## **KEMP POWERS**

### Almost a Childhood

Northwestern University  
Press  
The Story of Mary  
MacLane shocked the  
literary world when it was  
published in April 1902. It  
sold 100,000 copies in its  
first month, an  
astonishing number then  
and now. Within a few  
years it had been  
translated into 36  
languages, and writers  
such as Ernest  
Hemingway, Hart Crane,  
and Gertrude Stein lauded  
it as an important  
influence in their quests  
for a new American style.  
The author was a 19-year-  
old girl from the raw,  
masculine mining town of  
Butte, Montana. With the  
publication of this book,  
Mary MacLane became an  
overnight sensation. She  
was called the 'Wild  
Woman of Butte,' a  
Bohemian, a radical, a  
feminist, a rebel. Although  
MacLane went on to write  
other books, none had the  
impact of this one, which  
remains a tour de force  
about life, love, and  
longing. Fresh, frank, and  
funny, 'The Story of Mary  
MacLane' is as powerful  
today as it was

provocative when first  
published.

Annotation What are the  
practical and theoretical  
issues that concern and  
shape theological ethics?

This handbook offers a  
guide to the discipline.

Written by an  
international group of 30  
scholars, the book is  
aimed at all students and  
academics who want to  
explore more fully  
essential topics in  
Christian ethics.

Anthropologists have  
written a great deal about  
the coastal adaptations  
and seafaring traditions of  
Pacific Islanders, but have  
had much less to say  
about the significance of  
rivers for Pacific island  
culture, livelihood and  
identity. The authors of  
this collection seek to fill  
that gap in the  
ethnographic record by  
drawing attention to the  
deep historical  
attachments of island  
communities to rivers,  
and the ways in which  
those attachments are  
changing in response to  
various forms of economic  
development and social  
change. In addition to  
making a unique  
contribution to Pacific  
island ethnography, the

authors of this volume  
speak to a global set of  
issues of immense  
importance to a world in  
which water scarcity,  
conflict, pollution and the  
degradation of riparian  
environments afflict  
growing numbers of  
people. Several authors  
take a political ecology  
approach to their topic,  
but the emphasis here is  
less on hydro-politics than  
on the cultural meaning of  
rivers to the communities  
we describe. How has the  
cultural significance of  
rivers shifted as a result  
of colonisation,  
development and nation-  
building? How do people  
whose identities are  
fundamentally rooted in  
their relationship to a  
particular river  
renegotiate that  
relationship when the  
river is dammed to  
generate hydro-power or  
polluted by mining  
activities? How do  
blockages in the flow of  
rivers and underground  
springs interrupt the  
intergenerational  
transmission of local  
ecological knowledge and  
hence the ability of local  
communities to construct  
collective identities rooted  
in a sense of place?

### **Gendering European Integration Theory**

Simon and Schuster  
In this prescient essay

collection, the acclaimed author of Foucault's Pendulum examines the cultural trends and perils at the dawn of the 21st century. In the last decade of the 20th century, Umberto Eco saw an urgent need to embrace tolerance and multiculturalism in the face of our world's ever-increasing interconnectivity. At a talk delivered during the first Gulf War, he points out the absurdity of armed conflict in a globalized economy where the flow of information is unstoppable and the enemy is always behind the lines. Elsewhere, he questions the influence of the news media and identifies its contribution to our collective disillusionment with politics. In a deeply personal essay, Eco recalls his boyhood experience of Italy's liberation from fascism. He then analyzes the universal elements of fascism, including the "cult of tradition" and a "suspicion of intellectual life." And finally, in an open letter to an Italian cardinal, Eco reflects on a question underlying all the reflections in the book: What does it mean to be moral or ethical when one doesn't believe

in God? "At just 111 pages, Five Moral Pieces packs a philosophical wallop surprising in such a slender book. Or maybe not so surprising. Eco's prose here is beautiful."—January Magazine

The authors engage a dialogue between European integration theories and gender

studies. The contributions illustrate where and how gender scholarship has made creative use of integration theories and thus contributes to a vivid theoretical debate. The chapters are designed to make gender scholarship more visible to integration theory and, in this way stimulates the broader theoretical debates. Investigating the whole range of integration theory with a gender lens, the authors illustrate if and how gender scholarship has made or can make creative use of integration theories.

Cambridge University Press

Kuno, a male nurse in an old people's home in Switzerland, has a new inmate: his father. In the isolation of the home, they finally start talking. Kuno had always

regarded his father as boring, a man without a history and without a destiny until one day he realizes that he had once risked his life in the war. His ageing father had a destiny, and what a destiny it was! This realization changes Kuno's life, and he embarks on a journey into his own psyche which takes him to the depths of the Congo. Longings awaken and dreams come true rays of light in the darkness, meetings with kings, seductive women and the songs of the jungle: the alluring far-away places which he once regarded as the heart of darkness become an adventurous, exciting scene of lunacy, wildness and a test of his own inner strength. In his characteristic manner, Urs Widmer spins yet another riveting yarn, but this time he threads through the many aspects of the relationship between Europe and Africa an always timely tale. "

Robert Knapp brings invisible inhabitants of Rome and its vast empire to life. He seeks out the ordinary men, housewives, prostitutes, freedmen, slaves, soldiers, and gladiators, who formed the fabric of

everyday life in the ancient Roman world, and the outlaws and pirates who lay beyond it. He finds their own words preserved in literature, letters, inscriptions and graffiti and their traces in the nooks and crannies of the histories, treatises, plays and poetry created by members of the elite. He tracks down and pieces together these and other tell-tale bits of evidence cast off by the visible mass of Roman history and culture, and in doing so recreates a world lost from view for two millennia. We see how everyday Romans sought to survive and thrive under the afflictions of disease, war, and violence, and to control their fates before powers that variously oppressed and ignored them. Chapters on each of the main groups reveal how their worlds were linked in need, dependence, exploitation, hope and fear. Slaves and ex-soldiers merge into the world of the outlaw; slaves become freedmen; the sons of freedmen enlist as soldiers; and the concerns of women transcend every boundary. We see them all at last in the tumult of a great empire that shaped their worlds as it

reshaped the wider world around them.

A massive, long-overdue retrospective on the multimedia image critique of Hito Steyerl, influential artist and author of *Duty-Free Artand The Wretched of the Screen* Over the past 30 years, through video and installation, the immensely influential German artist and writer Hito Steyerl (born 1966) has been tracking the ways that images have mutated--from the analogue image and its manifold possibilities for montage to the fluidity of the split digital image--and the implications these mutations have had for the representation of wars, genocides and the flow of capital. "We are no longer dealing with the virtual but with a confusing and possibly alien concreteness that we are only beginning to understand," writes Brian Kuan Wood of the digital visual worlds that the artist presents. At nearly 500 pages, this book--the first substantial overview on Steyerl--looks at multimedia installations and film projects of the past ten years, as well as earlier works, all of which are united by the artist's

unflagging interrogation of the politics of the image.

**The Oxford Handbook of Theological Ethics** U of Minnesota Press  
First published in 2007. Emerging from communism in the early 1990s, the new state of Bosnia and Herzegovina was immediately embroiled in devastating ethnonationalist conflict. Now an international protectorate, the choices of its elites may well propel Bosnia either to a stable future, integrated into an expanding European entity, or to a future filled with insecurity, conflict, and adversity. This volume assesses current conditions in Bosnia, as well as the prospects for stability in a country torn between nationalistic elites on the one hand and the desires of important regional actors for control of Bosnia on the other, with a fractious international community overseeing the matter. Friedman controversially denies that the wars of Yugoslavia's dissolution are a necessary product of ancient ethnic hatreds, contending that Bosnia and Herzegovina was once the quintessential multi-ethnic, multireligious community

and could be again. Containing chapters on the country's history, economics, international relations, and politics, this book will provide social scientists with an accessible overview of contemporary Bosnia and Herzegovina.

Invisible Romans SAGE  
This is the standard work on The Global Sexual Revolution. First published in 2012, it is translated into 15 languages and updated for this edition. The new ideology of gender denies the binary structure of human existence as man and woman and overthrows moral limitations of sexuality. This destroys marriage and family as the foundation of culture.

The shock and slaughter of the battlefields of the Somme, Verdun and Passchendale is well documented. However, during the smaller battles soldiers could, and often did, make personal decisions. From these evolved a culture of live and let live, which constrained that of kill and be killed.

Carl Haffner is a brilliant chess tactician but he takes no pleasure from winning. As a master of defence he does not lose either and his games end in stalemate. So too does his life. As we are drawn into a battle on the chessboard, we come to learn about the player. Is it because he is shy or unambitious that victory on the chessboard, and in love, eludes him? Is he vowed to obscurity or does he bring it, unintentionally, upon himself? It is Vienna in 1910 and Haffner is playing the great Lasker for the title of world chess champion. As the games are played, Glavinic takes us back into Haffner's childhood and shows us the influence of his promiscuous father and

austere mother, revealing the fantasy world that the boy developed round himself. Glavinic skilfully uses the chessboard as the focus for a tightly woven psychological narrative.

**America and the Armenian Genocide of 1915** SAGE

Before Rwanda and Bosnia, and before the Holocaust, the first genocide of the twentieth century happened in Turkish Armenia in 1915, when approximately one million people were killed. This volume is an account of the American response to this atrocity. The first part sets up the framework for understanding the genocide: Sir Martin Gilbert, Vahakn Dadrian and Jay Winter provide an analytical setting for nine scholarly essays examining how Americans learned of this catastrophe and how they tried to help its victims. Knowledge and compassion, though, were not enough to stop the killings. A terrible precedent was born in 1915, one which has come to haunt the United States and other Western countries throughout the twentieth century and beyond. To read the essays in this volume is

chastening: the dilemmas Americans faced when confronting evil on an unprecedented scale are not very different from the dilemmas we face today.

The second edition of this compelling and popular book offers a unique global perspective on children's lives throughout the world. It shows how the notion of childhood is being radically re-shaped, in part as a consequence of globalization. Taking an engaging historical and comparative approach, the book explores social issues such as how children are constituted as raced, classed and gendered subjects; how children's involvement in war is connected to the globalization of capitalism and organized crime; and how school and work operate as sites for the governing of childhood. The book discusses wide-ranging topics including children's rights, the

family, children and war, child labour and young people's activism around the globe. In addition to updated literature throughout, the revised edition includes new chapters on migration and trafficking, and the role of play. The book will continue to be of great value to students and scholars in the fields of sociology, geography, social policy and development studies. It will also be a valuable companion to practitioners of international development and social work, as well as to anyone interested in childhood in the contemporary world. *Research Handbook of Expatriates* Transcript Publishing  
 Wie sind Kunstpraxis und kulturelle Teilhabemöglichkeit an die Kategorie Migration gekoppelt? Dieses Buch steht für den Perspektivenwechsel in der Kulturpolitik, der erforderlich ist, um für breitere Teile der Gesellschaft das Recht auf Zugang zu Kunst und Kultur umzusetzen. Es zeigt Phänomene der Unterrepräsentation sowie innovative gesellschaftliche Handlungswege auf und veranschaulicht, wie

transkulturelle Kunstpraxis möglich wird und wie Kunstproduktionen, die der Vielheit der Bevölkerung entsprechen, im Konkreten organisiert

werden können. Als Ausgangspunkt der Expertise dienen die Erkenntnisse aus der Praxis, die im Wiener 'KunstSozialRaum

Brunnenpassage', einem Labor und Praxisort transkultureller und partizipativer Kunstprozesse, seit Gründung 2007 gewonnen wurden.
