**Bibliographic Guide to Theatre Arts** Guido Mondani Editore e Ass Gilbert Hottois est membre de l'Académie royale de Belgique et de l'Institut international de philosophie. Il enseigne la philosophie contemporaine à l'Université Libre de Bruxelles et a été professeur-visiteur dans plusieurs universités en Amérique, en Afrique, ainsi qu'au Collège de France. Forgeant le terme de " techno (-)

science " dès les années 1970, Gilbert Hottois a sensiblement contribué à la reconnaissance de la philosophie des techniques ignorée ou méprisée par la pensée philosophique dominante. La réflexion critique de Gilbert Hottois sur les rapports entre langage et philosophie a évolué vers l'examen des questions éthiques et politiques soulevées par les sciences et les techniques.

A stunning photographic survey of the beautiful wristwatches created by Richard Mille, whose timepieces are instantly recognisable by the use of high-tech materials and

incredible design Richard Mille, 54, has devoted his career to haute horology. His love for high-precision mechanism and his passion for technological perfection have inspired his creations. Thousands of hours devoted to engineering research in a state-of-the-art workshop in the Swiss Jura resulted in the realisation and marketing in 2001 of a wristwatch which was the most ergonomic and the most technically sophisticated watch of its time. Since then, about ten new models have been created and launched successfully. In a Richard Mille watch, the concept dictates the components, and not the other way round. Therefore there is no

"standard" part. Carbon fibre, silicon, metallic and non-metallic alloys and ceramics are no longer exclusive to the car, aeronautics or aerospace industries. These materials offer haute horology fabulous possibilities and new technical solutions, provided it accepts the challenge of their adaptation to watchmaking. These costly materials must be tried and tested many times before their full potential to watchmaking is appreciated and understood by the tool-makers and watch-mechanics. It can be considered therefore that Richard Mille watches are futuristic high-tech works of art. Text in English & French. AUTHOR: Alain Borer is a French poet

and writer and teaches at the University of Southern California, Los Angeles. In 2003 he received the Joseph Kessel prize for his novel *Koba*. He is also the author of *Icare & I don't* which won him the Apollinaire prize in 2008. ILLUSTRATIONS 200 colour illustrations

Université de Saint-

Etienne

French cinema is second only to Hollywood in the number of its movie stars who have emerged to achieve international fame. France is, in fact, arguably the only country other than the United States to have an international "star system." Yet these glamorous and charismatic stars differ from their U.S. counterparts in that they maintain more freedom to control their own images and often straddle both mainstream and auteur cinema. Ginette Vincendeau, a leading authority on French cinema, analyzes the phenomenon of French film stardom and provides brilliant in-depth studies of the major popular stars of

the French cinema: Max Linder, Jean Gabin, Brigitte Bardot, Jeanne Moreau, Louis de Funès, Jean-Paul Belmondo, Alain Delon, Catherine Deneuve, Gérard Philipe, and Juliette Binoche. This volume analyzes these stars' images and performance styles in the context of the French film industry, but also in relation to national culture and society. In the country where Brigitte Bardot and Catherine Deneuve have modeled for Marianne (the effigy of the Republic) and left-wing politicians have held up Jean Gabin as a role model, Vincendeau examines the unusual relationship between French film stars and national identity. Ginette Vincendeau is professor of film

studies at the University of Warwick. She is the author and editor of a number of books on cinema.

EDITORE  
PRESENTATION: HOW TO KNOW EVERYTHING

ABOUT THE ROLEX GMT-MASTER The GMT-Master was created to meet the needs of Pan American Airways to supply its pilots with a wristwatch able to indicate the time back home and the time in their arrival destination simultaneously. It was necessary to give the pilots a “technical” wristwatch, which indicated simultaneously the two different times. It is from this point that the request arose from Pan Am to Rolex, to create a new watch for modern age aviators: a watch with two time zones. The name GMT-Master was chosen... Are you a watch collector and you need information about the Rolex GMT-Master? Are you a watch dealer and you want to know exactly what you are

buying and selling? Do you want to know the real value of your GMT-Master? For all this and much much more, this book is perfect for you. You will also know the current value of every GMT-Master. TOPICS With high quality images, technical details and updated prices, this book shows and describes every GMT-Master and GMT-Master II reference. For each watch this guide explains every characteristic: crystal, bakelite bezel, anodized aluminium bezel, Cerachrom bezel, bracelet, case back, winding crown, case number with production year, dial, movement, hands, etc. Furthermore, the book shows: “Albino”, bachelite, “Batman”, bracelets, calibers, “circular” indexes,

“circular edged” indexes, “Cornino” crown guards, “standard” crown guards, GMT hand with small arrow, Green Dial, Oysterlock, sunken holes, vintage advertisements, Underline, box, papers, the “Ice” model, “Chuck Yeager”, “Tiffany & Co.”, “Mission Everest”, dials with Arab coats of arms, ... Attached are the updated estimates of every modern and vintage Rolex GMT-Master.

**Éducation physique et sport** Walter de Gruyter GmbH & Co KG Cet ouvrage propose des modèles d'analyse relatifs à la diffusion en France des pratiques sportives par l'intermédiaire de l'enseignement scolaire de l'éducation physique du XIXe

siècle à nos jours. Il s'agit d'appréhender la diversité des formes de pratiques retenues et d'en situer non seulement le sens au regard des contextes scolaires et sociaux dans lesquels ils s'inscrivent mais aussi d'en comprendre les multiples enjeux. En axant leurs analyses sur la place de l'élève, la nature des apprentissages, le lien avec les pratiques sociales, les modalités d'intervention pédagogique (forme de groupement, dispositifs pédagogiques, etc.), les distinctions de genre ou les liens avec les finalités, les différents chapitres identifient les inflexions successives et dépassent les justifications discursives pour mettre en valeur les mises en

œuvres pratiques pour chacune des activités physiques et sportives retenues (activités de pleine nature, activités de combat, athlétisme, basket-ball, danse, football, gymnastique, hand-ball, natation, rugby, sports de raquette, volley-ball). Pour démontrer le caractère dynamique des transformations envisagées et/ou réalisées, trois logiques sont croisées : • La mise en évidence des transformations des savoirs scolaires au regard de l'évolution des pratiques sociales. • La place accordée à l'enseignement analytique et plus généralement le statut accordé à la technique corporelle et/ou sportive dans les apprentissages. • Les questions relatives à la démarche

pédagogique. Voilà un ouvrage inédit qui intéressera tous les candidats aux concours de la fonction publique française ainsi que les chercheurs et les historiens du sport, de l'éducation tout autant que les enseignants intéressés par les transformations culturelles.

*Patrimoine sonore et audiovisuel français: L'audiovisuel et les sciences sociales* De Boeck Supérieur  
Cet ouvrage présente une multitude d'activités psychomotrices pouvant être utilisées en éducation, en rééducation ou en thérapie auprès d'enfants et d'adolescents. Les diverses activités ludiques, sportives et expressives peuvent favoriser le

développement physique, intellectuel et social de l'enfant.

Cercle D'art (Acc)

A multidisciplinary index covering the journal literature of the arts and humanities. It fully covers 1,144 of the world's leading arts and humanities journals, and it indexes individually selected, relevant items from over 6,800 major science and social science journals.

### **Bibliographie de la France**

This collection presents new essays in the complex field of French literary adaptation.

Using a variety of textual and interpretive approaches, it sheds light on issues of gender, sexuality,

class, politics and social conventions while acknowledging a range of contexts, from the commercial to the archival and the aesthetic. The chapters, written by eminent international scholars, run chronologically from The Count of Monte Cristo through Proust and Bonjour, Tristesse to Philippe Djian's Oh... (adapted for the screen as Elle). Collectively, they fill a need for contemporary discussions on the significance of France's literary representations in the history of global cinema.

PRESENTATION: ROLEX DAY-DATE, THE

“PRESIDENT’S WATCH”

The Rolex Day-Date is the first wristwatch which indicates the date and the day of the

week. In 1956 Rolex presents one of its most successful and most popular watches ever: the Day-Date,. This model is one of the world's most famous Rolex watches; classic, beautiful, functional, useful and elegant. In 2008 a new chapter of this watch, the Day-date II (ø 41 mm) and in 2015 the new Day-Date 40. Known as "President's Watch", this Rolex Day-Date has characterized and influenced the history of horology with developments and innovations during the years. With high definition unreleased images, technical details, dials variants, history and updated price of every model, this book analyses every reference from 1956 until today.

TOPICS In this book the authors examine calibers, dials, cases, bracelets and many more components of every model. You'll find all dials with their variants of color (Stella dial) and material (lapis lazuli, root wood, meteorite, etc). Furthermore: the first Rolex Day-Date, 1800 series, "pie-pan" dials, 18000 series, personalized dials, special series, vintage advertisements, box, papers, Oysterquartz Day-Date, 18200 and 18300 series, Day-Date II, Day-Date 40 and much more. We can read from an official Rolex document: « THE BIRTH OF THE "DATEJUST" AND THE "DAY-DATE" Not satisfied with having realized a selfwinding waterproof watch, we decided to dedicate

ourselves to studying the calendar watch. This is how the "Datejust", which clearly indicates the date on the dial in a small aperture with a Cyclops lens which enlarges it so as to make it easier to read, was born. The next stage was the launch of the "Day-Date", a perfected model which also indicates, with letters, the days of the week. The day and the date automatically change every evening at midnight. » These are the words of Roger Federer, a living tennis legend, about his Day-Date II: "The reason I like my Day-Date so much is because it is a legendary watch,

elegant but with a certain spirit, with a touch of modernity added to its stylish black dial".
