### SKINNER BREANNA

**5 Is the Perfect Number** Rowman & Littlefield

The vast scope of conservation problems has forced biologists and managers to rely on "surrogate" species to serve as shortcuts to guide their decision making. These species—known by a host of different terms, including indicator, umbrella, and flagship species—act as proxies to represent larger conservation issues, such as the location of biodiversity hotspots or general ecosystem health. Synthesizing an immense body of literature, conservation biologist and field researcher Tim Caro offers systematic definitions of surrogate species concepts, explores biological theories that underlie them, considers how surrogate species are chosen, critically examines evidence for and against their utility, and makes recommendations for their continued use. The book clarifies terminology and contrasts how different terms are used in the real world; considers the ecological, taxonomic, and political underpinnings of these shortcuts; identifies criteria that make for good surrogate species; outlines the circumstances where the application of the surrogate species concept shows promise. Conservation by Proxy is a benchmark reference that provides clear definitions and common understanding of the evidence and theory behind surrogate species. It is the first book to review and bring together literature on more than fifteen types of surrogate species, enabling us to assess their role in conservation and offering guidelines on how they can be used most effectively.

*Contemporary Anarchist Studies* Fantagraphics Books

Hard-boiled detective Bernie Gunther takes on a depraved serial killer terrorizing 1930's Berlin in the second gripping mystery in Philip Kerr's New York Times bestselling series. In the sweltering summer heat wave of 1938, the German people anxiously await the outcome of the Munich conference, wondering whether Hitler will plunge Europe into another war. Meanwhile, private investigator Bernie Gunther has taken on two cases involving blackmail. The first victim is a rich widow. The second is Bernie himself. Having been caught framing an innocent Jew for a series of vicious murders, the Kripo—the Berlin criminal police—are intent on locating the real killer and aren't above blackmailing their former colleague to get the job done. Temporarily promoted to the rank of Kommissar, Bernie sets out to solve the dual mysteries and begins an investigation that will expose him to the darkest depths of humanity...

*A Modern Guide to the Urban Sharing Economy* New Society Publisher

This report analyses all aspects of cultural diversity, which has emerged as a key concern of the international community in recent decades, and maps out new approaches to monitoring and shaping the changes that are taking place. It highlights, in particular, the interrelated challenges of cultural diversity and intercultural dialogue and the way in which strong homogenizing forces are matched by persistent diversifying trends. The report proposes a series of ten policy-oriented recommendations, to the attention of States, intergovernmental and non-governmental organizations, international and regional bodies, national institutions and the private sector on how to invest in cultural diversity. Emphasizing the importance of

cultural diversity in different areas (languages, education, communication and new media development, and creativity and the marketplace) based on data and examples collected from around the world, the report is also intended for the general public. It proposes a coherent vision of cultural diversity and clarifies how, far from being a threat, it can become beneficial to the action of the international community.

**Cinquième Procédé** New York Review of Books

Freedom in the World, the Freedom House flagship survey whose findings have been published annually since 1972, is the standard-setting comparative assessment of global political rights and civil liberties. The survey ratings and narrative reports on 192 countries and a group of select territories are used by policy makers, the media, international corporations, and civic activists and human rights defenders to monitor trends in democracy and track improvements and setbacks in freedom worldwide. Press accounts of the survey findings appear in hundreds of influential newspapers in the United States and abroad and form the basis of numerous radio and television reports. The Freedom in the World political rights and civil liberties ratings are determined through a multi-layered process of research and evaluation by a team of regional analysts and eminent scholars. The analysts used a broad range of sources of information, including foreign and domestic news reports, academic studies, nongovernmental organizations, think tanks, individual professional contacts, and visits to the region, in conducting their research. The methodology of the survey is derived in large measure from the Universal Declaration of Human Rights, and these standards are applied to all countries and territories, irrespective of geographical location, ethnic or religious composition, or level of economic development.

Freedom in the World, the Freedom House flagship survey whose findings have been published annually since 1972, is the standard-setting comparative assessment of global political rights and civil liberties. The survey ratings and narrative reports on 195 countries and fourteen territories are used by policymakers, the media, international corporations, civic activists, and human rights defenders to monitor trends in democracy and track improvements and setbacks in freedom worldwide. The Freedom in the World political rights and civil liberties ratings are determined through a multi-layered process of research and evaluation by a team of regional analysts and eminent scholars. The analysts used a broad range of sources of information, including foreign and domestic news reports, academic studies, nongovernmental organizations, think tanks, individual professional contacts, and visits to the region, in conducting their research. The methodology of the survey is derived in large measure from the Universal Declaration of Human Rights, and these standards are applied to all countries and territories, irrespective of geographical location, ethnic or religious composition, or level of economic development.

**Mayhem in the Marais** Musée Bartholdi

The acclaimed investigative reporter and author of *Confronting Collapse* examines the global forces that led to 9/11 in this provocative exposé. The attacks of September 11, 2001 were accomplished through an amazing orchestration of logistics and personnel. *Crossing the Rubicon* examines how such a conspiracy was possible through an interdisciplinary analysis of petroleum, geopolitics, narco-traffic, intelligence and militarism—without which 9/11 cannot be understood. In reality, 9/11 and the resulting "War on Terror" are parts of a massive authoritarian response to an emerging economic crisis of unprecedented scale. Peak Oil—the beginning of the end for our industrial civilization—is driving the elites of American power to implement unthinkable draconian measures of repression, warfare and population control. *Crossing the Rubicon* is more than a story of corruption and greed. It is a map of the perilous terrain through which we are all now making our way.

*Journal: 1851-1865* Simon and Schuster

A steampunk pre-WW1 adventure packed with wild inventions and crazed scientists. Lucien Brindavoine, a professional layabout and occasional photographer, inhabits a world of adventure that takes him to Istanbul. He ends up in 'Iron City' in the middle of a titanic struggle for the financial empire headed by Otto Lindenburg.

*Investing in Cultural Diversity and Intercultural Dialogue* Edward Elgar Publishing

Jacques Tardi's graphic novel *Goddamn This War!* is split into six chronological chapters, one for each year of WWI, drawn in a pen-ink-and-watercolor technique, with the bold colors of the early chapters fading into a grimy near-monochrome as the war drags on. It is told, with insight, dark wit and despair, as a first-person reminiscence/narration by an unnamed soldier.

**Magazine littéraire** Fantagraphics Books

With more than 5,000 works cited, *Handbook of Avian Hybrids of the World* is the greatest compendium of information ever published on hybridization in birds. Worldwide in scope, it provides information on all reported avian crosses, not only those occurring in captivity, but also in a natural setting (approximately 4,000 crosses are covered). This book is a basic reference, intended both for the serious birder and the professional biologist.

McCarthy's work fills a need for reference material that takes into account the last half century of data. It will be of interest to workers in a wide variety of fields, ranging from animal behavior to genetics, ecology, zoology, and systematics. In fact, it will make fascinating reading for anyone interested in birds and the natural world.

*Bibliographie de la littérature française (XVIe-XXe siècles)*. Island Press

From the New York Times bestselling author of *Leaving the World* and *The Moment* comes the riveting story of a luckless college professor for whom Paris becomes a city of mortal danger. A runaway bestseller in the UK and France that has been made into a film starring Ethan Hawke and Kristin Scott Thomas, this suspenseful tour de force from the internationally renowned Douglas Kennedy is the quintessential sophisticated commercial novel. Harry Ricks is a man who has lost everything. A romantic mistake at the small American college where he used to teach has cost him his job, his marriage, and the love of his only child. Hounded by scandal, he flees to Paris, where a series of accidental encounters lands him in a grubby room with a job as night watchman for a sinister operation. Just when he begins to think he has hit rock bottom, romance enters his life in the form of Margit—a cultivated, widowed Hungarian émigré who shares Harry's profound loneliness but who keeps her distance, remaining guarded about her past. As Harry wrestles with Margit's reticence, he begins to notice that all those who have recently done him wrong are meeting unfortunate

Best Sellers - Books :

ends—and it soon becomes apparent that he has stumbled into a nightmare from which there is no escape. *The Woman in the Fifth* further establishes Douglas Kennedy as an author who “always has his brilliant finger on the entertaining parts of human sorrow, fury, and narrow escapes” (Lorrie Moore).

*Le polar français depuis 1945* Stauffenburg

A New York Review Books Original Whether you call her a coldhearted grifter or the soul of modern capitalism, there's no question that Aimée is a killer and a more than professional one. Now she's set her eyes on a backwater burg—where, while posing as an innocent (albeit drop-dead gorgeous) newcomer to town, she means to sniff out old grudges and engineer new opportunities, deftly playing different people and different interests against each other the better, as always, to make a killing. But then something snaps: the master manipulator falls prey to a pure and wayward passion. Aimée has become the avenging angel of her own nihilism, exacting the destruction of a whole society of destroyers. An unholy original, Jean-Patrick Manchette transformed the modern detective novel into a weapon of gleeful satire and anarchic fun. In *Fatale* he mixes equal measures of farce, mayhem, and madness to prepare a rare literary cocktail that packs a devastating punch.

*The True Story of the Unknown Soldier* Drawn and Quarterly

En huit chapitres denses et documentés, l'auteur fournit un historique de l'édition de cette formule paralittéraire dont le succès de vente fait pâlir tous les autres genres. Un neuvième chapitre traite des études et essais suivi d'une bibliographie. Une deuxième partie procure la liste détaillée des ouvrages parus en collections depuis 1986. Un outil de référence.

*Freedom in the World 2006* Routledge

The first of two volumes presenting all of the world-renowned hardboiled crime graphic novels (one of which has never before been collected in English!). In the never-before-collected *Griffu*, the titular character is a legal advisor, not a private eye, but even he knows that when a sultry blonde appears in his office after hours, he shouldn't trust her — and she doesn't disappoint. *Griffu* is soon ensnared in a deadly web of sexual betrayal, real estate fraud, and murder. In *West Coast Blues*, a young sales executive goes to the aid of an accident victim, and finds himself sucked into a spiral of violence involving an exiled war criminal and two hired assassins. This volume also offers a bonus, 21-page unfinished story by Manchette and Tardi, as well as a single page introduction to another incomplete story, both appearing in English for the first time.

*Livres de France* eBooks

Collecting together *Manhattan*, a grimy story of depression, madness and suicide in New York City, whose appearance in the premiere issue of *RAW* magazine was key to the virtuoso aesthetic of the publication and three other tales of the Big Apple rendered by Tardi with the same panache as he does for Paris or the trenches of WW1 - in one spectacular volume. Also featured is the *Coackroach Killer*, a violent, surreal conspiracy thriller that features a striking two-colour black and red technique and remains one of the cartoonist's most startling works.

*The Demon of the Eiffel Tower* UNESCO

Mad geniuses, Jules Verne-style deliriums, dinosaurs, sex, bloodshed, and the madness of World War I -- two strange and surreal early works by a master of the comics form.

**The Pale Criminal** Iggybook

- Introduction by Art Spiegelman, winner of the Pulitzer Prize and author of *Maus*.- The book will appeal to graphic novel fans, mystery fans, WWII history buffs and devotees of Art Spiegelman's *Maus*.- For mature readers

*120 Rue de la Gare* Editions du Cercle de La Librairie

In its ongoing quest to showcase Jacques Tardi's wide range, *Fantagraphics* is publishing one of his earliest and most distinctive graphic novels: a satirical, Jules Vernes-esque "retro-sci-fi" yarn. In 1899, a ship navigating the Arctic Ocean comes across a stunning sight: a ghostly, abandoned vessel perched high atop an iceberg. Soon, the sailors' own ship is dispatched via a mysterious explosion. Enter Jérôme Plumier, whose search for his missing uncle, the inventor Louis-Ferdinand Chapoutier, brings him into contact with the sinister, frigid forces behind this-- and soon he, too, is headed towards the North Pole, where he will contend with mad scientists, monsters of the deep, and futuristic submarines and flying machines. Told with brio in hilarious slabs of vintage purple prose, *The Arctic Marauder* finds Tardi in fantastical mode and is a keystone of his oeuvre.

**The Woman in the Fifth** Nbm Publishing Company

*Freedom in the World* contains both comparative ratings and written narratives and is now the standard reference work for measuring the progress and decline in political rights and civil liberties on a global basis.

*Handbook of Avian Hybrids of the World* Rowman & Littlefield

This book highlights the recent rise in interest in anarchist theory and practice attempting to bridge the gap between anarchist activism on the streets and anarchist studies in the academia. Bringing together some of the most prominent voices in contemporary anarchism in the academy, it includes pieces written on anarchist theory, pedagogy, methodologies, praxis, and the future.

**New York Mon Amour** Oxford University Press

Aujourd'hui la bande dessinée est partout au point que l'on ne prête guère attention à la singularité de sa présence. À la une des magazines, dans les manuels scolaires, sur les murs des villes, l'image bédésiste a colonisé l'imaginaire des sociétés contemporaines. Qu'ils soient férus de littérature graphique, simples amateurs, indifférents, voire hostiles, les contemporains, face à cette débauche d'images, ne peuvent ignorer des personnages devenus familiers. Lecteurs et lectrices, de tous les âges et de toutes conditions, peuvent avec ravissement se plonger dans les univers de la BD, découvrir des mondes improbables, suivre des reportages, prendre la mesure des connaissances scientifiques. Ainsi se déploie une douce accoutumance à toutes les formes de narrations graphiques. Revues, festivals, rencontres contribuent à maintenir ou à accroître la dépendance aux bulles et aux cases. Mais, miroir déformant, la bande dessinée offre aussi un panorama des addictions à l'alcool, au tabac ou au sexe.
