"Archaic England" by
Harold Bayley is an
archeology book about
the application of the
jigsaw system to
certain archæological
problems of Great
Britain, Ireland, and
Central Europe.

Excerpt: "The fact is
now generally
accepted as proven by
both anthropologists
and archæologists,
that the most ancient
records of the human
race exist not in Asia,
but in Europe. The
oldest documents are
not the hieroglyphics of
Egypt, but the hunting-
scenes scratched on

bone and ivory by the European cave-dwelling contemporaries of the mammoth and the woolly rhinoceros. Human implements found on the chalk plateaus of Kent have been assigned to a period prior to the glacial epoch, which is surmised to have endured for 160,000 years, from, roughly speaking, 240,000 to 80,000 years ago. It is now also an axiom that the races of Europe are not colonists from somewhere in Asia, but that, speaking generally, they have inhabited their present districts more or less continuously from the time when they crept back gradually in the wake of the retreating ice."

The area known as Dogtown -- an isolated colonial ruin and surrounding 3,000-acre woodland in storied seaside Gloucester, Massachusetts -- has long exerted a powerful influence over artists, writers, eccentrics, and nature lovers. But its history is also woven through with tales of witches, supernatural sightings, pirates, former slaves, drifters, and the many dogs Revolutionary War widows kept for protection and for which the area was named. In 1984, a brutal murder took place there: a mentally

disturbed local outcast crushed the skull of a beloved schoolteacher as she walked in the woods. Dogtown's peculiar atmosphere -- it is strewn with giant boulders and has been compared to Stonehenge -- and eerie past deepened the pall of this horrific event that continues to haunt Gloucester even today. In alternating chapters, Elyssa East interlaces the story of this grisly murder with the strange, dark history of this wilderness ghost town and explores the possibility that certain landscapes wield their own unique power. East knew nothing of Dogtown's bizarre past when she first became interested in the area. As an art student in the early 1990s, she fell in love with the

celebrated Modernist painter Marsden Hartley's stark and arresting Dogtown landscapes. She also learned that in the 1930s, Dogtown saved Hartley from a paralyzing depression. Years later, struggling in her own life, East set out to find the mysterious setting that had changed Hartley's life, hoping that she too would find solace and renewal in Dogtown's odd beauty. Instead, she discovered a landscape steeped in intrigue and a community deeply ambivalent about the place: while many residents declare their passion for this profoundly affecting landscape, others avoid it out of a sense of foreboding. Throughout this richly braided first-person

narrative, East brings Dogtown's enigmatic past to life. Losses sustained during the American Revolution dealt this once thriving community its final blow. Destitute war widows and former slaves took up shelter in its decaying homes until 1839, when the last inhabitant was taken to the poorhouse. He died seven days later. Dogtown has remained abandoned ever since, but continues to occupy many people's imaginations. In addition to Marsden Hartley, it inspired a Bible-thumping millionaire who carved the region's rocks with words to live by; the innovative and influential postmodernist poet Charles Olson, who based much of his epic

Maximus Poems on Dogtown; an idiosyncratic octogenarian who vigilantly patrols the land to this day; and a murderer who claimed that the spirit of the woods called out to him. In luminous, insightful prose, Dogtown takes the reader into an unforgettable place brimming with tragedy, eccentricity, and fascinating lore, and examines the idea that some places can inspire both good and evil, poetry and murder.

Soft-spoken, cheerful, handsome, and well dressed, George West Musgrave "looked more like a senator than a cattle rustler." Yet he was a cattle rustler as well as a bandit, robber, and killer, "guilty of more crimes than Billy the

Kid was ever accused of.” In *Last of the Old-Time Outlaws*, Karen Holliday Tanner and John D. Tanner, Jr., recount the colorful life of Musgrave (1877-1947), enduring badman of the American Southwest. Musgrave was a charter member of the High Five/Black Jack gang, which was responsible for Arizona’s first bank hold-up, numerous post office and stagecoach robberies, and the largest Santa Fe Railroad heist in history. Following a decade-long hunt, he was captured and acquitted of killing a former Texas Ranger. After this near brush with prison or execution, he headed for South America, where he gained fame as the leading Gringo

rustler. It wasn’t until the 1940s that Musgrave’s age and poor health brought an end to a criminal career that had spanned two continents and two centuries.

Incorporating previously unknown facts about the career of this frontier outlaw, the Tanners thoroughly document Musgrave’s half-century of crime, from his childhood in the Texas brush country to his final days in Paraguay.

A New English Dictionary on Historical Principles Simon and Schuster

The human and natural history of a fragile Midwestern landscape While many people are familiar with the federally protected St. Croix and Namekagon Rivers of northwestern Wisconsin, few know about the Namekagon Barrens, a rare pine barrens landscape within a few miles of their confluence. A tiny remnant of the millions of barrens acres that once covered the region, the Namekagon Barrens Wildlife Area lies in the heart of the state's Northwest Sands, a band of pine and oak stretching from Bayfield on Lake Superior to St. Croix

Falls on the Wisconsin-Minnesota border. Unfathomable amounts of glacial sand and repeated fires over thousands of years shaped a land of scrub oak and jack pine, blueberries and sweet fern, creating an ideal habitat for wolves and sharp-tailed grouse. Just as compelling is the land's rich human history, from Paleo-Indian hunters to Ojibwe berry pickers, loggers to early road builders, and immigrants whose farming efforts failed to the wildlife habitat specialists who manage it today. The book, told in memoir style and featuring color photographs by the author, sets the land's unusual natural history as the backdrop for a multilayered story about the impact of

people on this vulnerable landscape. *Newton Free Library Bulletin* Arcadia Publishing
"An excellent novel. A lovely and moving portrait of society's outcasts...affirms the essential humanity of its poor and stubborn residents, for whom each day of survival is a victory" (The New York Times Book Review). Set on the high ground at the heart of Cape Ann, the village of Dogtown is peopled by widows, orphans, spinsters, scoundrels, whores, free Africans, and "witches." Among the inhabitants of this hamlet are Black Ruth, who dresses as a man and works as a stonemason; Mrs. Stanley, an imperious madam whose grandson, Sammy,

comes of age in her brothel; Oliver Younger, who survives a miserable childhood at the hands of his aunt; and Cornelius Finson, a freed slave.

At the center of it all is Judy Rhines, a fiercely independent soul, deeply lonely, who nonetheless builds a life for herself against all imaginable odds.

Rendered in stunning, haunting detail, with Anita Diamant's keen ear for language and profound compassion for her characters, *The Last Days of Dogtown* is an extraordinary retelling of a long-forgotten chapter of early American life.
