*Genealogical and Heraldic Dictionary of the Peerage and Baronetage of the British Empire* UNC School of Government  
 With an executive order from President Franklin Roosevelt in 1941, the United States Marine Corps--the last all-white branch of the U.S. military--was forced to begin recruiting and enlisting African Americans. The first black recruits received basic training at the segregated Camp Montford Point, adjacent to Camp Lejeune, near Jacksonville, North Carolina. Between 1942 and 1949 (when the base was closed as a result of President Truman's 1948 order fully desegregating all military forces) more than 20,000 men trained at Montford Point, most of them

going on to serve in the Pacific Theatre in World War II as members of support units. This book, in conjunction with the documentary film of the same name, tells the story of these Marines for the first time. Drawing from interviews with 60 veterans, *The Marines of Montford Point* relates the experiences of these pioneers in their own words. From their stories, we learn about their reasons for enlisting; their arrival at Montford Point and the training they received there; their lives in a segregated military and in the Jim Crow South; their experiences of combat and service in World War II, Korea, and Vietnam; and their legacy. The Marines speak with flashes of anger and humor, sometimes with sorrow, sometimes with great wisdom, and always with a pride fostered by incredible accomplishment in the face of adversity. This book serves to

recognize and to honor the men who desegregated the Marine Corps and loyally served their country in three major wars. *Flood Damage Prevention* BoD - Books on Demand

Examines the legal issues associated with government regulation of sexually oriented businesses. Addresses constitutional issues such as what type of sexually oriented activity can be banned entirely; zoning restrictions on the location of sexually oriented businesses--the type of restrictions most frequently used by local governments; how far the First Amendment allows local governments to go in restricting these businesses; what a local government must do to establish a proper legal foundation for its regulations; and the operational restrictions that can be imposed on sexually oriented businesses.

Daniel Russell is a good example of what Carl Degler has termed "the other South." The son of an aristocratic eastern North Carolina family of staunch Whig-Unionists, he entered politics when the Republican party first appeared in the state after the Civil War. For more than forty years thereafter he fought the solid South mentality of the Bourbon Democrats, first as a Radical Republican judge, then as a Greenbacker congressman, and finally as a Republican governor with Populist sympathies--the only chief executive of his party that North Carolina had between Reconstruction and the 1970s. The basic themes of Russell's political life were racial and economic in nature. As a judge on the state superior court he ruled in the Wilmington opera house case of 1873 that blacks could not be denied

accommodations on the account of their race. As a congressman he embraced the cause of currency reform and the regulation of corporate enterprise. Elected governor in 1896 by an uneasy coalition of Populists and Republicans--an alliance that Crow and Durden fully examine--he pushed reforms designed to bring nonresident corporations under stricter state supervision and challenged the ninety-nine-year lease of the state-owned North Carolina Railroad to J.P. Morgan's Southern Railway Company. The Democrats' triumphant white-supremacy campaigns of 1898 and 1900 and the resulting disfranchisement of black voters, however, crushed these progressive initiatives, and afterward the complex and sometimes irascible Russell kept a low profile until his term ended in 1901. His final years were taken up by a famous interstate lawsuit that he initiated to force North Carolina to pay certain Reconstruction debts it had repudiated. The reasons for Russell's political failure while southern Progressives of the period generally succeeded shed much new light on the reform movement in the South between 1890 and 1910. Although the reforms that he took up were no more radical than those called for by his contemporaries, Crow and Durden find in this first full account of his career that "in the last analysis, Russell's unique blend of Old South paternalism toward blacks with New South radicalism concerning currency and railway reform challenged too many taboos of race, class, and party."

There are over 80,000 people on probation in North Carolina. This book sets out the law and procedure of how probation officers and the court system respond to violations of probation with a focus on the courts' limited authority to revoke probation, after the Justice Reinvestment Act of 2011.
