeners) 'When someone looks back and writes a history of this summer, two people they will almost certainly leave out are Sue and Daniel Bagnold...' So begins Joff Winterhart's sublimely funny and perceptive graphic novel, Days of the Bagnold Summer. Sue, 52, works in a library. Daniel, 15, is still at school. This was the summer holidays Daniel was due to spend with his father and his father's pregnant new wife in Florida. When they cancel his trip, Sue and Daniel face six long weeks together... Joff Winterhart perfectly captures the ennui, the tension, the pathos and yes, the affection of this mother-son relationship. Already well-known for his animated films like Violet and Turquoise, he here shows himself to be a comics author of extraordinary talent. Shortlisted for the 2012 Costa Award for Best Novel

Among those who denounced the study of the philosophical tradition of classical antiquity was Manegold of Lautenbach. He aimed his fiery polemical tract, the "Liber contra Wolfelmum", at a master from Cologne who glorified the ancients while siding with the Holy Roman Emperor, Henry IV (1056-1106), against Pope Gregory VII (1073-1085) in the struggle known as the Investiture Controversy.

The public administration in Germany has been described as one of the world's 'classic administrative systems'. It was on German soil that one of the prime examples of the efficient service structure in public affairs originally developed which is so characteristic of the modern state. In view of the cracks in recent German history the continuing efficiency of public administration is considered remarkable. In addition German scholars - from Max Weber to Fritz Morstein Marx - whose works have attracted attention from far

beyond the confines of Germany, have contributed to the establishment of basic academic principles for an international discussion of administrative phenomena. But even in Germany the negative aspects of state bureaucracies have not gone unobserved and criticism from abroad of our particular political system has not exactly spared our public administration either. In some places ideas may persist that no longer match the reality of state and administration in today's Federal Republic of Germany.

International Handbook of Urban Systems McGraw-Hill Education

Urban Europe: A Study of Growth and Decline, Volume 1 contains the result of the first stage of the CURB project. The general aim of the CURB project is to study the financing of urban systems and to evaluate the costs associated with urban change. Organized into three parts, this book contains the initial conceptual framework that incorporates some elements of a behavioral theory of the spatial welfare-functions of key actors in the urban transformation process, viz. households, employers and governments. Part I details the elements of a theory of urban development. Part II describes the empirical analysis of urban development trends. The last part contains the elements of a theory on urban policy and an evaluation of national urban policies in Europe.
